

14 CFR PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

Study Coordination Committee
November 7, 2018

1

Agenda

- Review of Prior TC Meetings
- 2018 Noise Exposure Assumptions and Contours
- 2023 Noise Exposure Assumptions and Contours
- Noncompatible Land Use Analysis
- Noise Compatibility Program Overview
- Next Steps
- Questions from SCC Members

2

Prior Technical Committee Meetings

TC #1 – May 26, 2017

- Purpose and Objectives of the Technical Committee
- Airport Overview
- Part 150 Study Overview
- Introduction to Aircraft Noise, Modeling, and Compatibility
- Initial Data Collection
- Project Schedule

TC #2 – August 23, 2017

- Data collection process and status
- AEDT Model inputs
- Aircraft Activity Forecast
- Runway Use
- Flight Track Methodology

4

BROWARD COUNTY FLORIDA

This slide has an orange header bar with the title 'Prior Technical Committee Meetings'. The background is a light gray with a large, semi-transparent circular graphic. Inside the circle is a photograph of an airplane taking off from a runway, with a bright sun or light source in the background. The text for the two technical committee meetings is listed on the left side. In the bottom left corner, the number '4' is displayed. In the bottom right corner, the Broward County Florida logo is present.

Prior Technical Committee Meetings

TC #3 – March 7, 2018

- Public Workshop Summary
- Land Use Data Collection
- Aircraft Activity
- Runway Use
- Flight Track Analysis
- Modeling Assumptions

5

2018 ASSUMPTIONS AND RESULTS

6

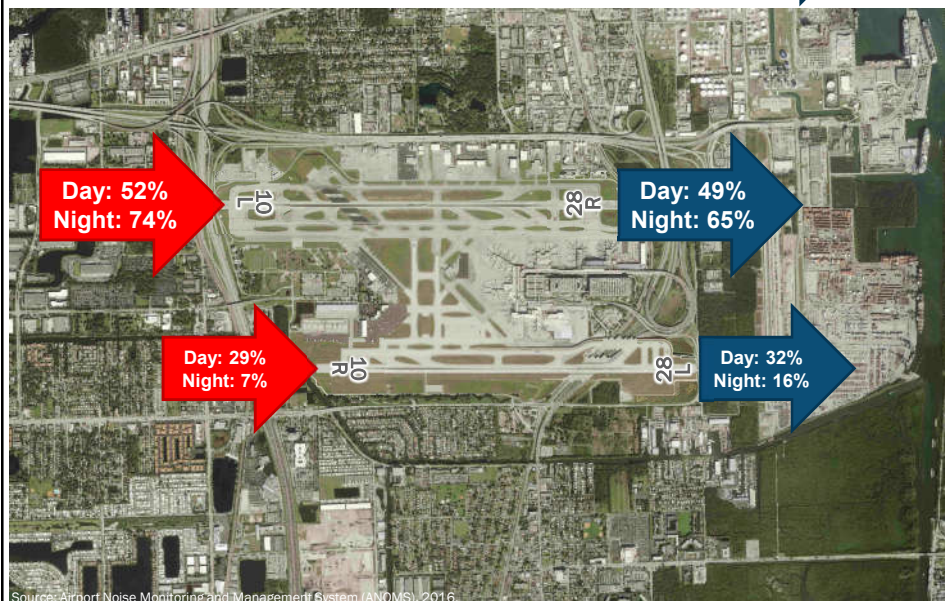

2018 Baseline Contour Assumptions

- 2018 Total Aircraft Operations: 335,000 (Master Plan Update)
- 2016 Airport Noise and Operations Monitoring System (ANOMS) data for fleet mix, runway utilization, and day / night
- 2016 ANOMS Radar data used to develop flight tracks and assign flight track utilization by aircraft category
- 10-Year Average Meteorological Data (AEDT, NOAA NCDC)
- National Elevation Dataset (NED) terrain data (USGS)

7

Runway Use – East Flow

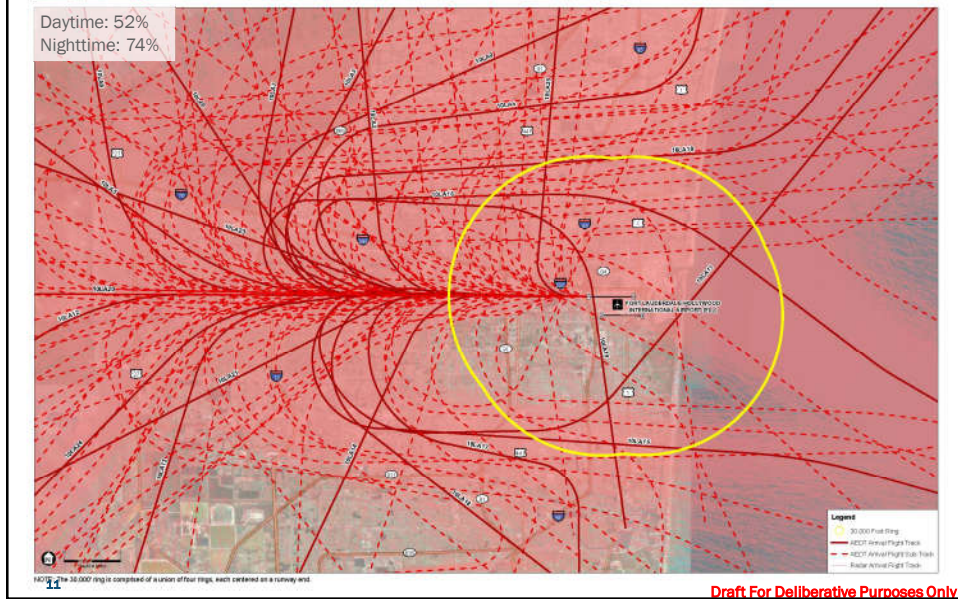

Baseline Condition Runway Use

Runway Usage				
Operation Type	Runway	Day	Night	Grand Total
Arrivals	North Runway			
	10L	52%	74%	55%
	28R	12%	18%	13%
	Total	64%	92%	68%
	South Runway			
	10R	29%	7%	26%
Departures	28L	7%	1%	6%
	Total	36%	8%	32%
	North Runway			
	10L	49%	65%	51%
	28R	12%	16%	13%
	Total	61%	81%	64%
	South Runway			
	10R	32%	16%	30%
	28L	7%	3%	6%
	Total	39%	19%	36%

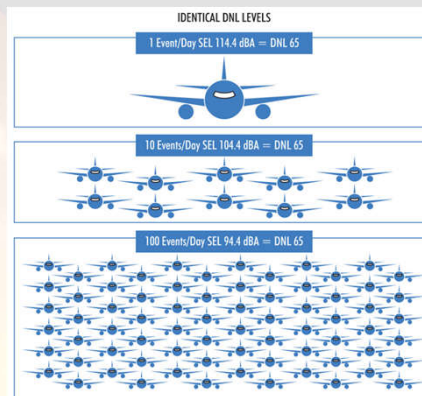

Source: Airport Noise Monitoring and Management System (ANOMS), 2016.

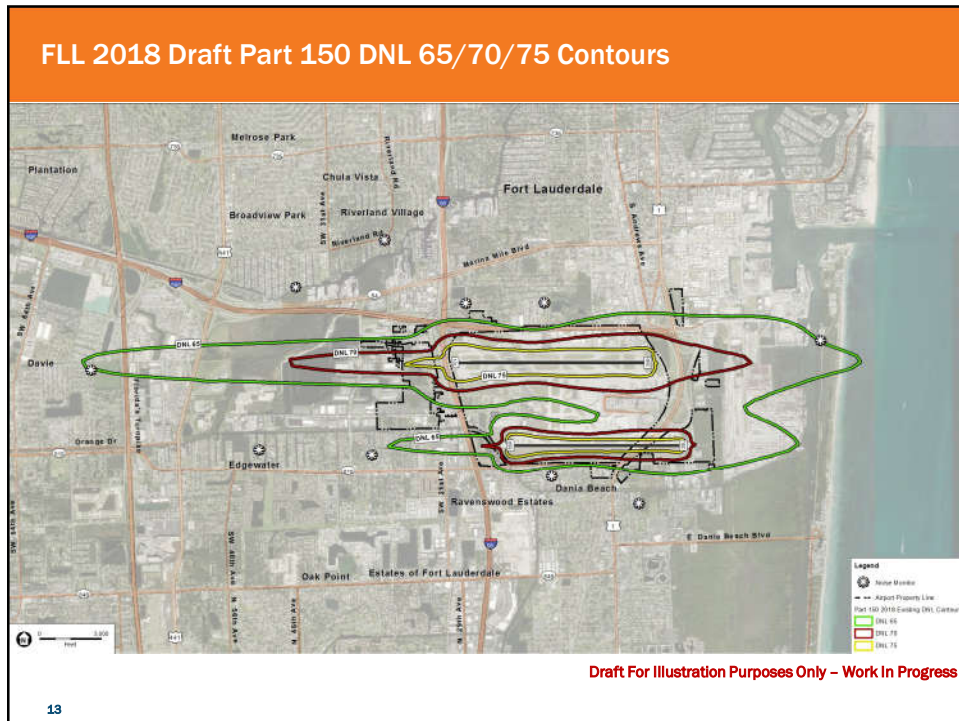

10L Arrival Flight Tracks: 55% of All Arrivals (SAMPLE)

Aircraft Noise - Day-Night Average Sound Level (DNL)

- 24-hour time weighted energy average noise level based on A-weighted decibels (dBA)
- Noise occurring between 10 p.m. to 7 a.m. is penalized by 10 dB to account for the higher sensitivity to noise during nighttime hours and for the expected further decrease in background levels that typically occur in the nighttime
- FAA requires the use of DNL for airport noise assessments
- Average Annual Day aircraft noise exposure is calculated over a broad area and then depicted using contour lines of equal noise levels

2023 Future Condition Contour Assumptions

- 2023 Total Aircraft Operations: 364,765 (Master Plan Update)
- 2016 ANOMS Radar data used to develop flight tracks and assign flight track utilization by aircraft category and day/night utilization
- Master Plan Update used for fleet mix and operations
- Runway utilization used information from the Master Plan Update, Air Traffic Control Tower meetings, future airline/gate assignments, and internal analysis
- 10-Year Average Meteorological Data (AEDT, NOAA NCDC)
- National Elevation Dataset (NED) terrain data (USGS)

15

2023 Part 150 Runway Use

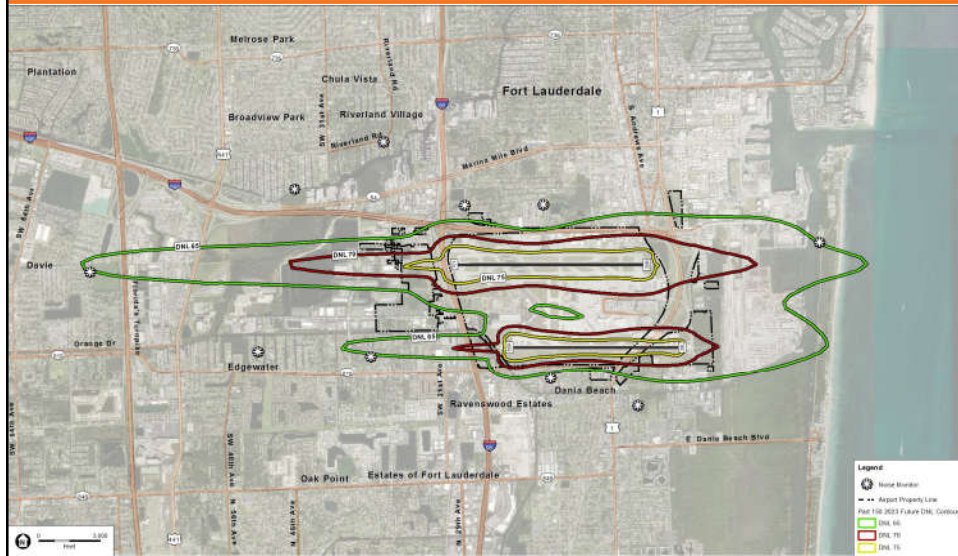

Runway Usage

Operation Type	Runway	Day	Night	Grand Total
Arrivals	North Runway			
	10L	49%	66%	52%
	28R	12%	12%	13%
	Total	62%	84%	65%
	South Runway			
	10R	31%	15%	29%
	28L	7%	1%	6%
	Total	38%	16%	35%
Departures	North Runway			
	10L	44%	59%	46%
	28R	14%	18%	14%
	Total	58%	77%	60%
	South Runway			
	10R	37%	21%	35%
	28L	5%	3%	5%
	Total	42%	23%	40%

2018 and 2023 Summary of Noise Sensitive Uses

Noise Sensitive Sites Exposed to DNL 65 and Higher				
Noise Level ¹	Total Area (Acres)	Housing Units ²	Population ²	Historic Resources
2018				
DNL 65-70	2,276.00	203	430	3
DNL 70-75	710.1	0	0	0
DNL 75+	459.6	0	0	0
Total	3,445.70	203	430	3
2023				
DNL 65-70	2,579.00	492	1,073	3
DNL 70-75	805.7	0	0	0
DNL 75+	503.3	0	0	0
Total	3,888.00	492	1,073	3

SOURCES:

¹ Noise contours from Environmental Science Associates (ESA)

² Housing units and population estimates derived from 2010 Census block-level data.

³ Public school data from Broward County Public Schools; private schools from Florida Geographic Data Library (FGDL).

⁴ All other noise sensitive site data from Florida Geographic Data Library (FGDL).

Draft Analysis For Internal Review Only – Work In Progress

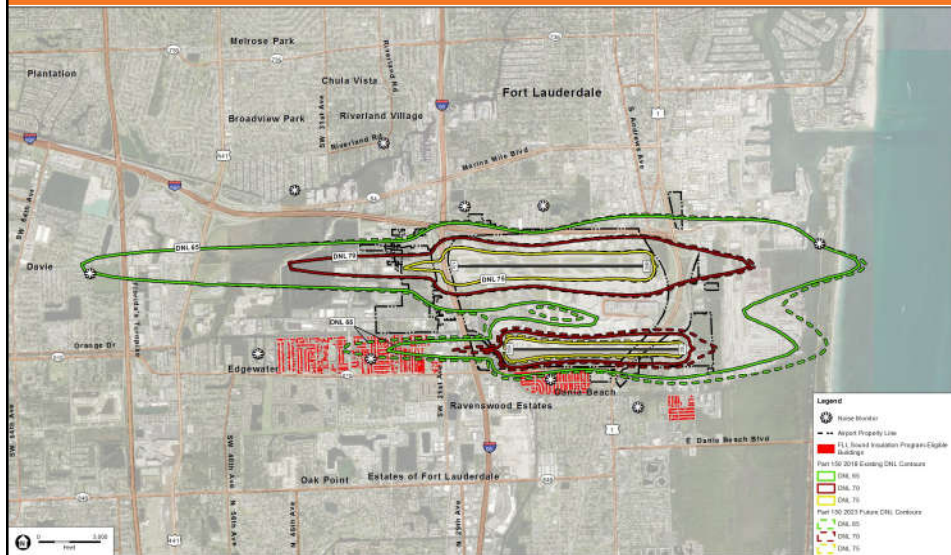

25

No Other Noise Sensitive Sites within DNL 65:

- Schools
- Hospitals
- Religious Facilities
- Day Cares
- Nursing Homes/ Group Care
- Libraries

27

2018 and 2023 Non-Mitigated Residential Land Uses

HOUSING UNITS NOT IN CURRENT FLL SOUND INSULATION PROGRAM ¹		
Noise Level ²	Housing Units Outside SIP ³	Housing Units within SIP ¹
2018		
DNL 65-70	89	114
DNL 70+	0	0
TOTAL:	89	114
2023		
DNL 65-70	105	387
DNL 70+	0	0
TOTAL:	105	387
SOURCES:		
¹ FLL Sound Insulation Program housing unit data from Broward County Aviation Department. Not all homes may be eligible for sound insulation.		
² Noise contours from Environmental Science Associates (ESA)		
³ Housing units derived from 2010 Census block-level data.		

Draft Analysis For Internal Review Only – Work In Progress

28

Required Elements of an NCP

- The NCP explores operational, land use, and administrative measures to minimize aircraft noise exposure
- The FAA reviews entire NCP for completeness
 - Technical, policy, effectiveness review
- The NCP Report must include a provision for revising the NCP if made necessary by a revision of the Noise Exposure Map
- FAA has 180 days to review the NCP
- During its review, the FAA will respond as follows for each measure:
 - Approved
 - Disapproved
 - Approved or disapproved in part
 - No action (only relevant for NCP measures involving flight procedures)

30

BROWARD COUNTY FLORIDA

Major NCP Strategy Options

Noise Abatement

- Noise abatement flight tracks
- Preferential runway use
- Arrival/departure procedures
- Airport layout modifications
- Run-up enclosures
- Use restrictions*
- Other actions proposed by stakeholders

Land Use

- Remedial Mitigation
 - Land acquisition
 - Sound insulation
 - Avigation easements
- Preventative Mitigation
 - Land use controls
 - Zoning
 - Building codes
 - Comprehensive plans
 - Real estate disclosures
- Other actions proposed by stakeholders

Programmatic

- Implementation tools
- Promotion, education, signage, etc.
- Monitoring
- Reporting
- NEM update
- NCP revision
- Other actions proposed by stakeholders

* Subject to further notice, review, and approval requirements in 14 CFR Part 161

31

Distinction Between Noise Abatement and Noise Mitigation

Noise Mitigation

Addresses non-compatible land uses

- Preventative: addresses future uses
- Remedial: addresses existing uses

Noise Abatement

Reduces noise exposure by moving the source

32

Review of NCP Measures

All NCP Measures Must Consider:

- Reduction of existing incompatible land use and prevention / reduction of future incompatible land use
 - The FAA will not approve NCP measures that do not reduce exposure to noise of DNL 65 and higher
- Safety and efficiency
- Consistency with the powers and duties of the FAA
- Avoidance of unjust discrimination against certain aircraft types
- Interstate commerce
 - Measures cannot impose an undue burden on interstate commerce (requires balancing of interests)
- The ability to meet both local needs and national air transportation system needs

33

Involvement During the NCP Phase

- 14 CFR Part 150 requires consultation with the following stakeholders, and most are members of the Study's TC:
 - FAA regional officials
 - Officials of the state and of any public agencies and planning agencies that have any area of jurisdiction within the DNL 65
 - Other Federal officials having local responsibility of land uses in an NEM
 - Aircraft operators using the airport
 - General Public

34

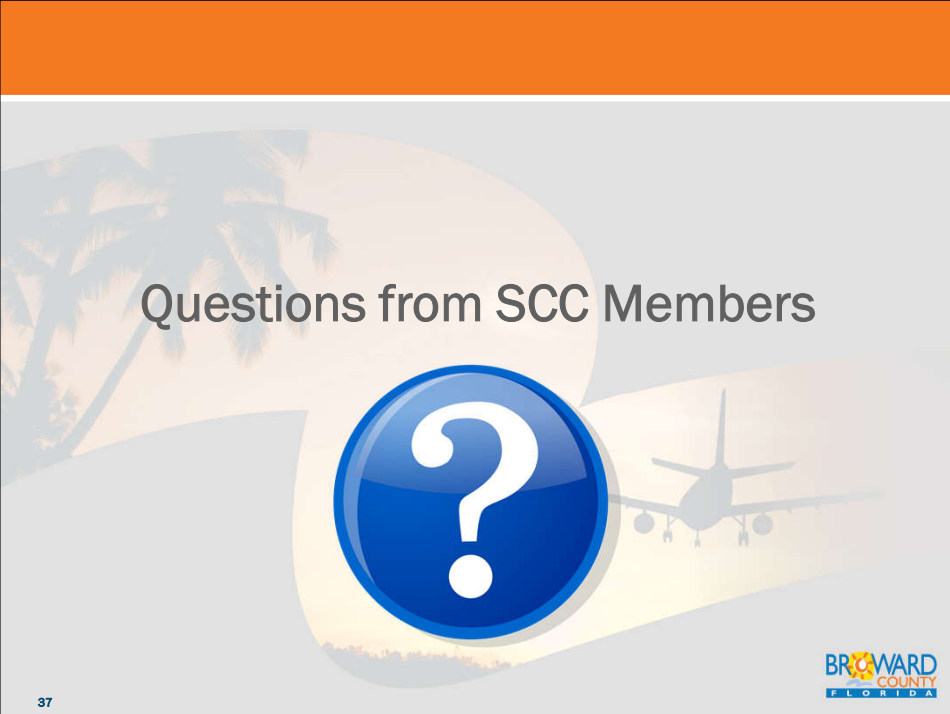

Next Steps

- Publish Draft NEM Report
- NEM Public Workshop (January 2019)
- Incorporate NEM Comments and Submit to FAA for Acceptance
- Solicit Alternatives to be Evaluated in Noise Compatibility Program (NCP)
