(November 13 – 17, 2017)

Public Information Workshops for Part 150 Airport Noise Compatibility Planning Study Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

DATE: Monday, November 13, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Southwest Ranches Town Hall
13400 Griffin Road, Southwest Ranches, FL 33330

DATE: Tuesday, November 14, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Anne Kolb Nature Center
751 Sheridan St., Hollywood, FL 33019

DATE: Wednesday, November 15, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Deicke Auditorium
5701 Cypress Road, Plantation, FL 33317

DATE: Thursday, November 16, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Signature Grand
6900 FL-84, Davie, FL 33317

DATE: Friday, November 17, 2017
TIME: 6:00PM - 8:30PM
LOCATION: BCPS Boardroom
600 SE 3rd Avenue, 1st Floor, Fort Lauderdale, FL 33301

At key points during the project, newsletters will provide updates on study progress. BCAD will also host additional public workshops to provide future opportunities for input throughout the Study. BCAD encourages all interested parties to monitor the project website for the latest study information and announcements at www.fllpart150.com

Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact **1-800-974-2703**.

Public Invited to Workshops for the Part 150 Noise Study

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information and staff/consultants to answer questions. Topics include:

- Part 150 Study process.
- Project schedule.
- Introduction to noise.
- Information about modelling aircraft noise exposure.

Open House Format

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction with staff/consultants and sharing of information and concerns. You may attend any workshop and at any time during the open house.

Comments

Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

Meeting Dates and Locations

Date: Monday, November 13, 2017

Time: 6 - 8:30 p.m.

Location: Southwest Ranches Town Hall, 13400 Griffin Road, Southwest Ranches, FL 33330

Date: Tuesday, November 14, 2017

Time: 6 - 8:30 p.m.

Location: Anne Kolb Nature Center, 751 Sheridan St., Hollywood, FL 33019

Date: Wednesday, November 15, 2017

Time: 6 - 8:30 p.m.

Location: Delco Auditorium, 5701 Cypress Road, Plantation, FL 33317

Date: Thursday, November 16, 2017

Time: 6 - 8:30 p.m.

Location: Signature Grand, 6900 FL-84, Davie, FL 33317

Date: Friday, November 17, 2017

Time: 6 - 8:30 p.m.

Location: Broward County Public Schools Boardroom, 600 SE 3rd Avenue, 1st Floor, Fort Lauderdale, FL 33301

More Information

At key points during the project, newsletters will provide updates on study progress. BCAD will also host additional public workshops to provide future opportunities for input throughout the Study. BCAD encourages all interested parties to monitor the project website [FLLPart150](#) for the latest study information and announcements.

Federal Regulations

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, Airport Noise Compatibility Planning.

Special Accommodations

Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact 1-800-974-2703.

This E-Sheet confirms that the ad appeared in Sun-Sentinel on the date and page indicated. You may not create derivative works, or in any way exploit or repurpose any content displayed or contained on the electronic tearsheet.

Notice to Creditors

IN THE CIRCUIT COURT FOR BROWARD COUNTY, FLORIDA PROBATE DIVISION
IN RE: ESTATE OF VALENTINA L MARTINEZ ARAUJO, Deceased
File No. PR00002605

THE administration of the estate of VALENTINA L. MARTINEZ ARAUJO, deceased, whose date of death was March 19, 2017, is pending in the Circuit Court for Broward County, Florida, Probate Division, the address of which is 201 SE 6th Street, Fort Lauderdale, FL 33301. The names and addresses of the personal representative and the personal representative's attorney are set forth below.

All creditors of the decedent and other persons having claims or demands against decedent's estate on whom a copy of this notice is required to be served must file their claims with this court WITHIN THE LATER OF 3 MONTHS AFTER THE TIME OF THE FIRST PUBLICATION OF THIS NOTICE OR 30 DAYS AFTER THE DATE OF SERVICE OF A COPY OF THIS NOTICE ON THEM.

All other creditors of the decedent and other persons having claims or demands against decedent's estate must file their claims with this court WITHIN 3 MONTHS AFTER THE DATE OF THE FIRST PUBLICATION OF THIS NOTICE.

ALL CLAIMS NOT FILED WITHIN THE TIME PERIODS SET FORTH IN SECTION 733.102 OF THE FLORIDA PROBATE CODE WILL BE FOREVER BARRED.

NOTWITHSTANDING THE TIME PERIODS SET FORTH ABOVE, ANY CLAIM FILED TWO (2) YEARS OR MORE AFTER THE DECEDENT'S DATE OF DEATH IS BARRED.

The date of the first publication of this notice is 10/25/2017. Attorney for Personal Representative: Tribulian Law Firm 3300 PGA Blvd., Suite 520 Palm Beach Gardens, FL 33410 E-mail: Robert@TribulianLaw.com Tel: 561-383-3895 Cell: 561-676-4049

Advertisement for Bids

**CITY OF PARKLAND, FLORIDA
Invitation to Bid- Network Switch Infrastructure Upgrades**

The City of Parkland, Florida is currently requesting bids for qualified companies to provide for the:

**Network Switch Infrastructure Upgrades
ITB # 2018-06.**

The City of Parkland is requesting sealed bids for Network Switch Infrastructure upgrades across the entire city campus according to exhibits and specifications attached hereto.

Sealed bids will be received at the City of Parkland City Hall 6600 University Drive, Parkland, Florida, 33067, until Tuesday, November 14, 2017 2:30 PM Local time, at which time they will be publicly opened and read. All bidders or their representatives are invited to be present. Bids shall be delivered and addressed to, City of Parkland, Attn: City's Clerk's Office, 6600 University Drive, Parkland, Florida 33067 and sealed bids must be submitted to FOR NETWORK SWITCH INFRASTRUCTURE UPGRADES ITB 2018-06."

Any bidder who wishes his bid to be considered is responsible for making certain that his bid is received in the City by the proper time. No oral, telegraphic, electronic, facsimile, or telephonic bids or modifications will be considered unless specifically specified. Bids received after the scheduled Bid Submittal Deadline will be returned unopened. It is the responsibility of the bidder to see that any bid submitted after the scheduled time to be received by the City before the Bid Submittal Deadline. Late bids will be returned to the Proposer unopened.

The bidder must submit one (1) identified original, one (1) electronic, and one (1) copy of the bid including any attachments. The bid shall be signed by a representative who is authorized to contractually bind the bidder.

Sealed documents may be obtained from the City of Parkland at 6600 University Drive, Parkland, Florida 33067, from the city's Web Site at: www.cityofparkland.org, or via DemandStar. For information, please call Ned Franklin, IT Manager – (561) 787-4114.

02/27/2017

**TOWN OF DAVIE
RFP NO. CS-18-10
REQUEST FOR PROPOSALS
Strategic Planning Services
Re Potential Respondent:**

The Town of Davie seeks an experienced strategic planning consultant to design and facilitate a participatory planning process that will help create a three (3) year strategic plan for the town built around already established mission statement and priorities. The Town of Davie, Florida invites qualified firms to submit responses in accordance with the scope of services, terms and conditions contained in the RFP NO. CS-18-10. The RFP NO. CS-18-10 is available for review on Friday, November 17, 2017, for RFP NO. CS-18-10 Strategic Planning Services. Interested firms may secure the solicitation package and request pertinent information by visiting <http://www.davie-flgov.com/bids> or at emandstar.com.

Questions regarding this solicitation shall be submitted in writing to bids@daivie-fl.com no later than 5:00 PM on Thursday, November 9, 2017. Responses to those questions considered material to the solicitation shall be made available as a formal addenda on the Town's Purchasing website and DemandStar.com. It is the responsibility of prospective respondents to ensure they are aware of all addenda issued relative to this solicitation.

Interested respondents shall submit One (1) original complete proposal package + Four (4) duplicate copies of said package. One copy shall be submitted to the Town of Davie Budget and Finance / Purchasing Department – Attention: Purchasing Manager, Brian K. O'Connor, 6591 Orange Drive, Davie, FL 33014, or before the due date indicated above. All packages shall be clearly marked "RFP NO. CS-18-10 Strategic Planning Services. The Town will not be responsible in the event the U.S. Postal Service or any other courier system fails to deliver any package by the above referenced deadline. Late submissions shall not be accepted.

RFP responses will be publicly opened and firm names read aloud in the Town of Davie Council Chambers on the due date noted above. The selection of the winning firm shall be made at the Town's discretion and shall be made in prompt manner after the receipt and evaluation of all RFP responses. The Town of Davie reserves the right to reject any and all submissions, to waive any and all irregularities in any submission, and make awards in the best interest of the Town.

Brian K. O'Connor
Procurement Manager
Town of Davie

Pursuant to Florida Statutes 119.071, sealed bids, proposals or replies by an agency pursuant to a competitive solicitation are exempt from inspection until such time as the agency provides notice of an intended decision or until thirty (30) days after the opening of the bids, proposals, or final replies, whichever is earlier.

Description:

Public Information Workshops for
Part 150 Airport Noise Compatibility Planning Study
Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

DATE:	Monday, November 13, 2017

Continued from Page 1B

the city to install a bike path network, Sumislaski said. But there are drawbacks, he said. Speeding probably would increase, and it could be more difficult for drivers to get to businesses or recover from wrong turns. It could be a temporary inconvenience for some businesses, said lawyer Michael Liss, whose firm is downtown. "I think it would be a positive," said Liss, who also heads the Downtown Business Alliance, a networking coalition of businesses in the area. "But it isn't high on my priority list." U.S. 1 already is split in Delray Beach, where it leads north on Southeast Sixth Avenue and south on Southeast Fifth. A similar one-way setup exists in West Palm Beach. In order for the plan to work in Boca, the city would need to get approval from Palm Beach County, which maintains Dixie Highway,

"If we do nothing, we're going to have multiple failing intersections in our downtown."

Susan Haynie, Boca mayor

and the FDOT, which has jurisdiction over Federal. Converting Federal would require major reconstruction to eliminate the median and possibly one of the travel lanes, said FDOT District 4 spokesman Chuck McGinness. Dan Grippo, Boca's director for development services, said the city would have to look at improving each intersection one by one if officials chose not to go forward with the project. "They're going to fail regardless," Grippo said. "So we should do something with those intersections in the next few years."

Talleres de Información al Público sobre el Estudio de Planeación de Compatibilidad de Ruido en el Aeropuerto (Sección 150) Aeropuerto Internacional de Fort Lauderdale-Hollywood

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le invita a asistir a uno de los varios talleres abiertos al público sobre el Estudio de la Parte 150 (Part 150). Se llevarán a cabo cinco talleres con exhibiciones informativas. Los talleres abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto, una introducción al tema del ruido y la modelación de la exposición a ruido emitido por los aviones.

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de Fort Lauderdale (FLL) con las comunidades vecinas. El estudio, titulado “Part 150 Study” (Estudio de la Sección 150) seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, Planeación de la Compatibilidad del Ruido Aeroportuario.

Estos talleres tendrán un formato de "Open House" en diferentes lugares de las comunidades que rodean al aeropuerto. No se llevará a cabo una presentación formal. Esto dará a los asistentes la oportunidad de una interacción personal, donde se puedan compartir información y preocupaciones sobre el tema. Durante el Open House, usted podrá asistir a cualquier taller en cualquier momento. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el FLL. La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

Public Information Workshops for
Part 150 Airport Noise Compatibility Planning Study
Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

President Trump's
Mar-a-Lago soon
will be reopening

By TERRY SPENCER
Associated Press

PALM BEACH — It's November, which means President Donald Trump's Mar-a-Lago is reopening after being closed during the brutal heat and humidity of Florida's summer. If last season is a guide, the president will soon visit his Winter White House, staying several days at Thanksgiving, Christmas and New Year's and then return many more weekends until May.

But he will find a major difference this season. Because of the outcry that followed Trump's remarks in connection with a white nationalist rally, Mar-a-Lago will host many fewer galas: about 20 charities have canceled or moved their events, with only a few newcomers taking their place.

Trump caused an uproar after blaming the violence that erupted in Charlottesville on both sides: the white nationalists who came to protest the removal of a Confederate statue from a city park and those who opposed them.

Since Mar-a-Lago's grand ballroom opened more than 20 years ago, it has annually hosted numerous charity galas between Thanksgiving and Easter.

But there won't be many galas at Mar-a-Lago this season. Several major national charities moved or canceled their fundraisers after Trump's Charlottesville comments, including the American Cancer Society, Cleveland Clinic, the International Red Cross, the Salvation Army and the breast cancer organization Susan G. Komen.

**Talleres de Información al Público sobre
el Estudio de Planeación de Compatibilidad de Ruido en el Aeropuerto
(Sección 150)
Aeropuerto Internacional de Fort Lauderdale-Hollywood**

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le invita a asistir a uno de los varios talleres abiertos al público sobre el Estudio de la Parte 150 (Part 150). Se llevarán a cabo cinco talleres con exhibiciones informativas. Los talleres abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto, una introducción al tema del ruido y la modelación de la exposición a ruido emitido por los aviones.

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de Fort Lauderdale (FLL) con las comunidades vecinas. El estudio, titulado “Part 150 Study” (Estudio de la Sección 150) seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, *Planeación de la Compatibilidad del Ruido Aeroportuario*.

Estos talleres tendrán un formato de "Open House" en diferentes lugares de las comunidades que rodean al aeropuerto. No se llevará a cabo una presentación formal. Esto dará a los asistentes la oportunidad de una interacción personal, donde se puedan compartir información y preocupaciones sobre el tema. Durante el Open House, usted podrá asistir a cualquier taller en cualquier momento. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el FLL. La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

Study Kick-Off Public Information Workshops

Handouts

(November 13 – 17, 2017)

AVIATION DEPARTMENT - Fort Lauderdale-Hollywood International Airport

2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Welcome to the Ft. Lauderdale-Hollywood International Airport (FLL) Public Information Workshop for the Part 150 Airport Noise Compatibility Planning Study

The Broward County Aviation Department (BCAD) welcomes and thanks you for attending this public workshop for the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL).

BCAD recently began a study to improve the compatibility of FLL with the surrounding communities. This study, known as a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

The workshop will be an "open house" format and there will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

The following pages of this handout will guide you through each of the seven stations available at tonight's workshop. We encourage you to visit each station and review the materials provided. Members of the study team are available to answer any questions you have.

STATION 1: THE PART 150 STUDY PROCESS

Station 1 will guide you through the study process dictated by 14 CFR Part 150, the federal regulation that establishes the methodology to be followed when determining aircraft noise exposure on the surrounding communities as well as developing a program to ensure the compatibility of surrounding land uses with the anticipated noise exposure.

List of Presentation Boards at Station 1:

1. 14 CFR Part 150 Overview
2. Why Conduct a 14 CFR Part 150 Study
3. Key Issues for this Part 150 Study
4. Additional Part 150 Study Information
5. Regulatory Framework
6. Phases of a Part 150 Study
7. General Study Process
8. 14 CFR Part 150 Terminology

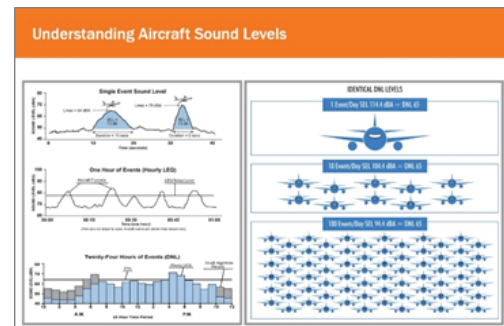

STATION 2: UNDERSTANDING NOISE AND SOUND LEVEL METRICS

Station 2 contains five boards that explain the science behind acoustics and the various sound level metrics used in a Part 150 Study. It also provides information regarding various land uses and noise sensitive sites as well as providing the location of existing noise monitoring locations surrounding FLL.

List of Presentation Boards at Station 2:

1. Day-Night Average Sound Level (DNL)
2. Understanding Aircraft Sound Levels
3. DNL Noise Contour Example
4. Part 150 Study Overview – Land Use Compatibility
5. Noise Monitoring Sites

STATION 3: STAKEHOLDER OUTREACH

Station 3 discusses the stakeholder outreach program designed to involve local officials, jurisdictions, agencies, FLL tenants, and the public in the Part 150 Study process. Their involvement is essential to the success of the overall study.

List of Presentation Boards at Station 3:

1. Public Outreach Plan Development and Initial Workshops
2. Purpose and Objectives of the Technical Committee (TC)
3. TC Members
4. Preliminary Part 150 Study Schedule

STATION 4: FLL OVERVIEW

Station 4 provides a general overview of FLL as well as data and statistics regarding the operational history and growth of the airport. This data is required to accurately model the Noise Exposure Maps in accordance with the 14 CFR Part 150 regulation.

List of Presentation Boards at Station 4:

1. FLL Overview (Aerial Photograph)
2. FLL Overview (Usage Statistics)
3. Data Collection– 2016 Operational Information
4. Aircraft Activity Forecast

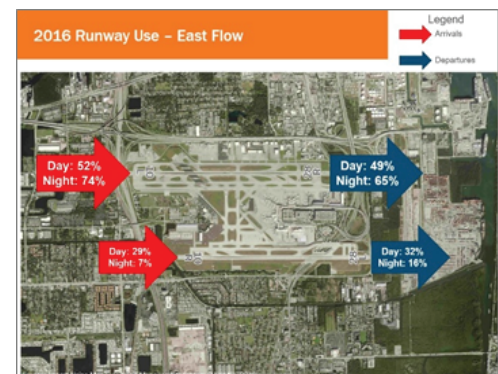

STATION 5: RUNWAY USE

Station 5 provides operational data related to the use of the two primary runways (Runways 10L-28R and 10R-28L) at FLL, including utilization shown between day/night and east/west flow uses.

List of Presentation Boards at Station 5:

1. 2016 Runway Use – East Flow
2. 2016 Runway Use – West Flow
3. Runway Use
4. 2016 Flight Track Densities – East Flow Arrivals
5. 2016 Flight Track Densities – East Flow Departures
6. 2016 Flight Track Densities – West Flow Arrivals
7. 2016 Flight Track Densities – West Flow Departures

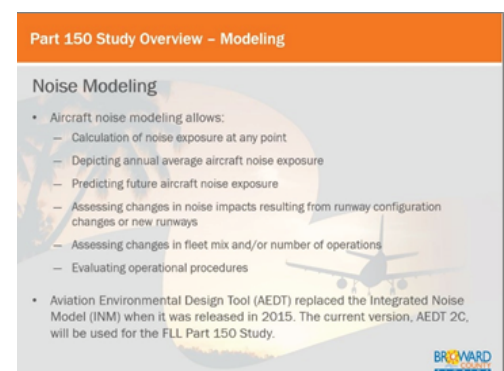

STATION 6: NOISE MODELING

Station 6 provides a brief introduction to the noise modeling process used in Part 150 studies including the data requirements and collection process.

List of Presentation Boards at Station 6:

1. Noise Modeling
2. Model Inputs
3. Aviation Environmental Design Tool (AEDT) Inputs

STATION 7: STAKEHOLDER INPUT

Station 7 outlines the existing noise program and some of the concerns that we've heard so far in the FLL Part 150 Study. It also provides information on how to stay informed and provide feedback throughout the Study. Stakeholder input is an important part of the process and will continue to be solicited throughout the Study.

List of Presentation Boards at Station 7:

1. Existing Noise Program Overview
2. Part 150 Overview – FAQs
3. Feedback – What We've Heard
4. Study Website
5. How to Provide Comments

Thank you for attending tonight's workshop.
You may provide written comments during this public workshop
via the available comment forms, or you can submit comments by mail
to the following address:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Please provide comments by December 1, 2017.

Updates to the Part 150 Study and additional comment
options are provided on the project website at:

www.fllpart150.com

Thank You for Your Participation!

DEPARTAMENTO DE AVIACIÓN – Aeropuerto Internacional de Fort Lauderdale-Hollywood

2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Le damos la bienvenida al Taller de Información al Público sobre el Estudio de Planeación de Compatibilidad de Ruido Sección 150 en el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL)

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le da la bienvenida y también le agradece por asistir a este taller, abierto al público, sobre el Estudio de la Sección 150 (Part 150) para el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL).

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de FLL con las comunidades vecinas. Este estudio, denominado en inglés “Part 150 Study” o Estudio Sección 150, seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, Planeación de la Compatibilidad del Ruido Aeroportuario.

El taller tendrá un formato de “open house”; no se llevará a cabo una presentación formal. Esto brindará a los asistentes una interacción personal, donde se puedan compartir información e inquietudes sobre el tema. Se abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto y una introducción al tema del ruido, así como una modelación de la exposición al ruido emitido por los aviones. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el Aeropuerto de Fort Lauderdale (FLL). La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

Las siguientes páginas de este folleto le guiarán a través de cada una de las siete estaciones disponibles en este taller. Le invitamos a que visite cada estación y revise los materiales proveídos. Miembros del equipo de estudio están disponibles para contestar cualquier pregunta que tenga.

ESTACIÓN 1: EL PROCESO DEL ESTUDIO “SECCIÓN 150”

La Estación No. 1 le guiará a través del proceso de estudio que ordena la regulación federal 14 CFR, Sección 150. Esta regulación establece la metodología que se debe seguir para determinar la exposición de las comunidades vecinas al ruido de los aviones, y para desarrollar un programa que asegure anticipadamente que los usos de suelo de los terrenos vecinos sean compatibles con la exposición al ruido.

Lista de tablas presentadas en la Estación No. 1:

1. Introducción a la regulación 14 CFR Sección 150
2. Por qué llevar a cabo un estudio de acuerdo a la regulación 14 CFR Sección 150
3. Temas centrales del Estudio Sección 150
4. Información adicional del Estudio Sección 150
5. Marco regulatorio
6. Fases del Estudio Sección 150
7. Proceso general del estudio
8. Terminología de la regulación 14 CFR Sección 150

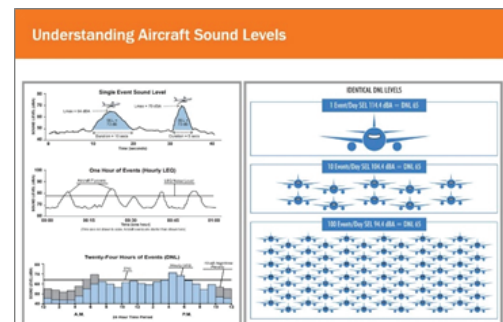

ESTACIÓN 2: ENTENDIENDO LAS MÉTRICAS DE LOS NIVELES DE RUIDO Y SONIDO

La Estación No. 2 contiene cinco tablas que explican la ciencia de la acústica, así como las diversas métricas de nivel de sonido que se utilizan en el Estudio Sección 150. También se proporciona información sobre los diversos tipos de uso de suelo en relación a zonas susceptibles al sonido, así como la localización de monitores de sonido alrededor del aeropuerto FLL.

Lista de tablas presentadas en la Estación No. 2:

1. DNL (Day-Night Average Sound Level): Métrica de los niveles promedio de sonido durante el día y la noche
2. Niveles de sonido de los aviones
3. Ejemplo de Curva de Sonido DNL
4. Introducción al Estudio Sección 150 –Compatibilidad del uso de suelo
5. Sitios de monitoreo de sonido

ESTACIÓN 3: RELACIÓN CON GRUPOS DE INTERÉS

La Estación No. 3 aborda el tema del Programa de Relación con Grupos de Interés, el cual ha sido diseñado para incluir en el Estudio Sección 150 a funcionarios locales, jurisdicciones, agencias y arrendatarios del aeropuerto de FLL, así como al público en general. El involucramiento de todas estas partes es esencial para el éxito del estudio.

Lista de tablas presentadas en la Estación No. 3:

1. Desarrollo del Plan de Relaciones con Grupos de Interés y Talleres iniciales
2. Propósito y objetivos del Comité Técnico (TC por sus siglas en inglés)
3. Miembros del TC
4. Cronograma preliminar del Estudio Sección 150

ESTACIÓN 4: INTRODUCCIÓN AL AEROPUERTO DE FLL

La Estación No. 4 proporciona una introducción al aeropuerto de FLL, así como datos y estadísticas acerca de la historia del aeropuerto y su crecimiento. Todos estos datos son necesarios para crear los Mapas de Exposición al Sonido, de acuerdo a la regulación 14 CFR Sección 150.

Lista de tablas presentadas en la Estación No. 4:

1. Introducción al aeropuerto de FLL (fotografía aérea)
2. Introducción al aeropuerto de FLL (estadísticas de uso)
3. Recolección de datos – Información operativa 2016
4. Pronóstico de actividad aeronáutica

ESTACIÓN 5: USO DE PISTAS DE ATERRIZAJE

La Estación No. 5 proporciona información operativa en relación a las dos principales pistas de aterrizaje (Pistas 10L-28R y 10R-28L) de FLL, incluyendo comparaciones de uso en el día y la noche, así como de flujos este/oeste.

Lista de tablas presentadas en la Estación No. 5:

1. Uso de pistas de aterrizaje 2016 - Flujo este
2. Uso de pistas de aterrizaje 2016 - Flujo oeste
3. Uso de Pistas de Aterrizaje
4. Densidades de trayectorias de vuelo 2016 – Llegadas del flujo este
5. Densidades de trayectorias de vuelo 2016 – Salidas del flujo este
6. Densidades de trayectorias de vuelo 2016 – Llegadas del flujo oeste
7. Densidades de trayectorias de vuelo 2016 – Salidas del flujo oeste

ESTACIÓN 6: MODELACIÓN DE RUIDO

La Estación No. 6 proporciona una breve introducción al proceso utilizado en los estudios de Sección 150 para la de modelación de ruido, incluyendo los requerimientos de información y el proceso de levantamiento de datos.

List of Presentation Boards at Station 6:

1. Modelación de Ruido
2. Datos utilizados en los modelos
3. Datos utilizados en la herramienta de diseño del medio ambiente aeronáutico (AEDT)

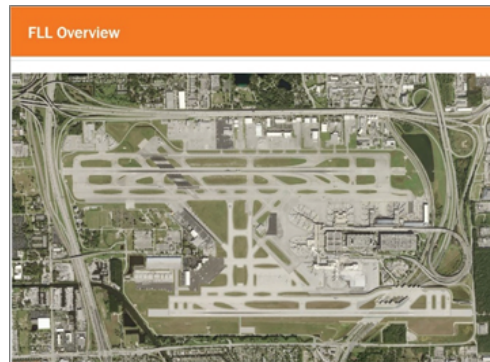

ESTACIÓN 7: APORTACIONES DE GRUPOS DE INTERÉS

La Estación No. 7 delinea el programa actual de sonido y algunas de las inquietudes que hemos escuchado hasta el momento durante el Estudio de FLL Sección 150. También explica cómo mantenerse informado y proporcionar retroalimentación durante el estudio. Las aportaciones de los diferentes grupos de interés son una parte importante del proceso y continuaremos solicitándolas durante el estudio.

Lista de tablas presentadas en la Estación No. 7:

1. Introducción al actual Programa de Ruido
2. Introducción a la Sección 150 – Preguntas frecuentes
3. Retroalimentación – Lo que hemos escuchado
4. Página web del estudio
5. Cómo proporcionar comentarios

Gracias por su asistencia al taller del día de hoy.
Usted puede darnos sus comentarios acerca del Taller, ya sea a través de las formas impresas para comentarios o a través del correo enviado a la siguiente dirección:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Le agradeceremos hacernos llegar sus comentarios a más tardar
el 1º de diciembre de 2017.

También puede contactarnos y obtener información actualizada sobre el estudio
Sección 150 a través de la página web del proyecto:

www.fllpart150.com

¡Muchas gracias por su participación!

STATION 7: STAKEHOLDER INPUT

Station 7 outlines the existing noise program and some of the concerns that we’ve heard so far in the FLL Part 150 Study. It also provides information on how to stay informed and provide feedback throughout the Study. Stakeholder input is an important part of the process and will continue to be solicited throughout the Study.

List of Presentation Boards at Station 7:

1. Existing Noise Program Overview
2. Part 150 Overview – FAQs
3. Feedback – What We’ve Heard
4. Study Website
5. How to Provide Comments

Thank you for attending tonight’s workshop.

You may provide written comments during this public workshop via the available comment forms, or you can submit comments by mail to the following address:

Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312

Please provide comments by December 1, 2017.

Updates to the Part 150 Study and additional comment options are provided on the project website at:

www.flpart150study.com

Thank You for Your Participation!

AVIATION DEPARTMENT - Fort Lauderdale-Hollywood International Airport
2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Welcome to the Ft. Lauderdale-Hollywood International Airport (FLL) Public Information Workshop for the Part 150 Airport Noise Compatibility Planning Study

The Broward County Aviation Department (BCAD) welcomes and thanks you for attending this public workshop for the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL).

BCAD recently began a study to improve the compatibility of FLL with the surrounding communities. This study, known as a “Part 150 Study,” will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

The workshop will be an “open house” format and there will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

The following pages of this handout will guide you through each of the seven stations available at tonight’s workshop. We encourage you to visit each station and review the materials provided. Members of the study team are available to answer any questions you have.

STATION 1: THE PART 150 STUDY PROCESS

Station 1 will guide you through the study process dictated by 14 CFR Part 150, the federal regulation that establishes the methodology to be followed when determining aircraft noise exposure on the surrounding communities as well as developing a program to ensure the compatibility of surrounding land uses with the anticipated noise exposure.

List of Presentation Boards at Station 1:

1. 14 CFR Part 150 Overview
2. Why Conduct a 14 CFR Part 150 Study
3. Key Issues for this Part 150 Study
4. Additional Part 150 Study Information
5. Regulatory Framework
6. Phases of a Part 150 Study
7. General Study Process
8. 14 CFR Part 150 Terminology

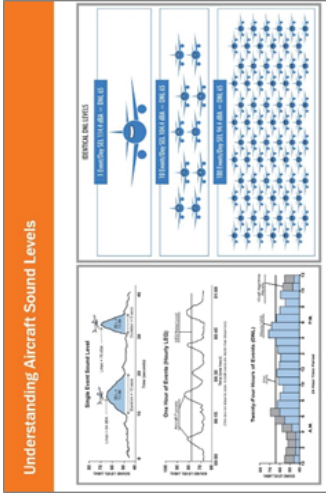

STATION 2: UNDERSTANDING NOISE AND SOUND LEVEL METRICS

Station 2 contains five boards that explain the science behind acoustics and the various sound level metrics used in a Part 150 Study. It also provides information regarding various land uses and noise sensitive sites as well as providing the location of existing noise monitoring locations surrounding FLL.

List of Presentation Boards at Station 2:

1. Day-Night Average Sound Level (DNL)
2. Understanding Aircraft Sound Levels
3. DNL Noise Contour Example
4. Part 150 Study Overview – Land Use Compatibility
5. Noise Monitoring Sites

STATION 3: STAKEHOLDER OUTREACH

Station 3 discusses the stakeholder outreach program designed to involve local officials, jurisdictions, agencies, FLL tenants, and the public in the Part 150 Study process. Their involvement is essential to the success of the overall study.

List of Presentation Boards at Station 3:

1. Public Outreach Plan Development and Initial Workshops
2. Purpose and Objectives of the Technical Committee (TC)
3. TC Members
4. Preliminary Part 150 Study Schedule

STATION 4: FLL OVERVIEW

Station 4 provides a general overview of FLL as well as data and statistics regarding the operational history and growth of the airport. This data is required to accurately model the Noise Exposure Maps in accordance with the 14 CFR Part 150 regulation.

List of Presentation Boards at Station 4:

1. FLL Overview (Aerial Photograph)
2. FLL Overview (Usage Statistics)
3. Data Collection– 2016 Operational Information
4. Aircraft Activity Forecast

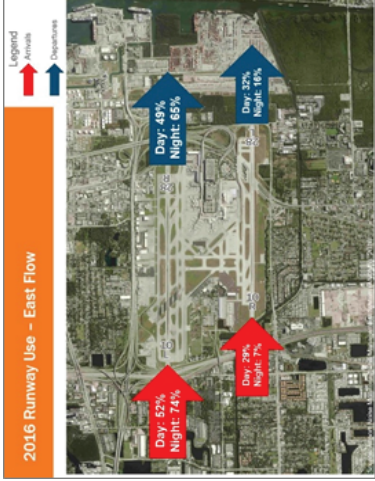

STATION 5: RUNWAY USE

Station 5 provides operational data related to the use of the two primary runways (Runways 10L-28R and 10R-28L) at FLL, including utilization shown between day/night and east/west flow uses.

List of Presentation Boards at Station 5:

1. 2016 Runway Use – East Flow
2. 2016 Runway Use – West Flow
3. Runway Use
4. 2016 Flight Track Densities – East Flow Arrivals
5. 2016 Flight Track Densities – East Flow Departures
6. 2016 Flight Track Densities – West Flow Arrivals
7. 2016 Flight Track Densities – West Flow Departures

STATION 6: NOISE MODELING

Station 6 provides a brief introduction to the noise modeling process used in Part 150 studies including the data requirements and collection process.

List of Presentation Boards at Station 6:

1. Noise Modeling
2. Model Inputs
3. Aviation Environmental Design Tool (AEDT) Inputs

Study Kick-Off Public Information Workshops

Presentation Boards

(November 13 – 17, 2017)

WELCOME!

FORT LAUDERDALE-HOLLYWOOD INTERNATIONAL AIRPORT

14 CFR PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

Public Information Workshop
November 2017

14 CFR Part 150 Overview

- Establishes the methodology to be followed when preparing aircraft noise exposure maps and developing airport/airport environs land use compatibility programs.
- Interim Rule on Federal Aviation Regulations (FAR) Part 150, *Airport Noise Compatibility Planning* issued in 1981 and finalized in 1985, later recodified as Title 14 Code of Federal Regulations (CFR) Part 150.
- Issued in response to provisions contained in the *Aviation Safety and Noise Abatement Act of 1979*.
- Part 150 studies must adhere to 14 CFR Part 150 guidelines to be considered, accepted, and approved by FAA.

Overview of 14 CFR Part 150

- Why conduct a 14 CFR Part 150 noise study?
 - Determine existing and future noise conditions in the vicinity of an airport
 - Evaluate the feasibility of possible flight procedure/land use changes
 - Educate communities on the Federal process and what can and cannot be done to address aircraft noise concerns
 - Submit locally-endorsed recommendations to the FAA regarding noise reduction measures
- 14 CFR Part 150 studies are voluntary
- 14 CFR Part 150 studies must adhere to 14 CFR Part 150 guidelines to be accepted and approved by FAA

FLL's Part 150 Efforts Span 3 Decades

1

Overview of 14 CFR Part 150

Key Issues for this Part 150 Study

- Operational Concerns
 - Opening of New Runway
 - Change in Operation of North Runway
 - Potential Changes Related to NextGen/Metroplex
- Ongoing Residential Sound Insulation Program
- Community Education
- Expectation Management

Overview of 14 CFR Part 150

Overview of 14 CFR Part 150

- Table 1 in Appendix A of 14 CFR Part 150 provides noise and land use compatibility guidelines
- Deems levels below 65 dB DNL to be compatible with all land uses
- Allows for the adoption of appropriate local land use standards for land use compatibility planning purposes

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

Land Use	Yearly Day-Night Noise Level (DNL) in decibels					
	Below 65	65-70	70-75	75-80	80-85	Over 85
Residential						
Residential, other than mobile homes and transient lodgings	Y	N(1)	N(1)	N	N	N
Mobile home parks	Y	N	N	N	N	N
Transient lodgings	Y	N(1)	N(1)	N(1)	N	N
Public Use						
Schools	Y	N(1)	N(1)	N	N	N
Hospitals and nursing homes	Y	25	30	N	N	N
Churches, auditoriums and concert halls	Y	25	30	N	N	N
Governmental services	Y	Y	25	30	N	N
Transportation	Y	Y	Y(2)	Y(3)	Y(4)	Y(4)
Parking	Y	Y	Y(2)	Y(3)	Y(4)	N
Commercial Use						
Offices, business and professional	Y	Y	25	30	N	N
Wholesale and retail building materials, hardware and farm equipment	Y	Y	Y(2)	Y(3)	Y(4)	N
Retail trade general	Y	Y	25	30	N	N
Utilities	Y	Y	Y(2)	Y(3)	Y(4)	N
Communication	Y	Y	25	30	N	N
Manufacturing and Production						
Manufacturing, general	Y	Y	Y(2)	Y(3)	Y(4)	N
Photographic and optical	Y	Y	25	30	N	N
Agriculture (except livestock and forestry)	Y	Y(6)	Y(7)	Y(8)	Y(8)	Y(8)
Livestock farming and breeding	Y	Y(6)	Y(7)	N	N	N
Mining and mining resource production and extraction	Y	Y	Y	Y	Y	Y
Recreational						
Outdoor sports arenas and spectator sports	Y	Y(5)	Y(5)	N	N	N
Outdoor music shells, amphitheaters	Y	N	N	N	N	N
Nature exhibits and zoos	Y	Y	N	N	N	N
Amusements, parks, resorts and camps	Y	Y	Y	N	N	N
Golf courses, riding stables and water recreation	Y	Y	25	30	N	N

Numbers in parentheses refer to notes.

* The designations contained in this table do not constitute a Federal determination that any use of land covered by the program is acceptable or unacceptable under Federal, State or local law. The responsibility for determining the acceptable and permissible land uses and the relationship between specific properties and specific noise contours rests with the local authorities. FAA determinations under Part 150 are not intended to supersede Federally determined land uses for those determined to be appropriate by local authorities in response to locally determined needs and values in achieving noise compatible land uses.

Key to Table 1

SLC/M: Standard Land Use Coding Manual.
Y/N/A: Land use and related structures compatible without restrictions.
N/A: Land use and related structures are not compatible and should be prohibited.
N/R: Noise Level Reduction (outdoor to indoor) to be achieved through incorporation of noise attenuation into the design and construction of the structure.
25, 30 or 35: Land use and related structures generally compatible; measures to achieve NLR of 25, 30 or 35 dB must be incorporated into design and construction of structure.

Notes:

- (1) Where the community determines that residential or school uses must be allowed, measures to achieve outdoor to indoor Noise Level Reduction (NLR) of at least 25 dB to 30 dB should be incorporated into building codes and be considered in individual approvals. Normal residential construction can be expected to provide a NLR of 20 dB; thus, the reduction requirements are often stated as 5, 10 or 15 dB over standard construction and normally assume mechanical ventilation and closed windows year round. However, the use of NLR criteria will not eliminate outdoor noise problems.
- (2) Measures to achieve NLR of 25 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
- (3) Measures to achieve NLR of 30 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
- (4) Measures to achieve NLR of 35 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
- (5) Land use compatible provided that special sound reinforcement systems are installed.
- (6) Residential buildings require an NLR of 25.
- (7) Residential buildings require an NLR of 30.
- (8) Residential buildings not permitted.

Overview of 14 CFR Part 150

Regulatory Framework

- **Federal law** sets aircraft noise standards, prescribes operating rules, establishes the compatibility planning process, and limits airport proprietor's ability to restrict aircraft operations.
- **State law** sets forth compatibility planning guidelines and noise standards but aircraft are exempt.
- **Local noise ordinances** set noise standards and provide for compatible land use planning but aircraft are exempt.

Who Can Regulate Airport Noise?

- **Federal Aviation Administration:** (1) Controls aircraft while in flight; (2) Responsible for controlling noise at its source (i.e., aircraft engines); (3) Certifies aircraft and pilots.
- **Airport Proprietors/BCAD:** (1) Very limited authority to adopt local restrictions; (2) Responsible for capital improvement projects and infrastructure.
- **Local Governments and States:** (1) Promote compatible land use through zoning; (2) Require real estate disclosure; (3) Mandate sound-insulating building materials.

FEDERAL LAW PREEMPTS STATE AND LOCAL REGULATIONS

Overview of 14 CFR Part 150

Noise Exposure Map Report (NEM)

- Develop a comprehensive database of current conditions
- Noise contour development and impact analysis
- Prepare and submit Noise Exposure Map (NEM) Report

Noise Compatibility Program (NCP)

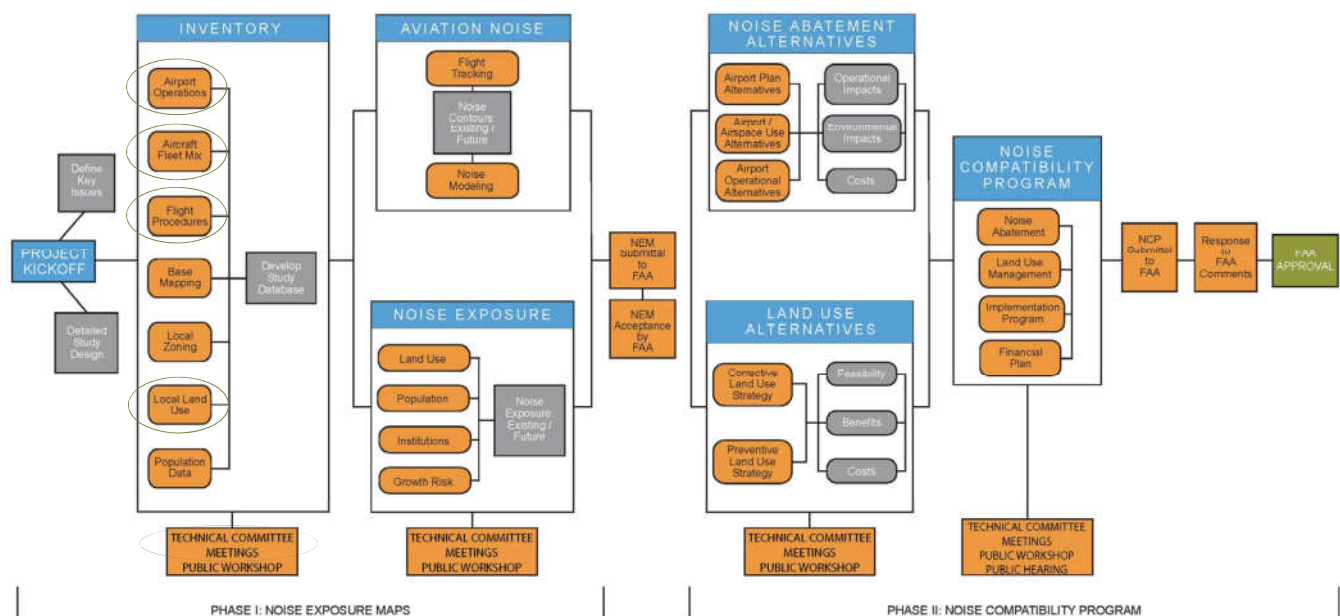

- Identify and evaluate noise abatement alternatives
- Identify and evaluate compatible land use alternatives
- Identify and evaluate administrative measures
- Prepare and submit Noise Compatibility Program (NCP) Report

Stakeholder Outreach Program

- Local Jurisdictions/Agencies
- FAA
- Public

Overview of 14 CFR Part 150 – General Study Process

Other Milestones:

- BCAD Initiation of a Study Coordination Committee in Fall 2016
- FAA Approval of the FLL Part 150 Study Forecast on April 10, 2017
- Website launched on May 3, 2017

14 CFR Part 150 Terminology

- **Noise Exposure Contours** - A noise exposure contour identifies areas of equal noise exposure around an airport. Noise exposure contours are similar to contours on topographic maps which show areas of equal elevation.
- **Noise Exposure Maps** - A noise exposure map is a map showing noise exposure contour lines (or footprints) which identify areas of specific noise levels around an airport. NEMs also include a graphic depiction of geographical features and land uses that surround an airport.
- **Noise Compatibility Programs** - A noise compatibility program report includes descriptions and a detailed evaluation of noise abatement and noise mitigation options applicable to an airport.
- **Noise Abatement Measures** - These measures are intended to reduce actual aircraft noise levels in noise-sensitive areas by either reducing aircraft noise at the source by using quieter aircraft, shielding noise sensitive areas, or by instituting operational measures, such as changes in aircraft flight tracks or in approach or departure flight profiles.
- **Noise Mitigation Measures** - These measures are intended to reduce the effects of aircraft noise on the receiver. Noise mitigation strategies may include outright property acquisition, acoustical treatment/ soundproofing programs, purchase of aviation easements, and land use control measures.

Day-Night Average Sound Level

- 24-hour time weighted energy average noise level based on A-weighted decibels (dBA)
- Noise occurring between 10 p.m. to 7 a.m. is penalized by 10 dB to account for the higher sensitivity to noise during nighttime hours and for the expected further decrease in background levels that typically occur in the nighttime
- FAA requires the use of DNL for airport noise assessments
- Average Annual Day aircraft noise exposure is calculated over a broad area and then depicted using contour lines of equal noise levels

Understanding Aircraft Sound Levels

IDENTICAL DNL LEVELS

1 Event/Day SEL 114.4 dBA = DNL 65

10 Events/Day SEL 104.4 dBA = DNL 65

100 Events/Day SEL 94.4 dBA = DNL 65

DNL Noise Contour Example

Land Uses

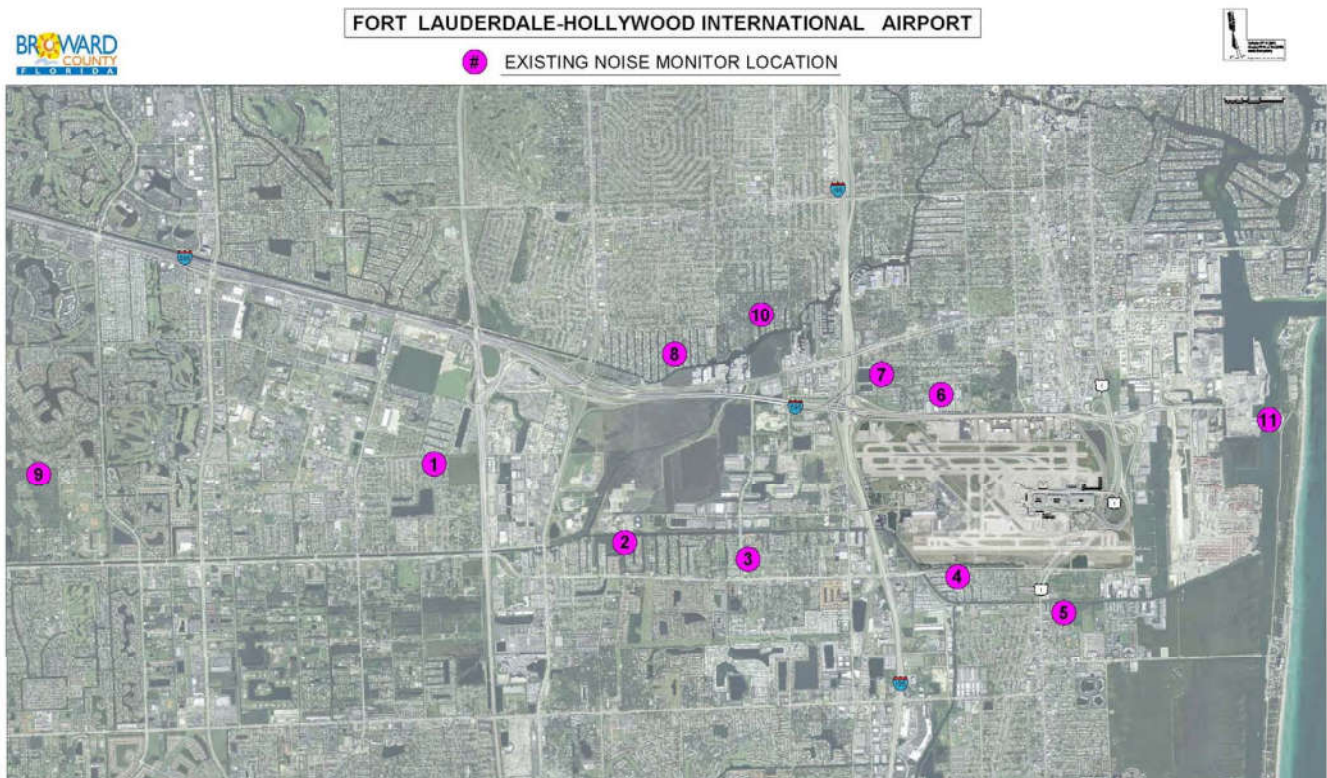

- Existing and Future Land Use
- Land parcel data
- Zoning
- Jurisdictional boundaries and neighborhoods

Noise Sensitive Uses

- Residential
- Places of worship
- Schools, colleges, and universities
- Libraries/cultural institutions
- Hospitals and residential healthcare facilities
- Daycare and assisted living facilities
- Historic properties

Noise Monitoring Sites/Limitations

Public Outreach Plan Development and Initial Workshops

Public Outreach

- Initial Coordination with Nearby Jurisdictions
 - 8 meetings to present project and solicit TC members
- Initial Kickoff Public Workshops
 - 5 informal workshops over 5 consecutive days
- NEM Public Workshop
 - Single large venue informal workshop
- Newsletters (6)
- NCP Public Workshop/Hearing
 - Single large venue informal workshop followed by formal hearing

Purpose and Objectives of the Technical Committee

- TC members represent the interests of their organization and/or constituents
- The TC's role is to support the FLL Part 150 Study
 - Review study assumptions
 - Provide technical feedback within the context of the Part 150 Study (noise exposure maps and noise compatibility program)
 - TC members are encouraged to express their opinions and expected to respect the range of opinions expressed by their fellow TC members
- TC members are also expected to advise their organization and/or constituents of the TC's discussions
- BCAD will respect and consider the TC's technical input, but retains responsibility for, and decision making authority on, the FLL Part 150 Study
- TC meetings will be open to the public, subject to space availability

TC Members

- BCAD
- ANAC
- Southwest Airlines
- Delta Airlines
- JetBlue
- Spirit Airlines
- FedEx*
- UPS
- NBAA
- Greater Fort Lauderdale Chamber of Commerce
- Greater Hollywood Chamber of Commerce
- Greater Dania Beach Chamber of Commerce
- Greater Fort Lauderdale Alliance Economic Development Agency
- Broward Workshop
- City of Dania Beach
- City of Fort Lauderdale
- City of Hollywood
- Town of Davie
- City of Plantation
- City of Cooper City
- Town of Southwest Ranches
- City of Weston
- Broward County Planning and Development Management Division*
- Broward County School Board
- FAA - Orlando Airports District Office
- Miami Air Traffic Management/TRACON
- FLL Airport Traffic Control Tower
- South Florida Flight Standards Division (FSDO)

*Participation in the Technical Committee not yet confirmed.

Project Schedule

FLL Overview

FLL Overview

- FLL is 21st in the U.S. in total passenger traffic and 13th in domestic origin and destination passengers
- Each day an average of 80,000 travelers pass through FLL
- The new South Runway opened in September 2014
- Nonstop flights to over 100 U.S. and international cities
- 139,920 total jobs (direct, indirect, and induced)

Data Collection - 2016 Operational Information

Annual Aircraft Operations

Date	Air Carrier	Air Taxi	General Aviation	Military	Total
January 2016	19,945	2,849	3,377	39	26,210
February 2016	19,026	2,711	3,188	49	24,974
March 2016	21,120	3,343	3,948	55	28,466
April 2016	18,871	3,203	3,334	52	25,460

Mr. William Castillo
Airport Planning Manager
Broward County Aviation Department
2200 SW 45th Street, Suite 101
Dania Beach, Florida 33312

Dear Mr. Castillo:

RE: Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL
Approval of Forecast for use in the 14 CFR Part 150 Study

This letter responds to your request for approval to use the Accelerated Baseline Forecasts for the purposes of the 14 Code of Federal Regulations (CFR) Part 150 Study for the Fort Lauderdale-Hollywood International Airport (FLL).

On January 13, 2017, the Federal Aviation Administration (FAA) approved the Baseline Forecast for FLL and accepted the Accelerated Baseline Forecast prepared in the Master Plan Update for sensitivity purposes and for the purpose of establishing facility requirements.

The FAA notes that the Accelerated Baseline Forecast varies less than 10 percent in the 5 year period and 15 percent in the 10 year period from the FAA's 2016 Terminal Area Forecast (TAF) published in January, 2017.

The FAA has determined that the Accelerated Baseline Forecast is consistent with the FAA's most recent TAF for FLL, and therefore, we approve the use of the Accelerated Baseline Forecast for the ongoing FLL Part 150 Study.

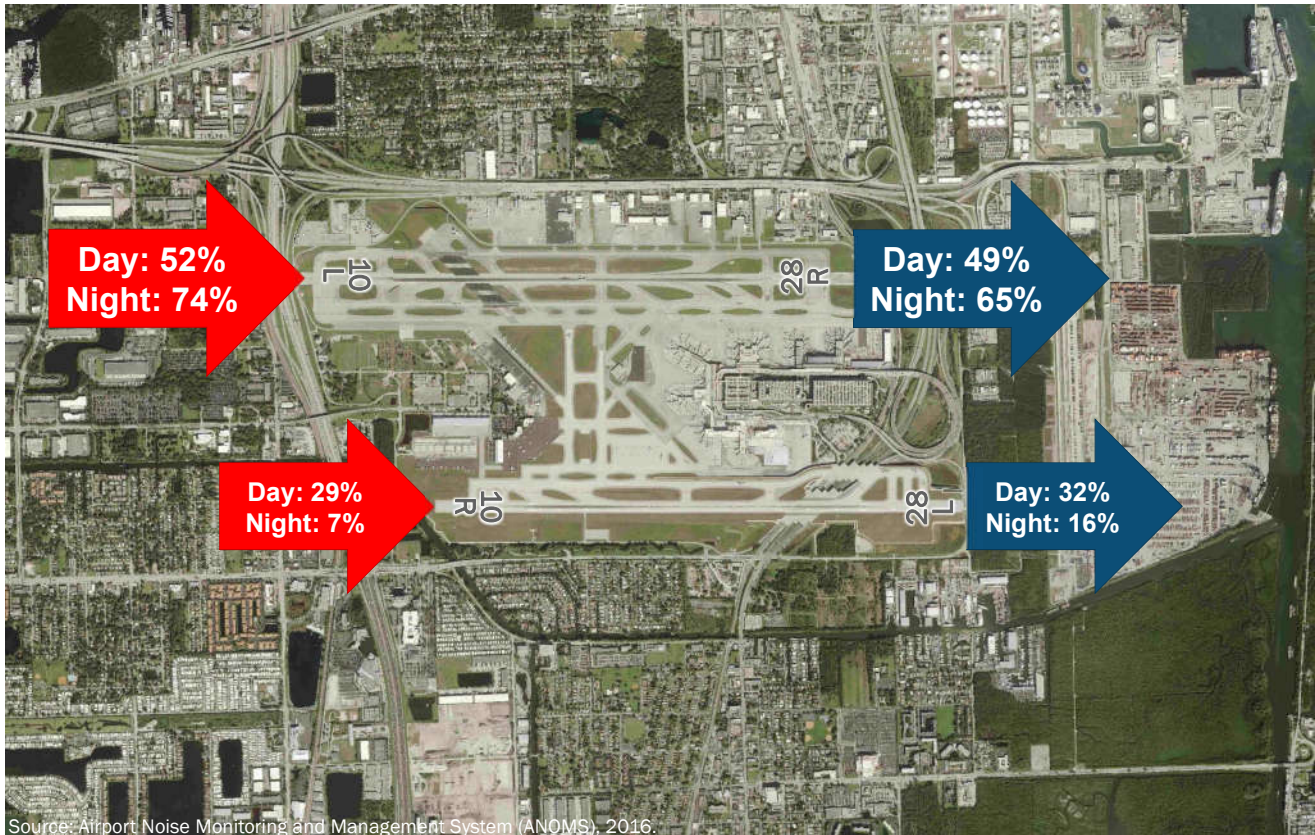

If you have any questions, please feel free to contact me at (407) 812-6331, ext. 130.

Sincerely,

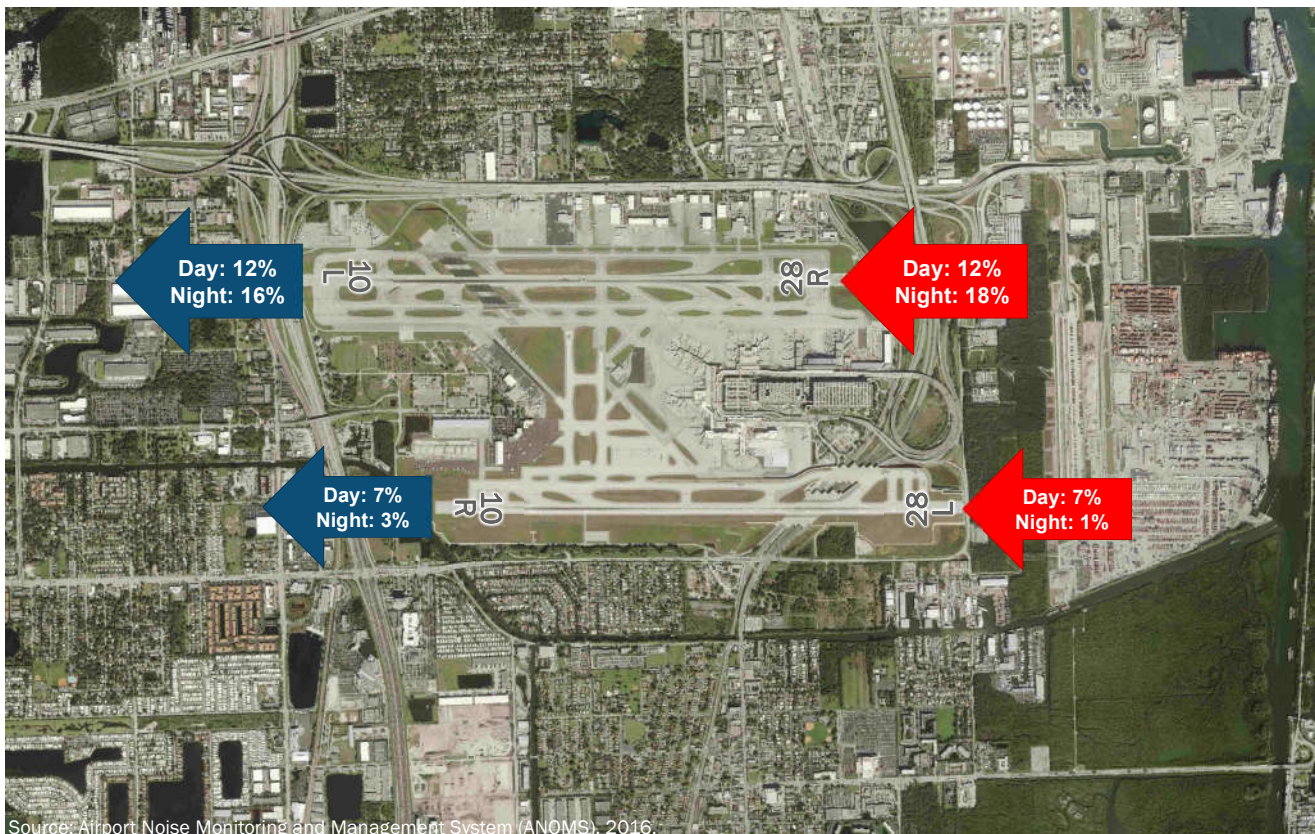

Allan M. Nagy
FAA Orlando ADO Environmental Program Specialist

Part 150 Study Overview – Modeling

Noise Modeling

- Aircraft noise modeling allows:
 - Calculation of noise exposure at any point
 - Depicting annual average aircraft noise exposure
 - Predicting future aircraft noise exposure
 - Assessing changes in noise impacts resulting from runway configuration changes or new runways
 - Assessing changes in fleet mix and/or number of operations
 - Evaluating operational procedures
- Aviation Environmental Design Tool (AEDT) replaced the Integrated Noise Model (INM) when it was released in 2015. The current version, AEDT 2C, will be used for the FLL Part 150 Study.

Model Inputs

- The Amount of Noise Exposure is determined by:
 - Aircraft types
 - Stage length
 - Number of average annual day operations
 - Nighttime weighting (1 nighttime operation = 10 daytime operations)
- The Noise Exposure Distribution is determined by:
 - Runway configuration and use
 - Flight track locations
 - Flight track use
- Other Factors
 - Meteorological Conditions
 - Terrain

**Aviation Environmental
Design Tool (AEDT)
Version 2C**

AEDT Model Inputs

AEDT Inputs

Existing Noise Program Overview

- Aircraft Noise and Operations Monitoring System (ANOMS)
- Residential Sound Insulation Program
- Airport Noise Abatement Committee (ANAC)
- Noise Comment Hotline (866-822-7910)
- Noise Comment Form

- Helicopter Flight Corridors

Part 150 Overview - FAQs

Frequently Asked Questions

- Will the study “fix” all the noise issues around the airport?
 - No, overflights of residential areas are unavoidable and sensitivity to noise varies by person
- What type of noise monitoring will be conducted as part of the study?
 - None, all analysis is modeling based which allows consistency, prediction of noise levels where there are no monitors and evaluation of future conditions
- Will the Study address concerns about safety, soot, or other concerns related to aircraft operation?
 - The Part 150 process focuses exclusively on noise and land use compatibility

Additional Frequently Asked Questions are available on
www.flpart150.com/faq

Feedback – What We've Heard

Concerns that we've heard so far:

- Early morning low altitude overflights
- Changes in north runway flight paths
- Nighttime use of south runway
- Low altitude of overflights
- High frequency of overflights
- Overflight impacts on horses

FORT LAUDERDALE-HOLLYWOOD INTERNATIONAL AIRPORT (FLL)

PART 150 AIRPORT NOISE AND LAND USE COMPATIBILITY STUDY

Spring 2018 / Volume 1

INTRODUCTION

In 2017, the Broward County Aviation Department (BCAD) began a noise and land use compatibility study for Broward County's Fort Lauderdale-Hollywood International Airport (FLL). This study is called a "Part 150 Study" because it follows the process outlined in Title 14 of the Code of Federal Regulations Part 150 (14 CFR Part 150), Airport Noise Compatibility Planning. This Study includes creating Noise Exposure Maps (NEMs) and a Noise Compatibility Program (NCP). The NEMs show community exposure to existing and future airport noise and identify uses that are considered "non-compatible". The NCP recommends ways to reduce those non-compatible uses while preserving aviation safety and airport operational abilities.

TECHNICAL COMMITTEE

The BCAD has formed a Technical Committee (TC) for the Part 150 Study at FLL. The TC is composed of stakeholder representatives who review study assumptions and provide feedback on the technical aspects of the study. These representatives include airlines, air cargo carriers, and local jurisdictions. TC meetings were held in May and August of 2017, as well as March 2018. Additional TC meeting dates for 2018 are pending, but will be listed on the Meetings section of the Study website at <http://www.fllpart150.com/meetings/>.

PUBLIC WORKSHOPS

A series of five public workshops regarding the Part 150 Study were held in November 2017. Workshops were held in Southwest Ranches, Hollywood, Plantation, Davie, and Fort Lauderdale. Approximately 140 community members attended the workshops and provided 82 written and 17 verbal comments. More than 25 additional comments were received via the project website and mail. Common concerns noted among the comments received include: flights occurring during early morning and late night hours, flight path changes following the south runway opening, use of the south runway during nighttime hours, and the frequency in which flights are passing over certain areas.

Runway Use graphic prepared for the Technical Committee and Public Workshops.

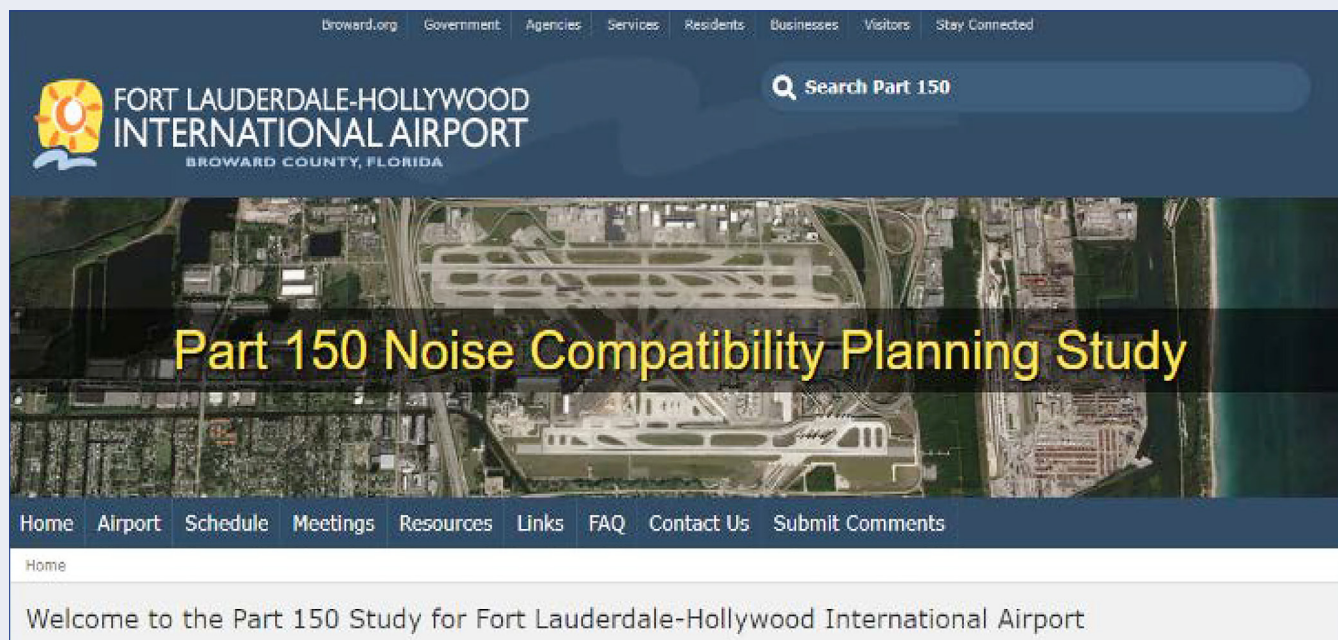

Mark Gale, FLL CEO/Director of Aviation, welcoming TC Members to the first Technical Committee Meeting in May 2017.

Members of the community completing comment forms at the fourth in a series of public workshops held in November 2017.

PROJECT WEBSITE

The FLL Part 150 Study Team routinely updates the project website with the latest meetings and information available. The following information is available on the project website:

- General Airport Information
- Project Schedule
- Upcoming and Past Meetings
- Resources (Meeting Materials)
- Relevant Links
- Frequently Asked Questions
- Part 150 Study Online Comment Form

The FLL Part 150 Study project website is available at: www.fllpart150.com.

CURRENT PROJECT STATUS

The Part 150 Study team is meeting with local jurisdictions surrounding FLL as part of the land use data collection process. Concurrently, the study team is preparing inputs to the Aviation Environmental Design Tool (AEDT) – the Federal Aviation Administration's (FAA's) approved model for the evaluation of aircraft noise.

Current input items being evaluated by the study team include aircraft types, runway use, time of day for operations (daytime versus nighttime), flight tracks and runway utilization. It is anticipated that preliminary draft noise exposure contours will be presented in late Summer/Fall 2018. After the Noise Exposure Map (NEM) Report has been prepared, a public workshop will be held to present the findings to members of the community, currently anticipated to be held in late 2018.

Once the NEM phase is complete, the second phase of the study, the Noise Compatibility Program (NCP), will begin. The NCP will explore options to minimize aircraft noise exposure on non-compatible land uses surrounding FLL. Operational, land use, and administrative measures will be considered during this phase of the project. All recommended measures must be approved by the FAA prior to implementation at FLL.

GET INVOLVED

BCAD and 14 CFR Part 150 encourage public and agency participation. Please submit comments specific to the FLL Part 150 Study through the website at <http://www.fllpart150.com/comments/>, in person at the public workshops, or by mail to:

Broward County Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312

Please focus your comments on the FLL Part 150 Study content or process. Aircraft event complaints should be sent to the Noise Complaint Hotline (1-866-822-7910).
