

APPENDIX G

Correspondence and Consultation

This Appendix includes correspondence and consultation associated with the Fort Lauderdale-Hollywood International Airport Part 150 Study.

- Study Kick-off Meetings with Local Jurisdictions (Oct./Nov. 2016)
 - Cooper City, Dania Beach, Davie, Fort Lauderdale, Hollywood, Plantation, Southwest Ranches, and Weston
- ANAC Briefing (Sept. 2016)
- Study Coordination Committee (SCC) Resolution and Briefing (August 2017)

Study Kick-off Meetings with Local Jurisdictions
October 24, 2016

14 CFR PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

Local Jurisdiction Briefing
October 24, 2016

Agenda

1. Goals and Objectives
2. Study Elements
3. Years of Analysis
4. Data Collection
5. Public Website
6. Public Outreach
7. Technical Advisory Committee
8. Study Coordination Committee
9. Preliminary Schedule

Goals and Objectives

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

FLL's Part 150 Efforts Span 3 Decades

3

Goals and Objectives

Analyze, Evaluate, Educate

- Determine existing and future noise conditions in the vicinity of an airport
- Identify incompatible uses
- Identify measures to improve compatibility
 - Evaluate the feasibility of possible flight procedure/land use changes
 - Submit locally-endorsed recommendations to the FAA regarding noise reduction measures
 - Approved measures may be eligible for Federal grant funding
- Educate communities on the Federal process and what can and cannot be done to address aircraft noise concerns

**Part 150 Studies Must Adhere to 14 CFR Part 150
Guidelines to be Accepted and Approved by FAA**

4

Goals and Objectives

Key Issues

- Operational Concerns
 - Opening of New Runway
 - Change in Operation of North Runway
 - Potential Changes Related to NextGen/Metroplex
- Ongoing Residential Sound Insulation Program
- Community Education
- Expectation Management

5

Study Elements

Noise Exposure Map Report (NEM)

- Develop a Comprehensive Database of Current Conditions
- Noise Contour Development & Impact Analysis
- Prepare and Submit Noise Exposure Map (NEM) Report

Noise Compatibility Program (NCP)

- Identify and Evaluate Noise Abatement Alternatives
- Identify and Evaluate Compatible Land Use Alternatives
- Identify and Evaluate Administrative Measures
- Prepare and Submit Noise Compatibility Program (NCP) Report

Stakeholder Outreach Program

- Local Jurisdictions/Agencies
- FAA
- Public

6

Official Noise Exposure Maps

- Base year and at future year which is at least 5 years into the future
- Basis of comparison for effectiveness of potential noise abatement measures
- Year of submittal must be consistent with base year
 - Existing Condition: 2017
 - Future Condition: 2022
- Existing Condition based on recent 12 months of operational data applied to 2017 projected activity level

Operational Data Collection

Model inputs (MPU Forecast, ANOMS, NCDC)

- Detailed fleet mix
- Time of day
- Runway use
- Flight track location and use
- Stage length
- Meteorological conditions

**Aviation Environmental
Design Tool (AEDT)
Version 2C**

Land Use Data Collection – Minimum NEM Area

Public Website

Project Website – www.fllpart150.com

Key Elements

- Project information
- Notification of upcoming meetings
- Comment mechanism
- Links to other websites

Public Outreach

- Initial Coordination with Nearby Jurisdictions
 - Series of meetings to present project and solicit TAC and SCC members
- Initial Kickoff Public Workshops
 - 5 informal workshops on consecutive nights
- NEM Public Workshop
 - Single large venue informal workshop
- Newsletters (6)
- NCP Public Workshop/Hearing
 - Single large venue informal workshop followed by formal hearing

Technical Advisory Committee

Purpose and Objectives of the TAC

- Represent the interests of their organization and/or constituents
 - The TAC's role is advisory
 - Forum for experts to review study documents
- Provide informed feedback related to the noise exposure maps and noise compatibility program
- TAC members are also expected to advise their organization and/or constituents of the TAC's discussions

Who is typically represented?

- The Airport Proprietor (Broward County)
- The Federal Aviation Administration
- Aircraft operators – airlines, cargo carriers, corporate and general aviation operators
- Community representatives
- Governmental agencies
- Local planning agencies

8 Full TAC Meetings

- Operational Procedure Working Group (3 meetings/3 calls)
- Land Use Technical Working Group (2 meetings/3 calls)

* One Airport Noise Abatement Committee (ANAC) representative shall be appointed by ANAC members to represent ANAC at the Part 150 Study TAC meetings. The ANAC representative will be responsible for reporting back to the ANAC.

Study Coordination Committee

Purpose and Objectives of the Part 150 Study Coordination Committee

- Serves as a conduit for sharing of information that is developed during the Part 150 Study process
- Ensures timely and broad dissemination of information
- Established by Broward County Commission resolution on September 15, 2016
- Sunsets 30 days after the FAA issues its formal Record of Approval

Study Coordination Committee Membership

- 9 total members
- Representatives (and alternates) of 8 political subdivisions appointed by their governing boards or councils
 - City of Fort Lauderdale
 - City of Hollywood
 - City of Dania Beach
 - Town of Davie
 - City of Plantation
 - Town of Southwest Ranches
 - City of Weston
 - City of Cooper City
- A chairperson to be appointed by the BOCC

15

Schedule

Preliminary Part 150 Schedule

Noise Exposure Maps

- Data Collection Summer-Winter 2016
- Public Outreach Late 2016/Early 2017
- Noise Modeling Spring 2017
- NEM Report/FAA Acceptance Summer 2017- Spring 2018

Noise Compatibility Program

- Alternatives Analysis Winter 2017 -Summer 2018
- NCP Report Summer-Fall 2018
- Public Hearing Winter 2018/2019

Meeting Date: 09/15/2016

Director's Name: Mark Gale

Department: Aviation

Division: Planning

Information

Requested Action

MOTION TO ADOPT Resolution No. 2016-391 establishing a Federal Aviation Regulation Part 150 Noise Compatibility Study Coordination Committee, the title of which is as follows:

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF BROWARD COUNTY, FLORIDA, ESTABLISHING A FEDERAL AVIATION REGULATION PART 150 STUDY COORDINATION COMMITTEE TO FACILITATE DISSEMINATION OF INFORMATION FROM THE PART 150 NOISE COMPATIBILITY STUDY PROCESS; PROVIDING FOR APPOINTMENT OF COMMITTEE MEMBERS; PROVIDING FOR MEETINGS; PROVIDING A SUNSET PROVISION, AND PROVIDING FOR SEVERABILITY AND AN EFFECTIVE DATE.

ACTION: (T-10:31 AM) Approved.

VOTE: 8-0. Commission District 3 is open.

Why Action is Necessary

Broward County Board of County Commissioners' (Board) approval is required to adopt a Resolution.

What Action Accomplishes

Provides for a Federal Aviation Regulation (FAR) Part 150 Noise Compatibility Study Coordination Committee for Broward County's Fort Lauderdale-Hollywood International Airport.

Is this Action Goal Related

Previous Action Taken

None.

Summary Explanation/Background

THE AVIATION DEPARTMENT RECOMMENDS APPROVAL OF THE ABOVE MOTION.

This proposed Resolution will enact a FAR Part 150 Noise Compatibility Study (Part 150 Study) Coordination Committee. A Part 150 Study Coordination Committee will provide a centralized process to facilitate dissemination and sharing of information that is developed during the Part 150 Study to local communities.

The Committee will consist of nine members; a Chair appointed by the Board, and a representative and alternate representative from each of the following political subdivisions: Cities of Fort Lauderdale, Hollywood, Dania Beach, Plantation, Weston and Cooper City, and Towns of Davie and Southwest Ranches. Each of the individual governing boards or councils of the above political subdivisions shall appoint residents of their political subdivisions to serve in the capacity of representative and alternate representative for the duration of the Committee.

This item has been reviewed and approved as to form by the Office of the County Attorney.

Exhibit 1 - Resolution

RESOLUTION NO. 2016-

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF BROWARD COUNTY, FLORIDA, ESTABLISHING A FEDERAL AVIATION REGULATION PART 150 STUDY COORDINATION COMMITTEE TO FACILITATE DISSEMINATION OF INFORMATION FROM THE PART 150 NOISE COMPATIBILITY STUDY PROCESS; PROVIDING FOR APPOINTMENT OF COMMITTEE MEMBERS; PROVIDING FOR MEETINGS; PROVIDING A SUNSET PROVISION, AND PROVIDING FOR SEVERABILITY AND AN EFFECTIVE DATE.

WHEREAS, Broward County ("County") owns and operates Fort Lauderdale-Hollywood International Airport ("Airport"); and

WHEREAS, the day-to-day maintenance and operation of the Airport has been delegated to the Broward County Aviation Department ("Aviation Department"); and

WHEREAS, on April 12, 2016, the Board of County Commissioners of Broward County, Florida ("Board") approved the award of an agreement ("Agreement") to Environmental Science Associates Corporation ("Consultant") for "FAR Part 150 Noise Compatibility Planning Consulting Services"; and

WHEREAS, the Agreement provides for consultant services to assist the Aviation Department in conducting a Part 150 Noise Compatibility Study for the Airport ("Part 150 Study"); and

WHEREAS, FAR Part 150 is the primary Federal regulation guiding and controlling planning for aviation noise compatibility on and around airports.

1 WHEREAS, the Part 150 Study will analyze existing and future Airport noise
2 exposures, identify appropriate land uses surrounding the Airport, and recommend
3 noise compatibility planning and programs consistent with Federal Aviation
4 Administration (FAA) requirements and the Board's policy directives; and
5

6 WHEREAS, the Board desires to establish a Part 150 Study Coordination
7 Committee in order to provide a centralized process to facilitate dissemination and
8 sharing of information that is developed during the Part 150 Study, NOW,
9 THEREFORE,
10

11 BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF
12 BROWARD COUNTY, FLORIDA:
13

14 Section 1. PART 150 STUDY COORDINATION COMMITTEE.

15 (a) Creation and Purpose of Committee. There is hereby created a
16 committee to be known as the "Part 150 Study Coordination Committee" ("Committee").
17 The Committee's purpose is to facilitate dissemination and sharing of information that is
18 developed during the Part 150 Study process on a timely basis to the political
19 subdivisions of the respective Committee members.

20 (b) Committee Meetings. The Aviation Department will brief and provide
21 information to the Committee members regarding the progress of the Part 150 Study.
22 Each Committee member will be expected to brief and distribute the received
23 information to the governing body of such Committee member's political subdivision.
24

1 (c) Public Meetings. Separate from any Committee meetings, there will be
2 Part 150 Study meetings for public attendance, outreach briefings, and other public
3 comment meetings throughout the progress of the Part 150 Study. The Committee
4 members will be advised of such scheduled meetings, information that is disseminated,
5 and progress of the Part 150 Study so the Committee members may inform their
6 respective political subdivisions of same on a timely basis.

7 (d) Membership. The Committee will consist of nine (9) members. The chair
8 of the Committee shall be appointed by the Board of County Commissioners. The
9 remainder of the Committee will be made up of a representative and an alternate
10 representative from each of the following political subdivisions:

- 11 (1) City of Fort Lauderdale
- 12 (2) City of Hollywood
- 13 (3) City of Dania Beach
- 14 (4) Town of Davie
- 15 (5) City of Plantation
- 16 (6) Town of Southwest Ranches
- 17 (7) City of Weston
- 18 (8) City of Cooper City

19 Each of the individual governing boards or councils of the above political subdivisions
20 shall appoint residents of their political subdivisions to serve in the capacity of
21 representative and alternate representative for the duration of the Committee. All
22 appointments shall be "at will," and vacancies shall be filled in the same manner as the
23 initial appointments.

1 (e) Removal of Members. By a majority vote, the Committee may request the
2 appointing political subdivision to remove a member of the Committee who misses more
3 than two (2) consecutive meetings or events without notifying the Committee.

4 (f) Organizational Issues. At any time after the initial meeting of the
5 Committee, the Committee may adopt rules of procedure deemed necessary for the
6 conduct of its business.

7 (g) Expenses and Staff Support. Members of the Committee shall serve
8 without compensation. The Director of the Aviation Department may, on a discretionary
9 basis, provide staffing to assist the Committee in the conduct of its business.

10 (h) Meetings. The Committee shall meet as needed.
11

12 Section 2. SUNSET PROVISION.

13 The Committee shall sunset and shall cease to exist thirty (30) days after the
14 conclusion of the FAA's 180-day review of the Airport's Noise Compatibility Program
15 generated by the Part 150 Study process.
16

17 Section 3. SEVERABILITY.

18 If any portion of this Resolution is determined by any Court to be invalid, the
19 invalid portion shall be stricken, and such striking shall not affect the validity of the
20 remainder of this Resolution. If any Court determines that this Resolution, or any
21 portion hereof, cannot be legally applied to any individual(s), group(s), entity(ies),
22 property(ies), or circumstance(s), such determination shall not affect the applicability
23 hereof to any other individual, group, entity, property, or circumstance.
24

1 Section 4. EFFECTIVE DATE.

2 This Resolution shall become effective upon adoption.

3
4 ADOPTED this ____ day of _____, 2016.

5
6
7 Approved as to form and legal sufficiency:
8 Joni Armstrong Coffey, County Attorney

Study Coordination Committee Briefing
August 23, 2017

14 CFR PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

Study Coordination Committee
Meeting #1
August 23, 2017

Presentation Outline

- Part 150 Study Overview
- Introduction to Aircraft Noise, Modeling, and Compatibility
- Airport Overview
- Public Outreach
- Technical Committee
- Frequently Asked Questions
- Project Schedule
- Questions from the SCC

Part 150 Study Overview

14 CFR Part 150 Overview

- Interim Rule on Federal Aviation Regulations (FAR) Part 150, *Airport Noise Compatibility Planning* issued in 1981 and finalized in 1985, later recodified as Title 14 Code of Federal Regulations (CFR) Part 150
- Issued in response to provisions contained in the *Aviation Safety and Noise Abatement Act of 1979*
- Establishes the methodology to be followed when preparing aircraft noise exposure maps and developing airport/airport environs land use compatibility programs
- Part 150 studies are voluntary, but...
- Part 150 studies must adhere to 14 CFR Part 150 guidelines to be considered and accepted and approved by FAA

Part 150 Study Overview

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

FLL's Part 150 Efforts Span 3 Decades

Part 150 Study Overview

Key Issues

- Operational Concerns
 - Opening of New Runway
 - Change in Operation of North Runway
 - Potential Changes Related to NextGen/Metroplex
- Ongoing Residential Sound Insulation Program
- Community Education
- Expectation Management

Part 150 Study Overview

Regulatory Framework

- **Federal law** sets aircraft noise standards, prescribes operating rules, establishes the compatibility planning process, and limits airport proprietor's ability to restrict aircraft operations.
- **State law** sets forth compatibility planning guidelines and noise standards but aircraft are exempt.
- **Local noise ordinances** set noise standards and provide for compatible land use planning but aircraft are exempt.

Who Can Regulate Airport Noise?

- **Federal Aviation Administration:** (1) Controls aircraft while in flight; (2) Responsible for controlling noise at its source (i.e., aircraft engines); (3) Certifies aircraft and pilots.
- **Airport Proprietors/BCAD:** (1) Very limited authority to adopt local restrictions; (2) Responsible for capital improvement projects and infrastructure.
- **Local Governments and States:** (1) Promote compatible land use through zoning; (2) Require real estate disclosure; (3) Mandate sound-insulating building materials.

FEDERAL LAW PREEMPTS STATE AND LOCAL REGULATIONS

Part 150 Study Overview

Analyze, Evaluate, Educate

- Determine existing and future noise conditions in the vicinity of an airport
- Identify incompatible uses
- Identify measures to improve compatibility
 - Evaluate the feasibility of possible flight procedure/land use changes
 - Submit locally-endorsed recommendations to the FAA regarding noise reduction measures
 - Approved measures may be eligible for Federal grant funding
- Educate communities on the Federal process and what can and cannot be done to address aircraft noise concerns

**Part 150 Studies Must Adhere to 14 CFR Part 150
Guidelines to be Accepted and Approved by FAA**

Part 150 Study Overview

Noise Exposure Map Report (NEM)

- Develop a comprehensive database of current conditions
- Noise contour development and impact analysis
- Prepare and submit Noise Exposure Map (NEM) Report

Noise Compatibility Program (NCP)

- Identify and evaluate noise abatement alternatives
- Identify and evaluate compatible land use alternatives
- Identify and evaluate administrative measures
- Prepare and submit Noise Compatibility Program (NCP) Report

Stakeholder Outreach Program

- Local Jurisdictions/Agencies
- FAA
- Public

Part 150 Study Overview – General Study Process

Other Milestones:

- BCAD Initiation of a Study Coordination Committee in Fall 2016
- FAA Approval of the FLL Part 150 Study Forecast on April 10, 2017
- Website launched on May 3, 2017

Noise, Modeling and Compatibility

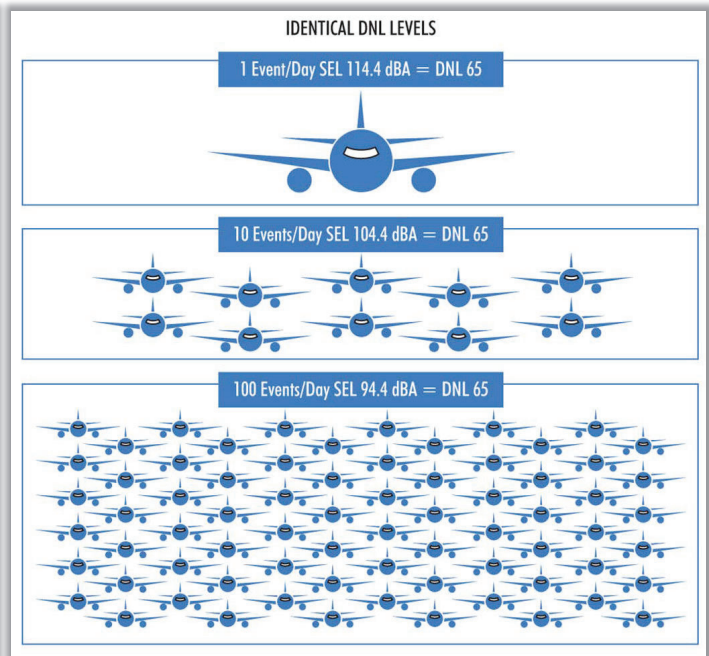

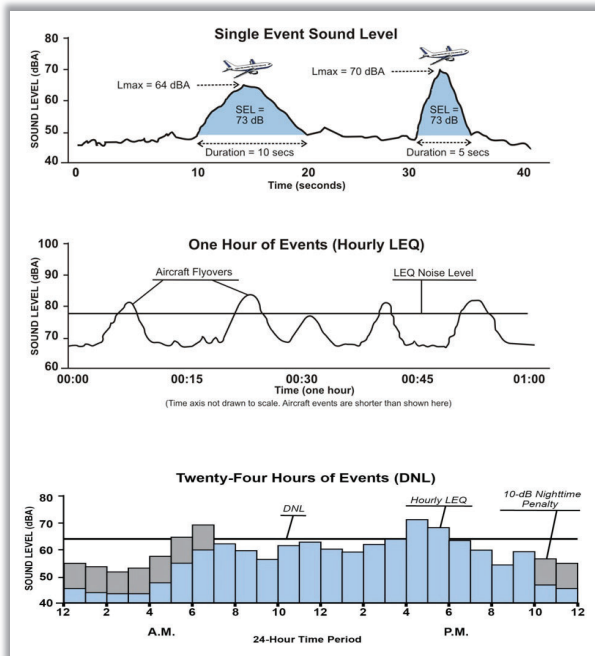

Introduction to Aircraft Noise - DNL

Day-Night Average Sound Level (DNL)

- 24-hour time weighted energy average noise level based on A-weighted decibels (dBA)
- Noise occurring between 10 p.m. to 7 a.m. is penalized by 10 dB to account for the higher sensitivity to noise during nighttime hours and for the expected further decrease in background levels that typically occur in the nighttime
- FAA requires the use of DNL for airport noise assessments
- Average Annual Day aircraft noise exposure is calculated over a broad area and then depicted using contour lines of equal noise levels

Introduction to Aircraft Noise - DNL

Part 150 Study Overview – Modeling

Noise Modeling

- Aircraft noise modeling allows:
 - Calculation of noise exposure at any point
 - Depicting annual average aircraft noise exposure
 - Predicting future aircraft noise exposure
 - Assessing changes in noise impacts resulting from runway configuration changes or new runways
 - Assessing changes in fleet mix and/or number of operations
 - Evaluating operational procedures
- Aviation Environmental Design Tool (AEDT) replaced the Integrated Noise Model (INM) when it was released in 2015. The current version, AEDT 2C, will be used for the FLL Part 150 Study.

Part 150 Study Overview – Modeling

Model Inputs

- The Amount of Noise Exposure is determined by:
 - Aircraft types
 - Stage length
 - Number of average annual day operations
 - Nighttime weighting (1 nighttime operation = 10 daytime operations)
- The Noise Exposure Distribution is determined by:
 - Runway configuration and use
 - Flight track locations
 - Flight track use
- Other Factors
 - Meteorological Conditions
 - Terrain

**Aviation Environmental
Design Tool (AEDT)
Version 2C**

Part 150 Study Overview – Land Use Compatibility

Land Uses

- Existing and Future Land Use
- Land parcel data
- Zoning
- Jurisdictional boundaries and neighborhoods

Noise Sensitive Uses

- Residential
- Places of worship
- Schools, colleges and universities
- Libraries/cultural institutions
- Hospitals and residential healthcare facilities
- Daycare and assisted living facilities
- Historic properties

Part 150 Study Overview - Land Use Compatibility

Land Use Compatibility

- Table 1 in Appendix A of 14 CFR Part 150 provides noise and land use compatibility guidelines
- Deems levels below 65 dB DNL to be compatible with all land uses
- Allows for the adoption of appropriate local land use standards for land use compatibility planning purposes

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

Land Use	Yearly Day-Night Noise Level (DNL) in decibels					
	Below 65	65-70	70-75	75-80	80-85	Over 85
Residential						
Residential, other than mobile homes and transient lodgings	Y	N(1)	N(1)	N	N	N
Mobile home parks	Y	N	N	N	N	N
Transient lodgings	Y	N(1)	N(1)	N(1)	N	N
Public Use						
Schools	Y	N(1)(1)	N(1)	N	N	N
Hospitals and nursing homes	Y	25	30	N	N	N
Churches, auditoriums and concert halls	Y	25	30	N	N	N
Governmental services	Y	Y	25	30	N	N
Transportation	Y	Y	Y(2)	Y(3)	Y(4)	Y(4)
Parking	Y	Y	Y(2)	Y(3)	Y(4)	N
Commercial Use						
Offices, business and professional	Y	Y	25	30	N	N
Wholesale and retail building materials, hardware and farm equipment	Y	Y	Y(2)	Y(3)	Y(4)	N
Retail trade-general	Y	Y	25	30	N	N
Utilities	Y	Y	Y(2)	Y(3)	Y(4)	N
Communication	Y	Y	25	30	N	N
Manufacturing and Production						
Manufacturing-general	Y	Y	Y(2)	Y(3)	Y(4)	N
Photographic and optical	Y	Y	25	30	N	N
Agriculture (except livestock) and forestry	Y	Y(6)	Y(7)	Y(8)	Y(8)	Y(8)
Livestock farming and breeding	Y	Y(6)	Y(7)	N	N	N
Mining and fishing resource production and extraction	Y	Y	Y	Y	Y	Y
Recreational						
Outdoor sports arenas and spectator sports	Y	Y(5)	Y(5)	N	N	N
Outdoor music shells, amphitheaters	Y	N	N	N	N	N
Nature exhibits and zoos	Y	Y	N	N	N	N
Amusements, parks, resorts and camps	Y	Y	Y	N	N	N
Golf courses, riding stables and water recreation	Y	Y	25	30	N	N

Numbers in parentheses refer to notes.

*The designations contained in this table do not constitute a Federal determination that any use of land covered by the program is acceptable or unacceptable under Federal, State or local law. The responsibility for determining the acceptable and permissible land uses and the relationship between specific properties and specific noise contours rests with the local authorities. FAA determinations under Part 150 are not intended to substitute federally determined land uses for those determined to be appropriate by local authorities in response to locally determined needs and values in achieving noise compatible land uses.

Key to Table 1

SLUCM	Standard Land Use Coding Manual.
Y(Yes)	Land Use and related structures compatible without restrictions.
N(No)	Land Use and related structures are not compatible and should be prohibited.
NLR	Noise Level Reduction (outdoor to indoor) to be achieved through incorporation of noise attenuation into the design and construction of the structure.
25, 30 or 35	Land Use and related structures generally compatible: measures to achieve NLR of 25, 30 or 35 dB must be incorporated into design and construction of structure.

Notes

(1) Where the community determines that residential or school uses must be allowed, measures to achieve outdoor to indoor Noise Level Reduction (NLR) of at least 25 dB to 30 dB should be incorporated into building codes and be considered in individual approvals. Normal residential construction can be expected to provide a NLR of 20 dB, thus, the reduction requirements are often stated as 5, 10 or 15 dB over standard construction and normally assume mechanical ventilation and closed windows year round. However, the use of NLR criteria will not eliminate outdoor noise problems.	(3) Measures to achieve NLR of 30 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
(2) Measures to achieve NLR of 25 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.	(4) Measures to achieve NLR of 30 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
(5) Land use compatible provided that special sound reinforcement systems are installed.	(6) Residential buildings require an NLR of 25.
(6) Residential buildings require an NLR of 25.	(7) Residential buildings require an NLR of 30.
(7) Residential buildings require an NLR of 30.	(8) Residential buildings not permitted.

Airport Overview

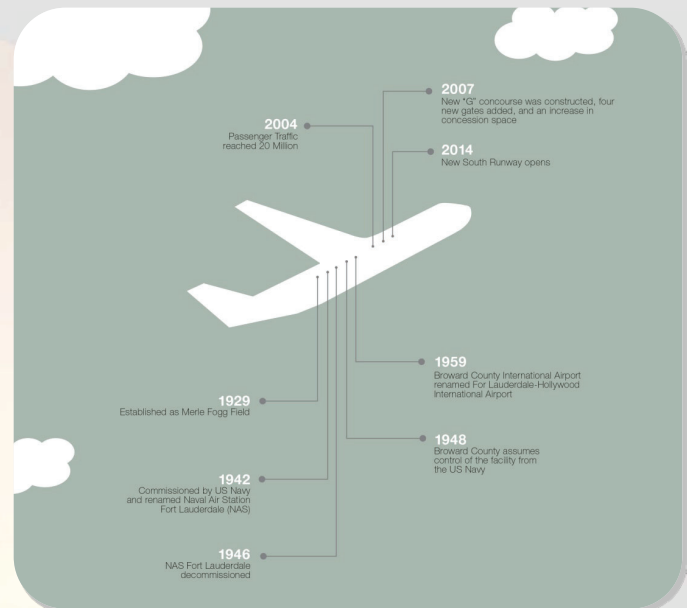

FLL Overview

FLL Overview

- FLL is 21st in the U.S. in total passenger traffic and 13th in domestic origin and destination passengers
- Each day an average of 80,000 travelers pass through FLL
- The new South Runway opened in September 2014
- Nonstop flights to over 100 U.S. and international cities
- 139,920 total jobs (direct, indirect, and induced)

Data Collection - 2016 Operational Information

Annual Aircraft Operations

Date	Air Carrier	Air Taxi	General Aviation	Military	Total
January 2016	19,945	2,849	3,377	39	26,210
February 2016	19,026	2,711	3,188	49	24,974

April 10, 2017

Mr. William Castillo
Airport Planning Manager
Broward County Aviation Department
2200 SW 45th Street, Suite 101
Dania Beach, Florida 33312

Dear Mr. Castillo:

RE: Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL
Approval of Forecast for use in the 14 CFR Part 150 Study

This letter responds to your request for approval to use the Accelerated Baseline Forecasts for the purposes of the 14 Code of Federal Regulations (CFR) Part 150 Study for the Fort Lauderdale-Hollywood International Airport (FLL).

On January 13, 2017, the Federal Aviation Administration (FAA) approved the Baseline Forecast for FLL and accepted the Accelerated Baseline Forecast prepared in the Master Plan Update for sensitivity purposes and for the purpose of establishing facility requirements.

The FAA notes that the Accelerated Baseline Forecast varies less than 10 percent in the 5 year period and 15 percent in the 10 year period from the FAA's 2016 Terminal Area Forecast (TAF) published in January, 2017.

The FAA has determined that the Accelerated Baseline Forecast is consistent with the FAA's most recent TAF for FLL, and therefore, we approve the use of the Accelerated Baseline Forecast for the ongoing FLL Part 150 Study.

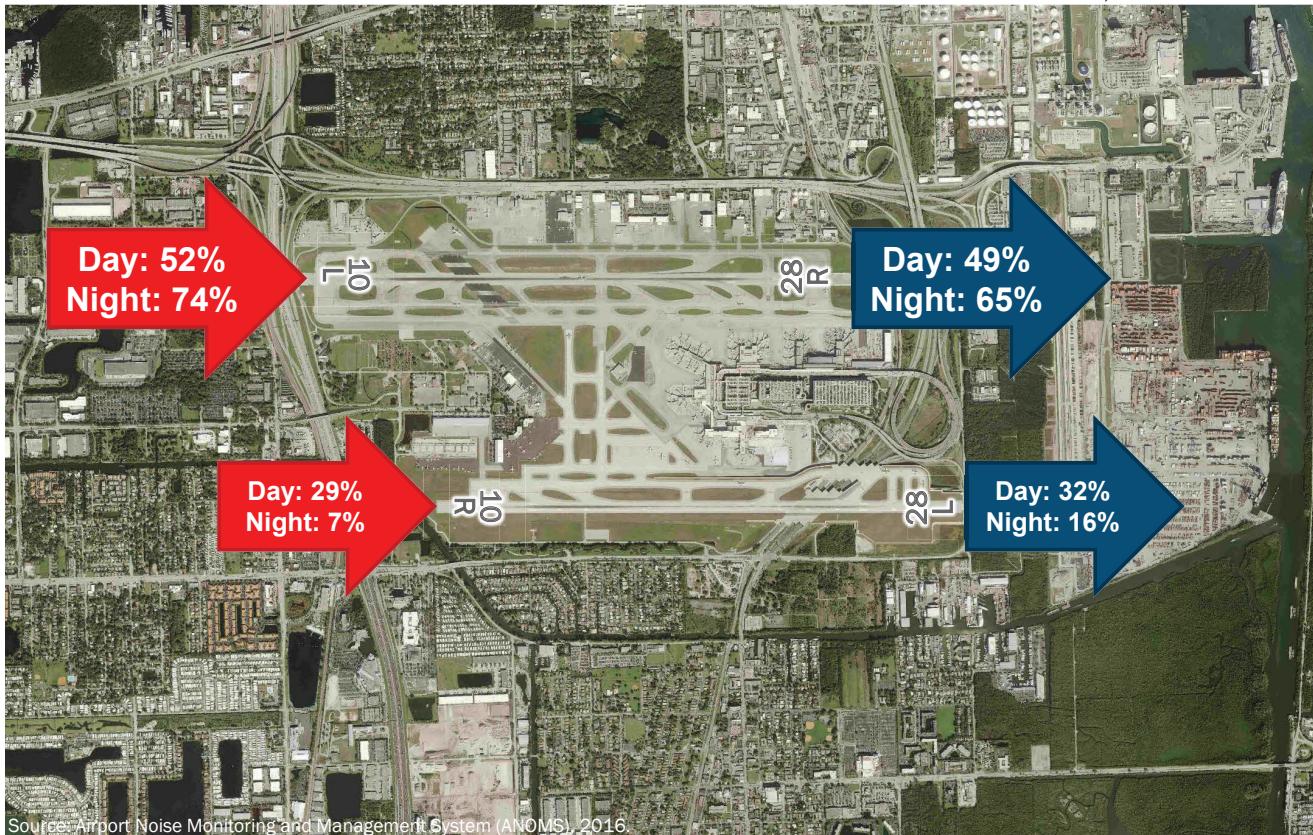

If you have any questions, please feel free to contact me at (407) 812-6331, ext. 130.

Sincerely,

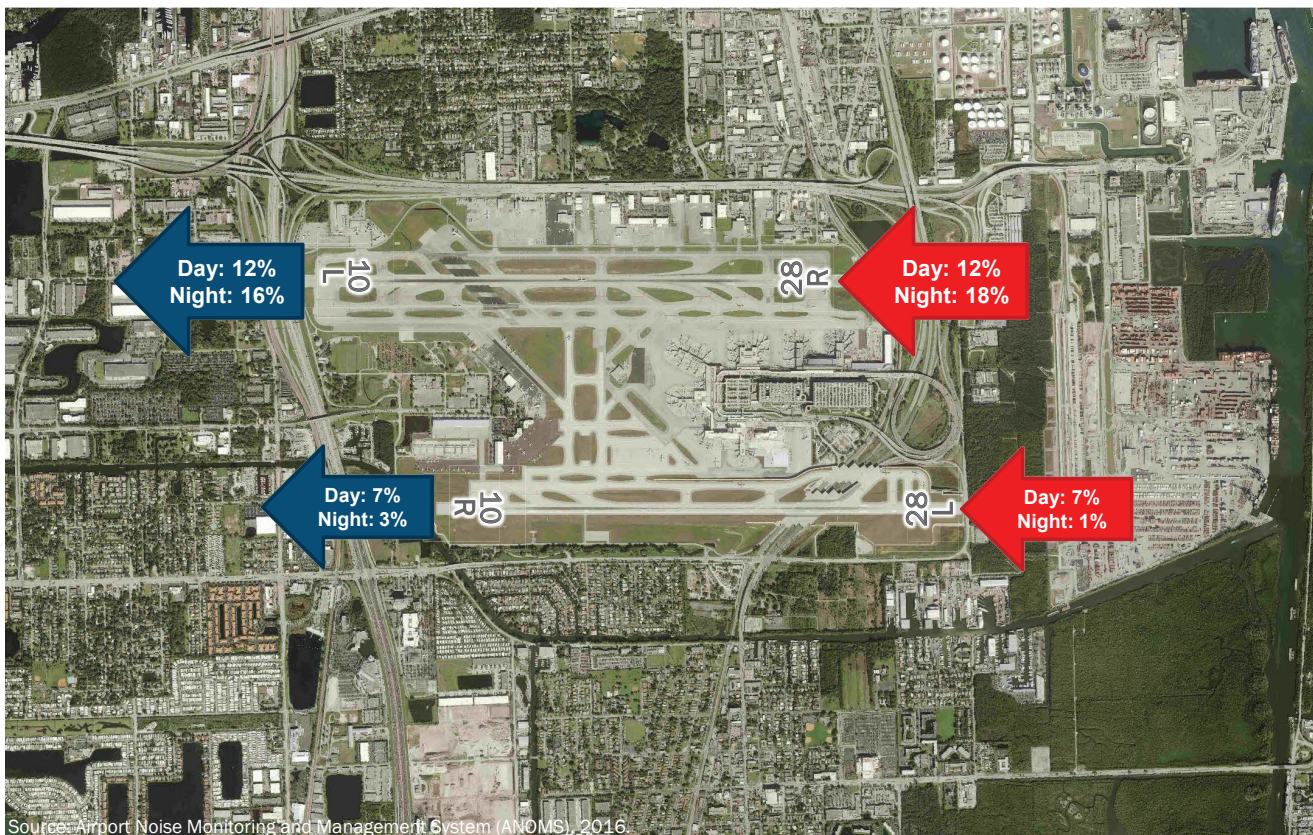

Allan M. Nagy
FAA Orlando ADO Environmental Program Specialist

Public Outreach

Public Outreach

- Initial Coordination with Nearby Jurisdictions
 - 8 meetings to present project and solicit TC members
- Initial Kickoff Public Workshops
 - 5 informal workshops over 4-5 consecutive days
- NEM Public Workshop
 - Single large venue informal workshop
- Newsletter (6)
- NCP Public Workshop/Hearing
 - Single large venue informal workshop followed by formal hearing

Purpose and Objectives of the TC

- TC members represent the interests of their organization and/or constituents
- The TC's role is to support the FLL Part 150 Study
 - Review study assumptions
 - Provide technical feedback within the context of the Part 150 Study (noise exposure maps and noise compatibility program)
 - TC members are encouraged to express their opinions and expected to respect the range of opinions expressed by their fellow TC members
- TC members are also expected to advise their organization and/or constituents of the TC's discussions
- BCAD will respect and consider the TC's technical input, but retains responsibility for, and decision making authority on, the FLL Part 150 Study
- TC meetings will be open to the public, subject to space availability

Frequently Asked Questions

Frequently Asked Questions

- Will the study “fix” all the noise issues around the airport?
 - No, overflights of residential areas are unavoidable and sensitivity to noise varies by person
- What type of noise monitoring will be conducted as part of the study?
 - None, all analysis is modeling based which allows consistency, prediction of noise levels where there are no monitors and evaluation of future conditions
- Will the Study address concerns about safety, soot, or other concerns related to aircraft operation?
 - The Part 150 process focusses exclusively on noise and land use compatibility

Additional Frequently Asked Questions are available on
www.flpart150.com/faq
