(November 13 – 17, 2017)

Public Information Workshops for Part 150 Airport Noise Compatibility Planning Study Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

DATE: Monday, November 13, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Southwest Ranches Town Hall
13400 Griffin Road, Southwest Ranches, FL 33330

DATE: Tuesday, November 14, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Anne Kolb Nature Center
751 Sheridan St., Hollywood, FL 33019

DATE: Wednesday, November 15, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Deicke Auditorium
5701 Cypress Road, Plantation, FL 33317

DATE: Thursday, November 16, 2017
TIME: 6:00PM - 8:30PM
LOCATION: Signature Grand
6900 FL-84, Davie, FL 33317

DATE: Friday, November 17, 2017
TIME: 6:00PM - 8:30PM
LOCATION: BCPS Boardroom
600 SE 3rd Avenue, 1st Floor, Fort Lauderdale, FL 33301

At key points during the project, newsletters will provide updates on study progress. BCAD will also host additional public workshops to provide future opportunities for input throughout the Study. BCAD encourages all interested parties to monitor the project website for the latest study information and announcements at www.fllpart150.com

Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact **1-800-974-2703**.

Public Invited to Workshops for the Part 150 Noise Study

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information and staff/consultants to answer questions. Topics include:

- Part 150 Study process.
- Project schedule.
- Introduction to noise.
- Information about modelling aircraft noise exposure.

Open House Format
The workshops will be an "open house" format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction with staff/consultants and sharing of information and concerns. You may attend any workshop and at any time during the open house.

Comments
Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

Meeting Dates and Locations

Date: Monday, November 13, 2017
Time: 6 - 8:30 p.m.
Location: Southwest Ranches Town Hall, 13400 Griffin Road, Southwest Ranches, FL 33330

Date: Tuesday, November 14, 2017
Time: 6 - 8:30 p.m.
Location: Anne Kolb Nature Center, 751 Sheridan St., Hollywood, FL 33019

Date: Wednesday, November 15, 2017
Time: 6 - 8:30 p.m.
Location: Delco Auditorium, 5701 Cypress Road, Plantation, FL 33317

Date: Thursday, November 16, 2017
Time: 6 - 8:30 p.m.
Location: Signature Grand, 6900 FL-84, Davie, FL 33317

Date: Friday, November 17, 2017
Time: 6 - 8:30 p.m.
Location: Broward County Public Schools Boardroom, 600 SE 3rd Avenue, 1st Floor, Fort Lauderdale, FL 33301

More Information
At key points during the project, newsletters will provide updates on study progress. BCAD will also host additional public workshops to provide future opportunities for input throughout the Study. BCAD encourages all interested parties to monitor the project website [FLLPart150](#) for the latest study information and announcements.

Federal Regulations
BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, Airport Noise Compatibility Planning.

Special Accommodations
Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact 1-800-974-2703.

ITB # 2018-06.**

The City of Parkland is requesting sealed bids for Network Switch Infrastructure Upgrades across the entire city campus according to exhibits and specifications attached hereto.

Bids will be received at the City of Parkland City Hall 6600 University Drive, Parkland, Florida, 33067, until Tuesday, November 14, 2017 2:30 PM local time, at which time they will be publicly opened and read. Late bids or their representatives are invited to be present. Bids shall be delivered and addressed to, City of Parkland, Attn: City's Clerk's Office, 6600 University Drive, Parkland, Florida 33067 and shall be labeled "SEALED BID FOR NETWORK SWITCH INFRASTRUCTURE UPGRADES ITB #2018-06."

Any bidder who wishes his bid to be considered is responsible for making certain that his bid is received in the City by the proper time. No oral, telegraphic, electronic, facsimile, or telephonic bids or modification will be considered unless specified. Bids received after the scheduled bid submission deadline will be returned unopened. It is the responsibility of the bidder to see that any bid submitted shall have sufficient time to be received by the City before the bid submission deadline. Late bids will be returned to the Proposer unopened.

A bidder must submit one (1) identified original, one (1) electronic, and one (1) copy of the bid including any attachments, and shall be signed by a duly authorized representative who is authorized to contractually bind the bidder.

All bidders may be obtained from the City Clerk's Office at 6600 University Drive, Parkland, Florida 33067, from the city website at www.cityofparkland.net, or via DemandStar. For information, please call David Franklin, IT Manager – (561) 757-4141.

TOWN OF DAVIE RFP NO. CS-18-10 REQUEST FOR PROPOSALS Strategic Planning Services

Early Potential Respondent:

To facilitate the Town of Davie strategic planning mission statement and facilitate a participatory planning process that will help create a three (3) year strategic plan for the town built around the five (5) major goals contained in the priorities, The Town of Davie invites qualified firms to submit responses in accordance with the scope of services, terms and conditions contained in RFP no. later than 2:00 PM EST Friday, November 17, 2017, for RFP NO. CS-18-10 Strategic Planning Services. Interested firms may secure the solicitation package and request copies of all documents by visiting <http://www.davie-flgov/bids> or at enlandstar.com.

Questions regarding this solicitation shall be submitted in writing to bids@davie-fl.gov no later than 5:00 PM on Thursday, November 9, 2017. Responses to those questions considered material to the solicitation will be made available as normal addenda on the Town's Purchasing Website and DemandStar.com. It is the responsibility of prospective respondents to ensure they are aware of all addenda issued relative to this solicitation.

Bidders shall submit One (1) original complete proposal package + Four (4) hard copies of said package. One flash drive or CD copy, to the Town of Davie Budget and Finance / Purchasing Division - Attention: Purchasing Manager, Brian K. O'Connor, 655 S Orange Ave, Suite 220, Davie, FL 33014, on or before the due date indicated above. All packages shall be clearly marked "RFP NO. CS-18-10 Strategic Planning Services". The Town will not be responsible in the event the U.S. Postal Service or any other courier system fails to deliver any package by the above referenced deadline. Late submissions shall not be accepted.

Firms will be publicly opened and firm names read aloud in the Town Council Chambers on the due date of the solicitation. The selection of successful respondent(s) shall be at the town's discretion and shall be made in prompt manner after the receipt and evaluation of all responses. The Town reserves the right to reject any and all submissions, to waive any irregularities in any submission, and make awards in the best interest of the Town.

**Brian K. O'Connor
Procurement Manager
Town of Davie**

Pursuant to Florida Statutes 119.071, sealed bids, proposals or replies by an agency pursuant to a competitive solicitation shall be opened on the date and at such time as the agency provides notice in an intended decision unit (or thirty (30) days after the opening of the bids, proposals, or final replies, whichever is earlier).

Description:

Public Information Workshops for Part 150 Airport Noise Compatibility Planning Study Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an “open house” format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a “Part 150 Study,” will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

BOCA

Continued from Page 1B

the city to install a bike path network, Sumislaski said.

But there are drawbacks, he said. Speeding probably would increase, and it could be more difficult for drivers to get to businesses or recover from wrong turns.

It could be a temporary inconvenience for some businesses, said lawyer Michael Liss, whose firm is downtown.

“I think it would be a positive,” said Liss, who also heads the Downtown Business Alliance, a networking coalition of businesses in the area. “But it isn’t high on my priority list.”

U.S. 1 already is split in Delray Beach, where it leads north on Southeast Sixth Avenue and south on Southeast Fifth.

A similar one-way setup exists in West Palm Beach.

In order for the plan to work in Boca, the city would need to get approval from Palm Beach County, which maintains Dixie Highway,

“If we do nothing, we’re going to have multiple failing intersections in our downtown.”

Susan Haynie, Boca mayor

and the FDOT, which has jurisdiction over Federal.

Converting Federal would require major reconstruction to eliminate the median and possibly one of the travel lanes, said FDOT District 4 spokesman Chuck McGinness.

Dan Grippo, Boca’s director for development services, said the city would have to look at improving each intersection one by one if officials chose not to go forward with the project.

“They’re going to fail regardless,” Grippo said. “So we should do something with those intersections in the next few years.”

Talleres de Información al Público sobre el Estudio de Planeación de Compatibilidad de Ruido en el Aeropuerto (Sección 150) Aeropuerto Internacional de Fort Lauderdale-Hollywood

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le invita a asistir a uno de los varios talleres abiertos al público sobre el Estudio de la Parte 150 (Part 150). Se llevarán a cabo cinco talleres con exhibiciones informativas. Los talleres abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto, una introducción al tema del ruido y la modelación de la exposición a ruido emitido por los aviones.

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de Fort Lauderdale (FLL) con las comunidades vecinas. El estudio, titulado “Part 150 Study” (Estudio de la Sección 150) seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, *Planeación de la Compatibilidad del Ruido Aeroportuario*.

Estos talleres tendrán un formato de "Open House" en diferentes lugares de las comunidades que rodean al aeropuerto. No se llevará a cabo una presentación formal. Esto dará a los asistentes la oportunidad de una interacción personal, donde se puedan compartir información y preocupaciones sobre el tema. Durante el Open House, usted podrá asistir a cualquier taller en cualquier momento. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el FLL. La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

FECHA: Lunes, 13 de noviembre de 2017

Durante puntos clave del proyecto, se proporcionarán boletines informando el progreso del estudio. Durante el estudio, BCAD también llevará a cabo talleres adicionales que darán oportunidad al público de participar. Para obtener notificaciones y la información más actualizada sobre el estudio, BCAD invita a todos los interesados a monitorear la página web del proyecto www.flpart150.com

Public Information Workshops for
Part 150 Airport Noise Compatibility Planning Study
Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops will include displays that will present information. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an “open house” format at different locations in communities around the airport. There will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. You may attend any workshop and at any time during the open house. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This study, a “Part 150 Study,” will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

President Trump’s
Mar-a-Lago soon
will be reopening

By TERRY SPENCER
Associated Press

PALM BEACH — It’s November, which means President Donald Trump’s Mar-a-Lago is reopening after being closed during the brutal heat and humidity of Florida’s summer. If last season is a guide, the president will soon visit his Winter White House, staying several days at Thanksgiving, Christmas and New Year’s and then return many more weekends until May.

But he will find a major difference this season. Because of the outcry that followed Trump’s remarks in connection with a white nationalist rally, Mar-a-Lago will host many fewer galas: about 20 charities have canceled or moved their events, with only a few newcomers taking their place.

Trump caused an uproar after blaming the violence that erupted in Charlottesville on both sides: the white nationalists who came to protest the removal of a Confederate statue from a city park and those who opposed them.

Since Mar-a-Lago’s grand ballroom opened more than 20 years ago, it has annually hosted numerous charity galas between Thanksgiving and Easter.

But there won’t be many galas at Mar-a-Lago this season. Several major national charities moved or canceled their fundraisers after Trump’s Charlottesville comments, including the American Cancer Society, Cleveland Clinic, the International Red Cross, the Salvation Army and the breast cancer organization Susan G. Komen.

Talleres de Información al Público sobre el Estudio de Planeación de Compatibilidad de Ruido en el Aeropuerto (Sección 150)

Aeropuerto Internacional de Fort Lauderdale-Hollywood

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le invita a asistir a uno de los varios talleres abiertos al público sobre el Estudio de la Parte 150 (Part 150). Se llevarán a cabo cinco talleres con exhibiciones informativas. Los talleres abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto, una introducción al tema del ruido y la modelación de la exposición a ruido emitido por los aviones.

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de Fort Lauderdale (FLL) con las comunidades vecinas. El estudio, titulado “Part 150 Study” (Estudio de la Sección 150) seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, *Planeación de la Compatibilidad del Ruido Aeroportuario*.

Estos talleres tendrán un formato de "Open House" en diferentes lugares de las comunidades que rodean al aeropuerto. No se llevará a cabo una presentación formal. Esto dará a los asistentes la oportunidad de una interacción personal, donde se puedan compartir información y preocupaciones sobre el tema. Durante el Open House, usted podrá asistir a cualquier taller en cualquier momento. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el FLL. La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

FECHA: Lunes, 13 de noviembre de 2017

HORA: 6:00PM - 8:30PM

UBICACIÓN: BCPS Boardroom - 600 SE 3rd Avenue, 1st Floor, Fort Lauderdale, FL 33301

Durante puntos clave del proyecto, se proporcionarán boletines informando el progreso del estudio. Durante el estudio, BCAD también llevará a cabo talleres adicionales que darán oportunidad al público de participar. Para obtener notificaciones y la información más actualizada sobre el estudio, BCAD invita a todos los interesados a monitorear la página web del proyecto www.fllpart150.com

Cualquier persona que necesite acomodaciones especiales de acuerdo a la Legislación de 1990 sobre los Americanos con Discapacidades, o cualquier persona que tenga preguntas puede contactar a 1-800-974-2703.

Public Information Workshops for
Part 150 Airport Noise Compatibility Planning Study
Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) invites you to attend a public workshop to provide
information on the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL). Five workshops
will include displays that will present information. Topics include the Part 150 Study process, project schedule,
an introduction to noise, and information about modeling aircraft noise exposure.

The workshops will be an "open house" format at different locations in communities around the airport. There
will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one
interaction and sharing of information and concerns. You may attend any workshop and at any time during the
open house. Now is the time to participate and express your concerns about noise generated by aircraft
operating at FLL. Feedback received will be considered throughout the development of the Study.

BCAD recently began the study to evaluate the compatibility of FLL with the surrounding communities. This
study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR)
Part 150, *Airport Noise Compatibility Planning*.

Study Kick-Off Public Information Workshops

Handouts

(November 13 – 17, 2017)

AVIATION DEPARTMENT - Fort Lauderdale-Hollywood International Airport

2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Welcome to the Ft. Lauderdale-Hollywood International Airport (FLL) Public Information Workshop for the Part 150 Airport Noise Compatibility Planning Study

The Broward County Aviation Department (BCAD) welcomes and thanks you for attending this public workshop for the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL).

BCAD recently began a study to improve the compatibility of FLL with the surrounding communities. This study, known as a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

The workshop will be an "open house" format and there will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

The following pages of this handout will guide you through each of the seven stations available at tonight's workshop. We encourage you to visit each station and review the materials provided. Members of the study team are available to answer any questions you have.

STATION 1: THE PART 150 STUDY PROCESS

Station 1 will guide you through the study process dictated by 14 CFR Part 150, the federal regulation that establishes the methodology to be followed when determining aircraft noise exposure on the surrounding communities as well as developing a program to ensure the compatibility of surrounding land uses with the anticipated noise exposure.

List of Presentation Boards at Station 1:

1. 14 CFR Part 150 Overview
2. Why Conduct a 14 CFR Part 150 Study
3. Key Issues for this Part 150 Study
4. Additional Part 150 Study Information
5. Regulatory Framework
6. Phases of a Part 150 Study
7. General Study Process
8. 14 CFR Part 150 Terminology

STATION 2: UNDERSTANDING NOISE AND SOUND LEVEL METRICS

Station 2 contains five boards that explain the science behind acoustics and the various sound level metrics used in a Part 150 Study. It also provides information regarding various land uses and noise sensitive sites as well as providing the location of existing noise monitoring locations surrounding FLL.

List of Presentation Boards at Station 2:

1. Day-Night Average Sound Level (DNL)
2. Understanding Aircraft Sound Levels
3. DNL Noise Contour Example
4. Part 150 Study Overview – Land Use Compatibility
5. Noise Monitoring Sites

STATION 3: STAKEHOLDER OUTREACH

Station 3 discusses the stakeholder outreach program designed to involve local officials, jurisdictions, agencies, FLL tenants, and the public in the Part 150 Study process. Their involvement is essential to the success of the overall study.

List of Presentation Boards at Station 3:

1. Public Outreach Plan Development and Initial Workshops
2. Purpose and Objectives of the Technical Committee (TC)
3. TC Members
4. Preliminary Part 150 Study Schedule

STATION 4: FLL OVERVIEW

Station 4 provides a general overview of FLL as well as data and statistics regarding the operational history and growth of the airport. This data is required to accurately model the Noise Exposure Maps in accordance with the 14 CFR Part 150 regulation.

List of Presentation Boards at Station 4:

1. FLL Overview (Aerial Photograph)
2. FLL Overview (Usage Statistics)
3. Data Collection– 2016 Operational Information
4. Aircraft Activity Forecast

STATION 5: RUNWAY USE

Station 5 provides operational data related to the use of the two primary runways (Runways 10L-28R and 10R-28L) at FLL, including utilization shown between day/night and east/west flow uses.

List of Presentation Boards at Station 5:

1. 2016 Runway Use – East Flow
2. 2016 Runway Use – West Flow
3. Runway Use
4. 2016 Flight Track Densities – East Flow Arrivals
5. 2016 Flight Track Densities – East Flow Departures
6. 2016 Flight Track Densities – West Flow Arrivals
7. 2016 Flight Track Densities – West Flow Departures

STATION 6: NOISE MODELING

Station 6 provides a brief introduction to the noise modeling process used in Part 150 studies including the data requirements and collection process.

List of Presentation Boards at Station 6:

1. Noise Modeling
2. Model Inputs
3. Aviation Environmental Design Tool (AEDT) Inputs

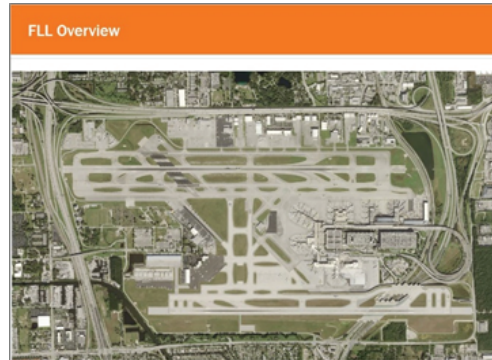

STATION 7: STAKEHOLDER INPUT

Station 7 outlines the existing noise program and some of the concerns that we've heard so far in the FLL Part 150 Study. It also provides information on how to stay informed and provide feedback throughout the Study. Stakeholder input is an important part of the process and will continue to be solicited throughout the Study.

List of Presentation Boards at Station 7:

1. Existing Noise Program Overview
2. Part 150 Overview – FAQs
3. Feedback – What We've Heard
4. Study Website
5. How to Provide Comments

Thank you for attending tonight's workshop.
You may provide written comments during this public workshop
via the available comment forms, or you can submit comments by mail
to the following address:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Please provide comments by December 1, 2017.

Updates to the Part 150 Study and additional comment
options are provided on the project website at:

www.fllpart150.com

Thank You for Your Participation!

DEPARTAMENTO DE AVIACIÓN – Aeropuerto Internacional de Fort Lauderdale-Hollywood

2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

**Le damos la bienvenida
al Taller de Información al Público sobre
el Estudio de Planeación de Compatibilidad de Ruido Sección 150 en
el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL)**

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) le da la bienvenida y también le agradece por asistir a este taller, abierto al público, sobre el Estudio de la Sección 150 (Part 150) para el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL).

Recientemente, BCAD inició un estudio para mejorar la compatibilidad del aeropuerto de FLL con las comunidades vecinas. Este estudio, denominado en inglés “Part 150 Study” o Estudio Sección 150, seguirá el proceso delineado en Apartado 14 del Código de Regulaciones Federales, Sección 150, Planeación de la Compatibilidad del Ruido Aeroportuario.

El taller tendrá un formato de “open house”; no se llevará a cabo una presentación formal. Esto brindará a los asistentes una interacción personal, donde se puedan compartir información e inquietudes sobre el tema. Se abordarán varios temas, incluyendo el proceso de Estudio de la Sección 150, el cronograma del proyecto y una introducción al tema del ruido, así como una modelación de la exposición al ruido emitido por los aviones. Este es el momento de participar y expresar sus preocupaciones acerca del ruido que producen los aviones que operan en el Aeropuerto de Fort Lauderdale (FLL). La retroalimentación recibida será tomada en consideración durante el desarrollo del Estudio.

Las siguientes páginas de este folleto le guiarán a través de cada una de las siete estaciones disponibles en este taller. Le invitamos a que visite cada estación y revise los materiales proveídos. Miembros del equipo de estudio están disponibles para contestar cualquier pregunta que tenga.

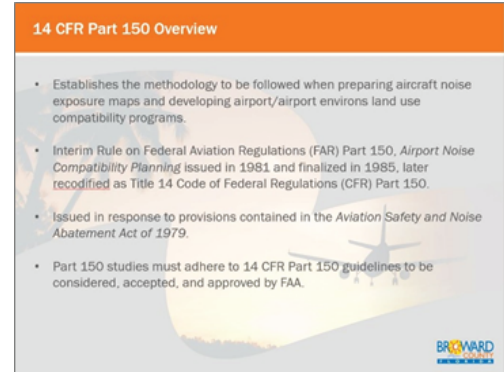

ESTACIÓN 1: EL PROCESO DEL ESTUDIO “SECCIÓN 150”

La Estación No. 1 le guiará a través del proceso de estudio que ordena la regulación federal 14 CFR, Sección 150. Esta regulación establece la metodología que se debe seguir para determinar la exposición de las comunidades vecinas al ruido de los aviones, y para desarrollar un programa que asegure anticipadamente que los usos de suelo de los terrenos vecinos sean compatibles con la exposición al ruido.

Lista de tablas presentadas en la Estación No. 1:

1. Introducción a la regulación 14 CFR Sección 150
2. Por qué llevar a cabo un estudio de acuerdo a la regulación 14 CFR Sección 150
3. Temas centrales del Estudio Sección 150
4. Información adicional del Estudio Sección 150
5. Marco regulatorio
6. Fases del Estudio Sección 150
7. Proceso general del estudio
8. Terminología de la regulación 14 CFR Sección 150

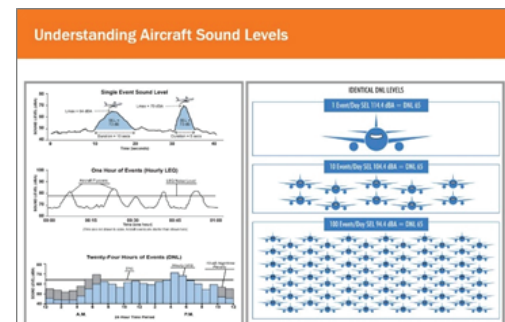

ESTACIÓN 2: ENTENDIENDO LAS MÉTRICAS DE LOS NIVELES DE RUIDO Y SONIDO

La Estación No. 2 contiene cinco tablas que explican la ciencia de la acústica, así como las diversas métricas de nivel de sonido que se utilizan en el Estudio Sección 150. También se proporciona información sobre los diversos tipos de uso de suelo en relación a zonas susceptibles al sonido, así como la localización de monitores de sonido alrededor del aeropuerto FLL.

Lista de tablas presentadas en la Estación No. 2:

1. DNL (Day-Night Average Sound Level): Métrica de los niveles promedio de sonido durante el día y la noche
2. Niveles de sonido de los aviones
3. Ejemplo de Curva de Sonido DNL
4. Introducción al Estudio Sección 150 –Compatibilidad del uso de suelo
5. Sitios de monitoreo de sonido

ESTACIÓN 3: RELACIÓN CON GRUPOS DE INTERÉS

La Estación No. 3 aborda el tema del Programa de Relación con Grupos de Interés, el cual ha sido diseñado para incluir en el Estudio Sección 150 a funcionarios locales, jurisdicciones, agencias y arrendatarios del aeropuerto de FLL, así como al público en general. El involucramiento de todas estas partes es esencial para el éxito del estudio.

Lista de tablas presentadas en la Estación No. 3:

1. Desarrollo del Plan de Relaciones con Grupos de Interés y Talleres iniciales
2. Propósito y objetivos del Comité Técnico (TC por sus siglas en inglés)
3. Miembros del TC
4. Cronograma preliminar del Estudio Sección 150

ESTACIÓN 4: INTRODUCCIÓN AL AEROPUERTO DE FLL

La Estación No. 4 proporciona una introducción al aeropuerto de FLL, así como datos y estadísticas acerca de la historia del aeropuerto y su crecimiento. Todos estos datos son necesarios para crear los Mapas de Exposición al Sonido, de acuerdo a la regulación 14 CFR Sección 150.

Lista de tablas presentadas en la Estación No. 4:

1. Introducción al aeropuerto de FLL (fotografía aérea)
2. Introducción al aeropuerto de FLL (estadísticas de uso)
3. Recolección de datos – Información operativa 2016
4. Pronóstico de actividad aeronáutica

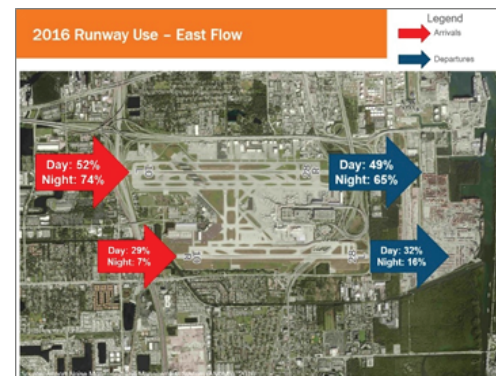

ESTACIÓN 5: USO DE PISTAS DE ATERRIZAJE

La Estación No. 5 proporciona información operativa en relación a las dos principales pistas de aterrizaje (Pistas 10L-28R y 10R-28L) de FLL, incluyendo comparaciones de uso en el día y la noche, así como de flujos este/oeste.

Lista de tablas presentadas en la Estación No. 5:

1. Uso de pistas de aterrizaje 2016 - Flujo este
2. Uso de pistas de aterrizaje 2016 - Flujo oeste
3. Uso de Pistas de Aterrizaje
4. Densidades de trayectorias de vuelo 2016 – Llegadas del flujo este
5. Densidades de trayectorias de vuelo 2016 – Salidas del flujo este
6. Densidades de trayectorias de vuelo 2016 – Llegadas del flujo oeste
7. Densidades de trayectorias de vuelo 2016 – Salidas del flujo oeste

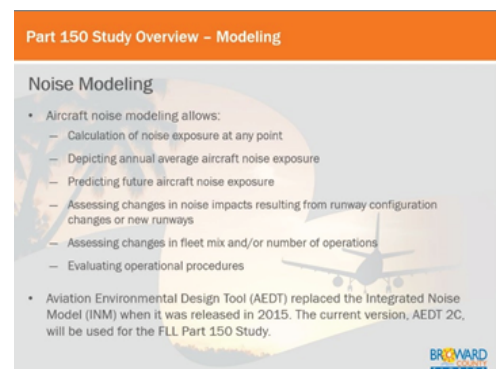

ESTACIÓN 6: MODELACIÓN DE RUIDO

La Estación No. 6 proporciona una breve introducción al proceso utilizado en los estudios de Sección 150 para la de modelación de ruido, incluyendo los requerimientos de información y el proceso de levantamiento de datos.

List of Presentation Boards at Station 6:

1. Modelación de Ruido
2. Datos utilizados en los modelos
3. Datos utilizados en la herramienta de diseño del medio ambiente aeronáutico (AEDT)

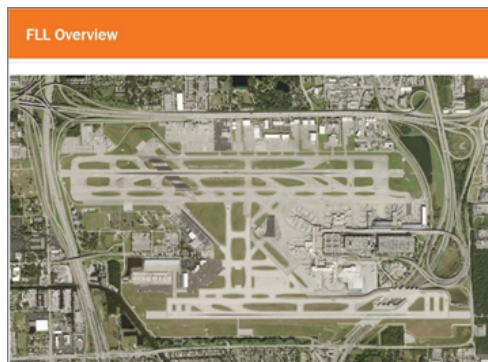

ESTACIÓN 7: APORTACIONES DE GRUPOS DE INTERÉS

La Estación No. 7 delinea el programa actual de sonido y algunas de las inquietudes que hemos escuchado hasta el momento durante el Estudio de FLL Sección 150. También explica cómo mantenerse informado y proporcionar retroalimentación durante el estudio. Las aportaciones de los diferentes grupos de interés son una parte importante del proceso y continuaremos solicitándolas durante el estudio.

Lista de tablas presentadas en la Estación No. 7:

1. Introducción al actual Programa de Ruido
2. Introducción a la Sección 150 – Preguntas frecuentes
3. Retroalimentación – Lo que hemos escuchado
4. Página web del estudio
5. Cómo proporcionar comentarios

Gracias por su asistencia al taller del día de hoy.
Usted puede darnos sus comentarios acerca del Taller, ya sea a través de las formas impresas para comentarios o a través del correo enviado a la siguiente dirección:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Le agradeceremos hacernos llegar sus comentarios a más tardar
el 1º de diciembre de 2017.

También puede contactarnos y obtener información actualizada sobre el estudio
Sección 150 a través de la página web del proyecto:

www.fllpart150.com

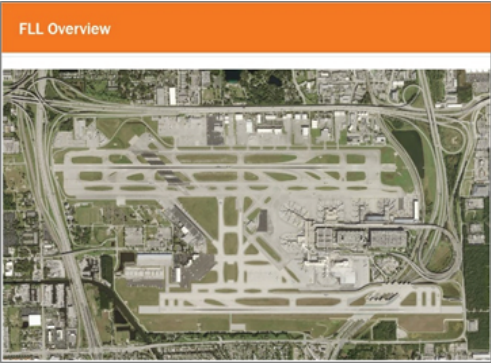

¡Muchas gracias por su participación!

STATION 7: STAKEHOLDER INPUT

Station 7 outlines the existing noise program and some of the concerns that we’ve heard so far in the FLL Part 150 Study. It also provides information on how to stay informed and provide feedback throughout the Study. Stakeholder input is an important part of the process and will continue to be solicited throughout the Study.

List of Presentation Boards at Station 7:

- 1. Existing Noise Program Overview
- 2. Part 150 Overview – FAQs
- 3. Feedback – What We’ve Heard
- 4. Study Website
- 5. How to Provide Comments

Thank you for attending tonight’s workshop.
You may provide written comments during this public workshop via the available comment forms, or you can submit comments by mail to the following address:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Please provide comments by December 1, 2017.

Updates to the Part 150 Study and additional comment options are provided on the project website at:

www.fllpart150study.com

Thank You for Your Participation!

AVIATION DEPARTMENT - Fort Lauderdale-Hollywood International Airport
2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Welcome to the Ft. Lauderdale-Hollywood International Airport (FLL)
Public Information Workshop for the
Part 150 Airport Noise Compatibility Planning Study

The Broward County Aviation Department (BCAD) welcomes and thanks you for attending this public workshop for the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL).

BCAD recently began a study to improve the compatibility of FLL with the surrounding communities. This study, known as a “Part 150 Study,” will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*.

The workshop will be an “open house” format and there will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. Topics include the Part 150 Study process, project schedule, an introduction to noise, and information about modeling aircraft noise exposure. Now is the time to participate and express your concerns about noise generated by aircraft operating at FLL. Feedback received will be considered throughout the development of the Study.

The following pages of this handout will guide you through each of the seven stations available at tonight’s workshop. We encourage you to visit each station and review the materials provided. Members of the study team are available to answer any questions you have.

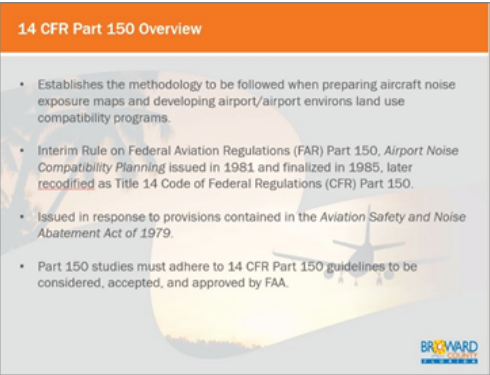

STATION 1: THE PART 150 STUDY PROCESS

Station 1 will guide you through the study process dictated by 14 CFR Part 150, the federal regulation that establishes the methodology to be followed when determining aircraft noise exposure on the surrounding communities as well as developing a program to ensure the compatibility of surrounding land uses with the anticipated noise exposure.

List of Presentation Boards at Station 1:

- 1. 14 CFR Part 150 Overview
- 2. Why Conduct a 14 CFR Part 150 Study
- 3. Key Issues for this Part 150 Study
- 4. Additional Part 150 Study Information
- 5. Regulatory Framework
- 6. Phases of a Part 150 Study
- 7. General Study Process
- 8. 14 CFR Part 150 Terminology

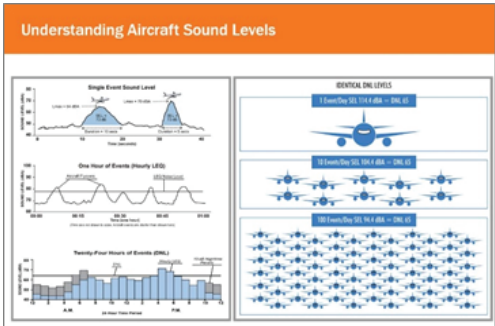

STATION 2: UNDERSTANDING NOISE AND SOUND LEVEL METRICS

Station 2 contains five boards that explain the science behind acoustics and the various sound level metrics used in a Part 150 Study. It also provides information regarding various land uses and noise sensitive sites as well as providing the location of existing noise monitoring locations surrounding FLL.

List of Presentation Boards at Station 2:

- 1. Day-Night Average Sound Level (DNL)
- 2. Understanding Aircraft Sound Levels
- 3. DNL Noise Contour Example
- 4. Part 150 Study Overview – Land Use Compatibility
- 5. Noise Monitoring Sites

STATION 3: STAKEHOLDER OUTREACH

Station 3 discusses the stakeholder outreach program designed to involve local officials, jurisdictions, agencies, FLL tenants, and the public in the Part 150 Study process. Their involvement is essential to the success of the overall study.

List of Presentation Boards at Station 3:

- 1. Public Outreach Plan Development and Initial Workshops
- 2. Purpose and Objectives of the Technical Committee (TC)
- 3. TC Members
- 4. Preliminary Part 150 Study Schedule

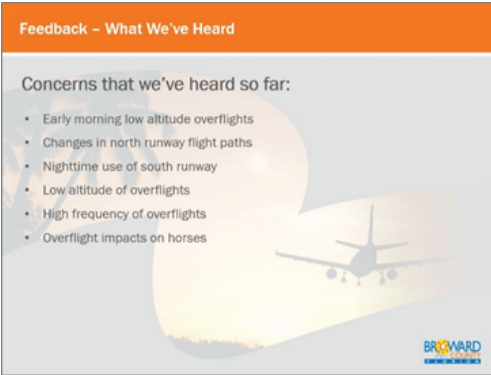

STATION 4: FLL OVERVIEW

Station 4 provides a general overview of FLL as well as data and statistics regarding the operational history and growth of the airport. This data is required to accurately model the Noise Exposure Maps in accordance with the 14 CFR Part 150 regulation.

List of Presentation Boards at Station 4:

- 1. FLL Overview (Aerial Photograph)
- 2. FLL Overview (Usage Statistics)
- 3. Data Collection– 2016 Operational Information
- 4. Aircraft Activity Forecast

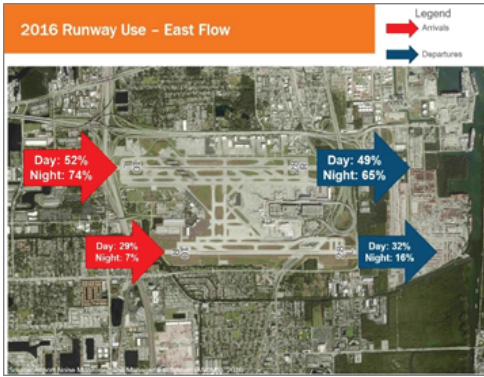

STATION 5: RUNWAY USE

Station 5 provides operational data related to the use of the two primary runways (Runways 10L-28R and 10R-28L) at FLL, including utilization shown between day/night and east/west flow uses.

List of Presentation Boards at Station 5:

- 1. 2016 Runway Use – East Flow
- 2. 2016 Runway Use – West Flow
- 3. Runway Use
- 4. 2016 Flight Track Densities – East Flow Arrivals
- 5. 2016 Flight Track Densities – East Flow Departures
- 6. 2016 Flight Track Densities – West Flow Arrivals
- 7. 2016 Flight Track Densities – West Flow Departures

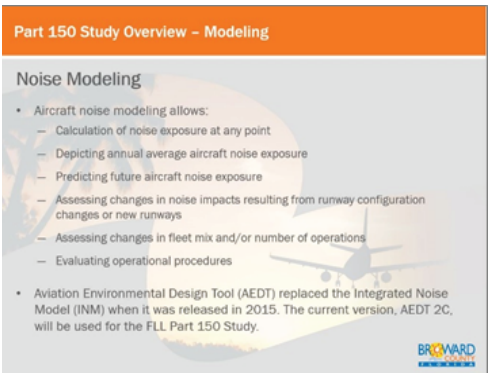

STATION 6: NOISE MODELING

Station 6 provides a brief introduction to the noise modeling process used in Part 150 studies including the data requirements and collection process.

List of Presentation Boards at Station 6:

- 1. Noise Modeling
- 2. Model Inputs
- 3. Aviation Environmental Design Tool (AEDT) Inputs

Study Kick-Off Public Information Workshops

Presentation Boards

(November 13 – 17, 2017)

WELCOME!

FORT LAUDERDALE-HOLLYWOOD INTERNATIONAL AIRPORT

14 CFR PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

Public Information Workshop
November 2017

14 CFR Part 150 Overview

- Establishes the methodology to be followed when preparing aircraft noise exposure maps and developing airport/airport environs land use compatibility programs.
- Interim Rule on Federal Aviation Regulations (FAR) Part 150, *Airport Noise Compatibility Planning* issued in 1981 and finalized in 1985, later recodified as Title 14 Code of Federal Regulations (CFR) Part 150.
- Issued in response to provisions contained in the *Aviation Safety and Noise Abatement Act of 1979*.
- Part 150 studies must adhere to 14 CFR Part 150 guidelines to be considered, accepted, and approved by FAA.

Overview of 14 CFR Part 150

- Why conduct a 14 CFR Part 150 noise study?
 - Determine existing and future noise conditions in the vicinity of an airport
 - Evaluate the feasibility of possible flight procedure/land use changes
 - Educate communities on the Federal process and what can and cannot be done to address aircraft noise concerns
 - Submit locally-endorsed recommendations to the FAA regarding noise reduction measures
- 14 CFR Part 150 studies are voluntary
- 14 CFR Part 150 studies must adhere to 14 CFR Part 150 guidelines to be accepted and approved by FAA

FLL's Part 150 Efforts Span 3 Decades

1

Overview of 14 CFR Part 150

Key Issues for this Part 150 Study

- Operational Concerns
 - Opening of New Runway
 - Change in Operation of North Runway
 - Potential Changes Related to NextGen/Metroplex
- Ongoing Residential Sound Insulation Program
- Community Education
- Expectation Management

Overview of 14 CFR Part 150

Overview of 14 CFR Part 150

- Table 1 in Appendix A of 14 CFR Part 150 provides noise and land use compatibility guidelines
- Deems levels below 65 dB DNL to be compatible with all land uses
- Allows for the adoption of appropriate local land use standards for land use compatibility planning purposes

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

Land Use	Yearly Day-Night Noise Level (DNL) in decibels

Amusements, parks, resorts and camps	Y	Y	Y	N	N	N
Golf courses, riding stables and water recreation	Y	Y	25	30	N	N

Numbers in parentheses refer to notes.

* The designations contained in this table do not constitute a Federal determination that any use of land covered by the program is acceptable or unacceptable under Federal, State or local law. The responsibility for determining the acceptability of particular land uses and the relationship between specific properties and specific noise contours rests with the local authorities. FAA determinations under Part 150 are not intended to supersede locally determined land uses for those determined to be appropriate by local authorities in response to locally determined needs and values in achieving noise compatible land uses.

Key to Table 1

SLU/M Standard Land Use Coding Manual.

Y/N/A(1) Land use and related structures compatible without restrictions.

N/A(1) Land use and related structures are not compatible and should be prohibited.

N/R Noise Level Reduction (outdoor to indoor) to be achieved through incorporation of noise attenuation into the design and construction of the structure.

25, 30 or 35 Land use and related structures generally compatible; measures to achieve NLR of 25, 30 or 35 dB must be incorporated into design and construction of structure.

Notes:

(1) Where the community determines that residential or school uses must be allowed, measures to achieve outdoor to indoor Noise Level Reduction (NLR) of at least 25 dB to 30 dB should be incorporated into building codes and be considered in individual approvals. Normal residential construction can be expected to provide a NLR of 20 dB; thus, the reduction requirements are often stated as 5, 10 or 15 dB over standard construction and normally assume mechanical ventilation and closed windows year round. However, the use of NLR criteria will not eliminate outdoor noise problems.

(2) Measures to achieve NLR of 25 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.

(3) Measures to achieve NLR of 30 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.

(4) Measures to achieve NLR of 35 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.

(5) Land use compatible provided that special sound reinforcement systems are installed.

(6) Residential buildings require an NLR of 25.

(7) Residential buildings require an NLR of 30.

(8) Residential buildings not permitted.

Overview of 14 CFR Part 150

Regulatory Framework

- **Federal law** sets aircraft noise standards, prescribes operating rules, establishes the compatibility planning process, and limits airport proprietor's ability to restrict aircraft operations.
- **State law** sets forth compatibility planning guidelines and noise standards but aircraft are exempt.
- **Local noise ordinances** set noise standards and provide for compatible land use planning but aircraft are exempt.

Who Can Regulate Airport Noise?

- **Federal Aviation Administration:** (1) Controls aircraft while in flight; (2) Responsible for controlling noise at its source (i.e., aircraft engines); (3) Certifies aircraft and pilots.
- **Airport Proprietors/BCAD:** (1) Very limited authority to adopt local restrictions; (2) Responsible for capital improvement projects and infrastructure.
- **Local Governments and States:** (1) Promote compatible land use through zoning; (2) Require real estate disclosure; (3) Mandate sound-insulating building materials.

FEDERAL LAW PREEMPTS STATE AND LOCAL REGULATIONS

Overview of 14 CFR Part 150

Noise Exposure Map Report (NEM)

- Develop a comprehensive database of current conditions
- Noise contour development and impact analysis
- Prepare and submit Noise Exposure Map (NEM) Report

Noise Compatibility Program (NCP)

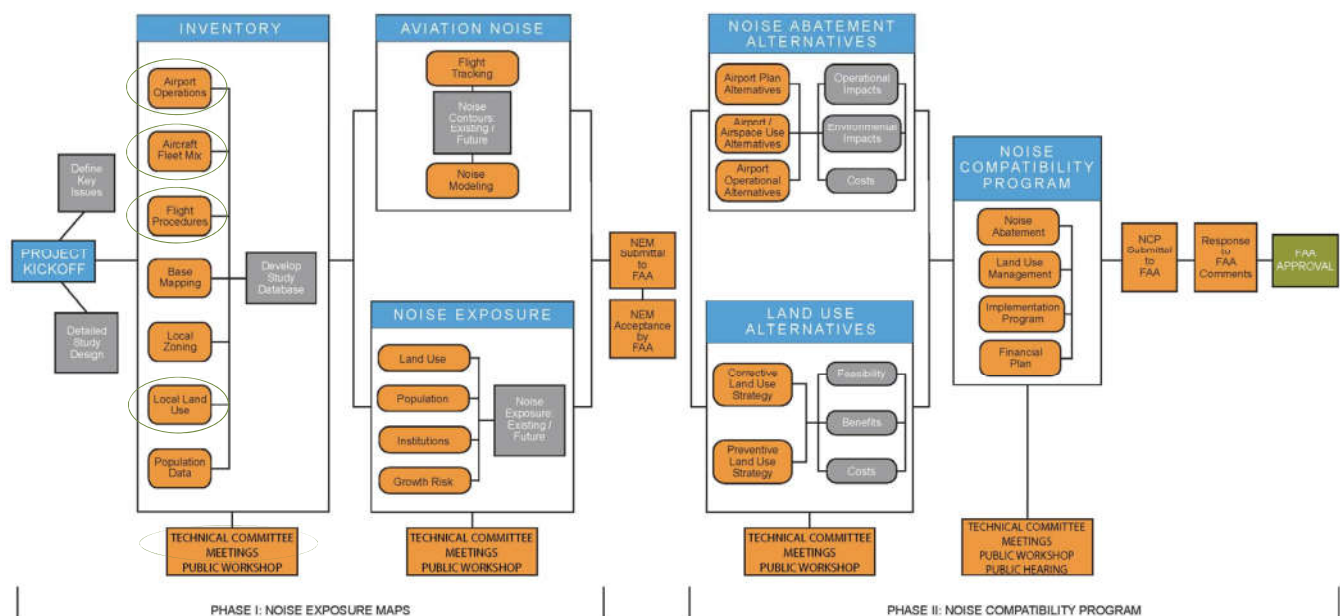

- Identify and evaluate noise abatement alternatives
- Identify and evaluate compatible land use alternatives
- Identify and evaluate administrative measures
- Prepare and submit Noise Compatibility Program (NCP) Report

Stakeholder Outreach Program

- Local Jurisdictions/Agencies
- FAA
- Public

Overview of 14 CFR Part 150 – General Study Process

Other Milestones:

- BCAD Initiation of a Study Coordination Committee in Fall 2016
- **069** FAA Approval of the FLL Part 150 Study Forecast on April 10, 2017
- Website launched on May 3, 2017

14 CFR Part 150 Terminology

- **Noise Exposure Contours** - A noise exposure contour identifies areas of equal noise exposure around an airport. Noise exposure contours are similar to contours on topographic maps which show areas of equal elevation.
- **Noise Exposure Maps** - A noise exposure map is a map showing noise exposure contour lines (or footprints) which identify areas of specific noise levels around an airport. NEMs also include a graphic depiction of geographical features and land uses that surround an airport.
- **Noise Compatibility Programs** - A noise compatibility program report includes descriptions and a detailed evaluation of noise abatement and noise mitigation options applicable to an airport.
- **Noise Abatement Measures** - These measures are intended to reduce actual aircraft noise levels in noise-sensitive areas by either reducing aircraft noise at the source by using quieter aircraft, shielding noise sensitive areas, or by instituting operational measures, such as changes in aircraft flight tracks or in approach or departure flight profiles.
- **Noise Mitigation Measures** - These measures are intended to reduce the effects of aircraft noise on the receiver. Noise mitigation strategies may include outright property acquisition, acoustical treatment/ soundproofing programs, purchase of aviation easements, and land use control measures.

Day-Night Average Sound Level

- 24-hour time weighted energy average noise level based on A-weighted decibels (dBA)
- Noise occurring between 10 p.m. to 7 a.m. is penalized by 10 dB to account for the higher sensitivity to noise during nighttime hours and for the expected further decrease in background levels that typically occur in the nighttime
- FAA requires the use of DNL for airport noise assessments
- Average Annual Day aircraft noise exposure is calculated over a broad area and then depicted using contour lines of equal noise levels

Understanding Aircraft Sound Levels

IDENTICAL DNL LEVELS

1 Event/Day SEL 114.4 dBA = DNL 65

10 Events/Day SEL 104.4 dBA = DNL 65

100 Events/Day SEL 94.4 dBA = DNL 65

DNL Noise Contour Example

Land Uses

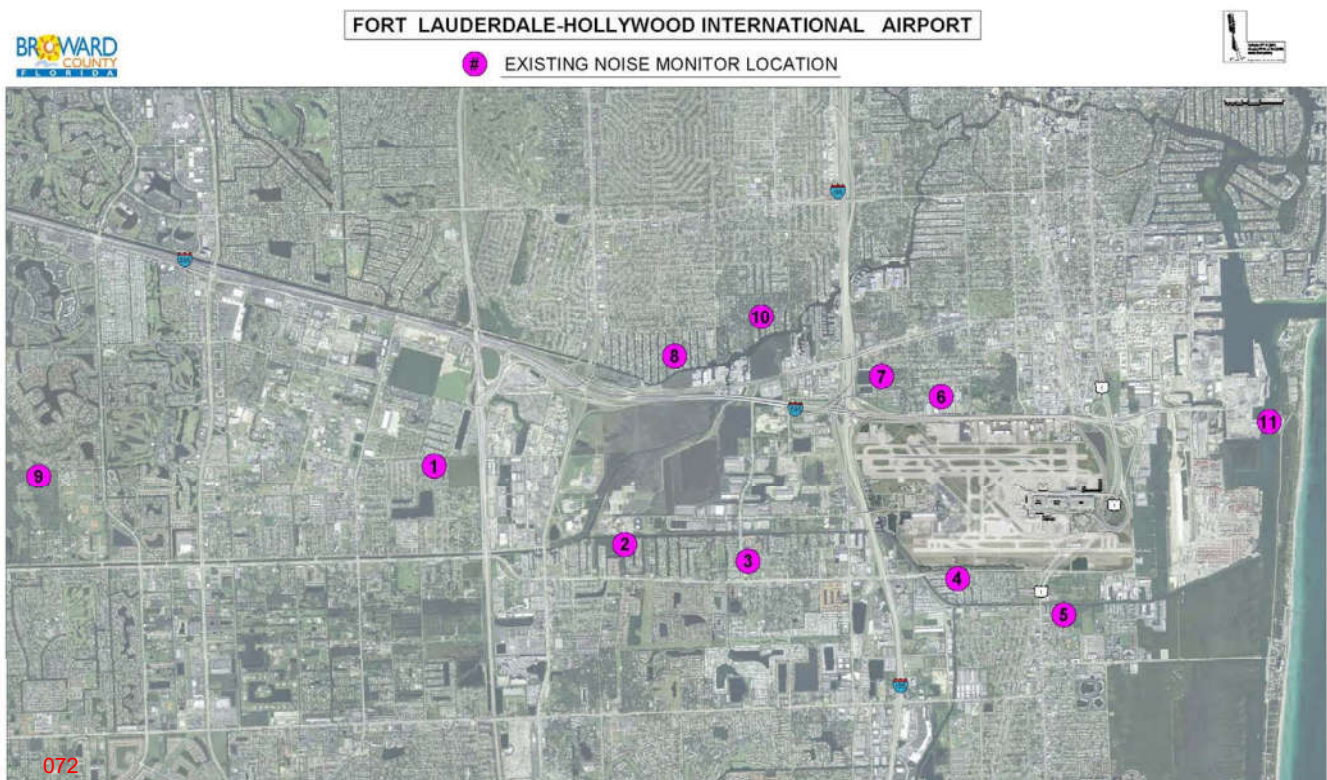

- Existing and Future Land Use
- Land parcel data
- Zoning
- Jurisdictional boundaries and neighborhoods

Noise Sensitive Uses

- Residential
- Places of worship
- Schools, colleges, and universities
- Libraries/cultural institutions
- Hospitals and residential healthcare facilities
- Daycare and assisted living facilities
- Historic properties

Noise Monitoring Sites/Limitations

Public Outreach

- Initial Coordination with Nearby Jurisdictions
 - 8 meetings to present project and solicit TC members
- Initial Kickoff Public Workshops
 - 5 informal workshops over 5 consecutive days
- NEM Public Workshop
 - Single large venue informal workshop
- Newsletters (6)
- NCP Public Workshop/Hearing
 - Single large venue informal workshop followed by formal hearing

Purpose and Objectives of the Technical Committee

- TC members represent the interests of their organization and/or constituents
- The TC's role is to support the FLL Part 150 Study
 - Review study assumptions
 - Provide technical feedback within the context of the Part 150 Study (noise exposure maps and noise compatibility program)
 - TC members are encouraged to express their opinions and expected to respect the range of opinions expressed by their fellow TC members
- TC members are also expected to advise their organization and/or constituents of the TC's discussions
- BCAD will respect and consider the TC's technical input, but retains responsibility for, and decision making authority on, the FLL Part 150 Study
- TC meetings will be open to the public, subject to space availability

FLL Overview

FLL Overview

- FLL is 21st in the U.S. in total passenger traffic and 13th in domestic origin and destination passengers
- Each day an average of 80,000 travelers pass through FLL
- The new South Runway opened in September 2014
- Nonstop flights to over 100 U.S. and international cities
- 139,920 total jobs (direct, indirect, and induced)

Data Collection - 2016 Operational Information

Annual Aircraft Operations

Date	Air Carrier	Air Taxi	General Aviation	Military	Total
January 2016	19,945	2,849	3,377	39	26,210
February 2016	19,026	2,711	3,188	49	24,974

Mr. William Castillo
Airport Planning Manager
Broward County Aviation Department
2200 SW 45th Street, Suite 101
Dania Beach, Florida 33312

Dear Mr. Castillo:

RE: Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL
Approval of Forecast for use in the 14 CFR Part 150 Study

This letter responds to your request for approval to use the Accelerated Baseline Forecasts for the purposes of the 14 Code of Federal Regulations (CFR) Part 150 Study for the Fort Lauderdale-Hollywood International Airport (FLL).

On January 13, 2017, the Federal Aviation Administration (FAA) approved the Baseline Forecast for FLL and accepted the Accelerated Baseline Forecast prepared in the Master Plan Update for sensitivity purposes and for the purpose of establishing facility requirements.

The FAA notes that the Accelerated Baseline Forecast varies less than 10 percent in the 5 year period and 15 percent in the 10 year period from the FAA's 2016 Terminal Area Forecast (TAF) published in January, 2017.

The FAA has determined that the Accelerated Baseline Forecast is consistent with the FAA's most recent TAF for FLL, and therefore, we approve the use of the Accelerated Baseline Forecast for the ongoing FLL Part 150 Study.

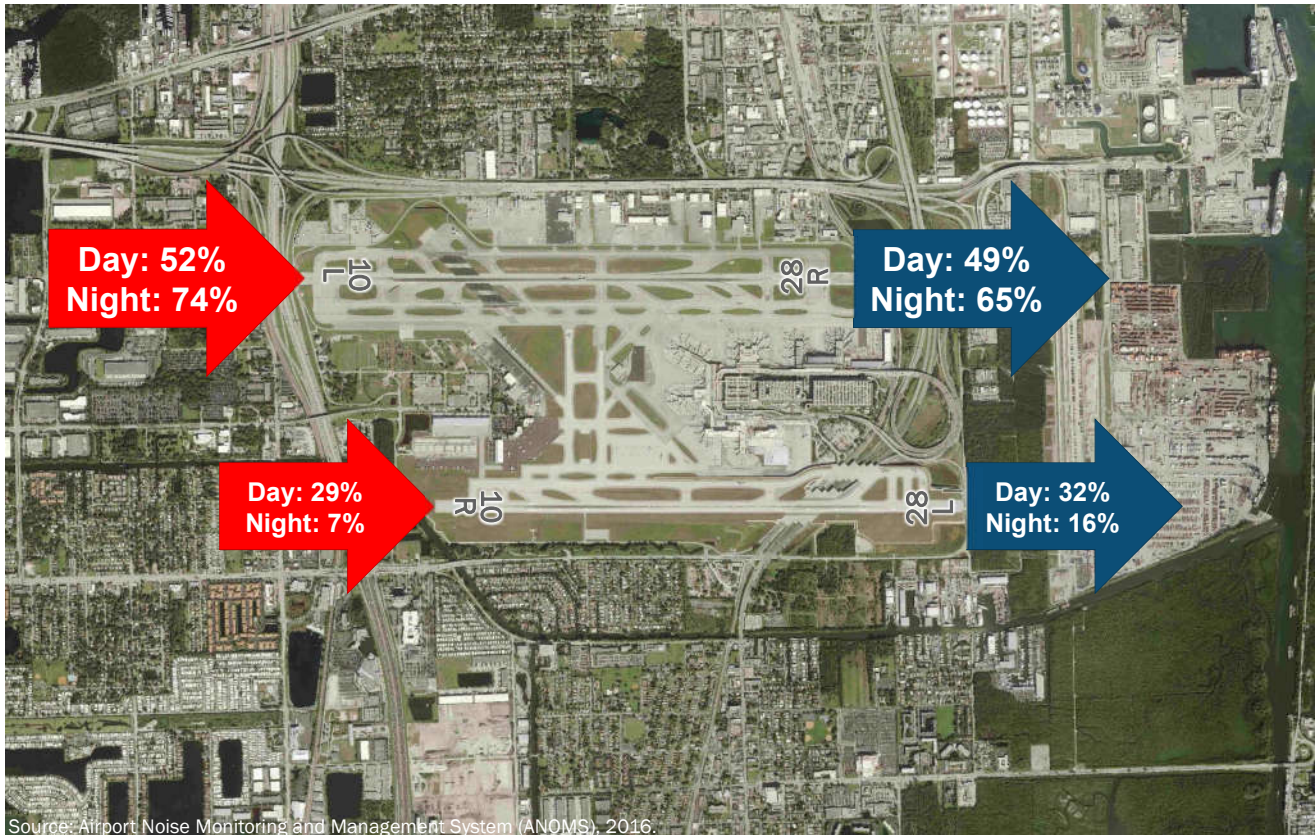

If you have any questions, please feel free to contact me at (407) 812-6331, ext. 130.

Sincerely,

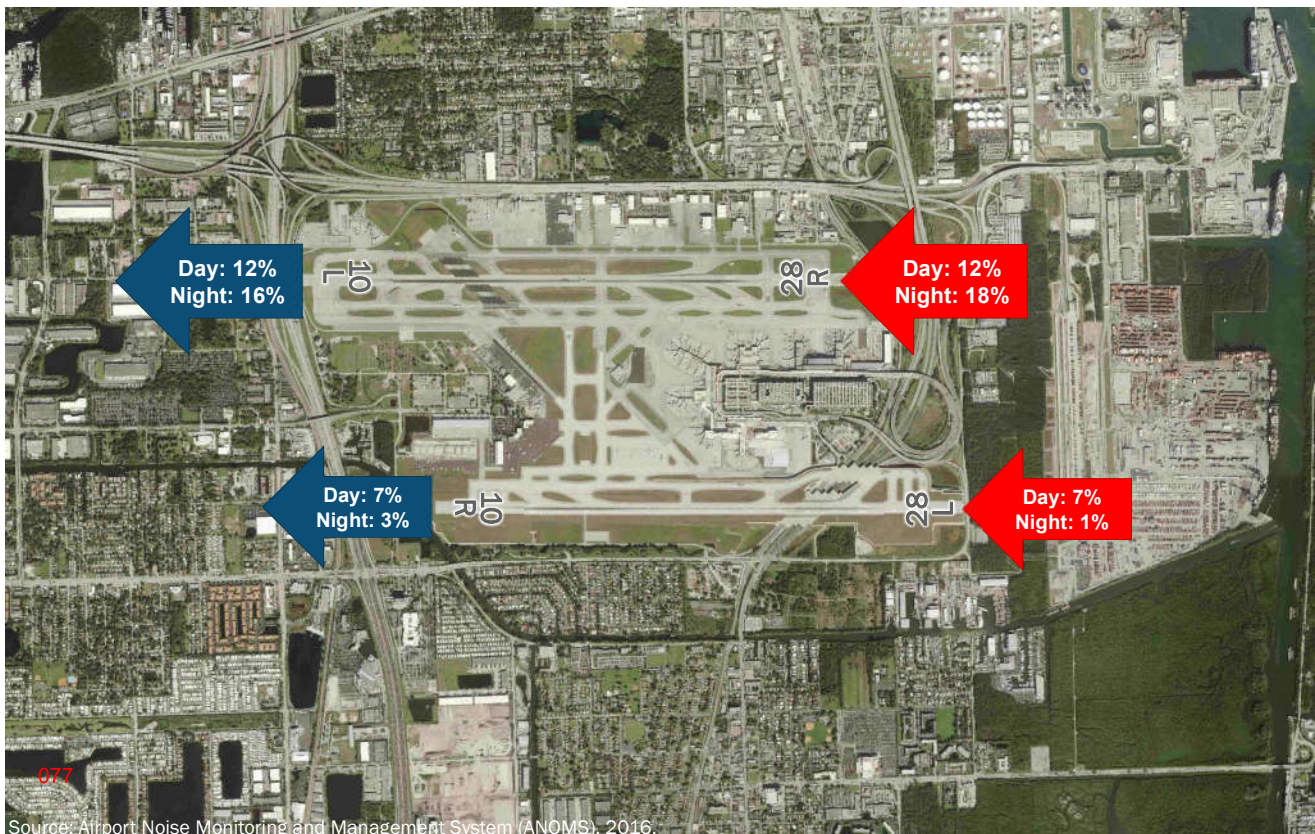

Allan M. Nagy
FAA Orlando ADO Environmental Program Specialist

Part 150 Study Overview – Modeling

Noise Modeling

- Aircraft noise modeling allows:
 - Calculation of noise exposure at any point
 - Depicting annual average aircraft noise exposure
 - Predicting future aircraft noise exposure
 - Assessing changes in noise impacts resulting from runway configuration changes or new runways
 - Assessing changes in fleet mix and/or number of operations
 - Evaluating operational procedures
- Aviation Environmental Design Tool (AEDT) replaced the Integrated Noise Model (INM) when it was released in 2015. The current version, AEDT 2C, will be used for the FLL Part 150 Study.

Model Inputs

- The Amount of Noise Exposure is determined by:
 - Aircraft types
 - Stage length
 - Number of average annual day operations
 - Nighttime weighting (1 nighttime operation = 10 daytime operations)
- The Noise Exposure Distribution is determined by:
 - Runway configuration and use
 - Flight track locations
 - Flight track use
- Other Factors
 - Meteorological Conditions
 - Terrain

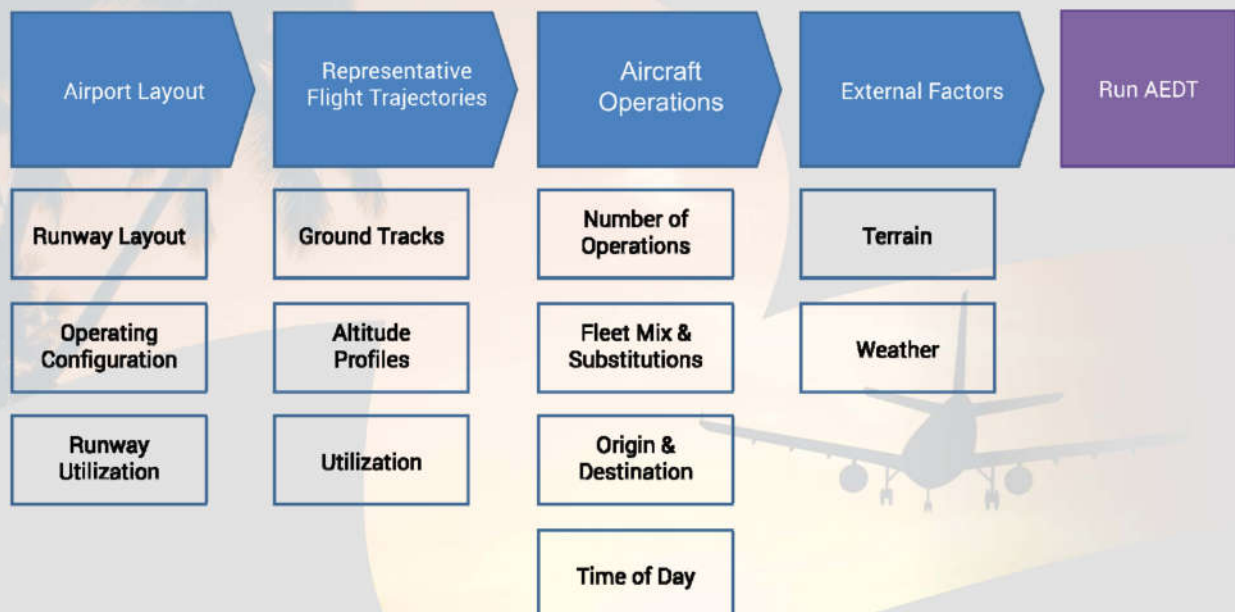

Aviation Environmental Design Tool (AEDT) Version 2C

AEDT Model Inputs

AEDT Inputs

Existing Noise Program Overview

- Aircraft Noise and Operations Monitoring System (ANOMS)
- Residential Sound Insulation Program
- Airport Noise Abatement Committee (ANAC)

- Helicopter Flight Corridors

Part 150 Overview - FAQs

Frequently Asked Questions

- Will the study “fix” all the noise issues around the airport?
 - No, overflights of residential areas are unavoidable and sensitivity to noise varies by person
- What type of noise monitoring will be conducted as part of the study?
 - None, all analysis is modeling based which allows consistency, prediction of noise levels where there are no monitors and evaluation of future conditions
- Will the Study address concerns about safety, soot, or other concerns related to aircraft operation?
 - The Part 150 process focuses exclusively on noise and land use compatibility

Additional Frequently Asked Questions are available on
www.flpart150.com/faq

Concerns that we’ve heard so far:

- Early morning low altitude overflights
- Changes in north runway flight paths
- Nighttime use of south runway
- Low altitude of overflights
- High frequency of overflights
- Overflight impacts on horses

Thank You for Your Participation!

Appendix I-2

Draft NEM Report Public Information Workshop

This appendix includes documentation of the Noise Exposure Map Public Information Workshop for the Fort Lauderdale-Hollywood International Airport Part 150 Study. Documentation for the workshop includes copies of meeting notices, sign-in sheets, and materials presented.

Noise Exposure Map Public Information Workshop

Meeting Notice and

Sign-In Sheets

(January 16, 2019)

Notice of Draft Noise Exposure Maps and Notice of Public Information Workshop

Title 14 Code of Federal Regulation Part 150 Airport Noise Compatibility Planning Study

Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) is preparing a noise compatibility study for Broward County's Fort Lauderdale-Hollywood International Airport (FLL) in accordance with the provisions and methods prescribed in Title 14 Code of Federal Regulations Part 150, *Airport Noise Compatibility Planning*. As required by 14 CFR Part 150, BCAD has prepared Draft Noise Exposure Maps (NEMs) that depict the airport, its noise contours, and surrounding land uses. BCAD is making the Draft NEMs and supporting documentation available for public review and comment. After review and consideration of comments, BCAD will submit the NEMs to the Federal Aviation Administration for the agency's determination that the maps comply with applicable requirements.

Printed copies of the NEMs and NEM Report will be available for review during normal hours at the locations listed below. In addition, the NEMs and NEM Report are available for download from the project website at: <http://www.fllpart150.com/resources/>.

- **Broward County Aviation Department Administration Office:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312.
- **Dania Beach-Paul DeMaio Library:** 1 Park Avenue East, Dania Beach, Florida 33004
- **West Regional Library:** 8601 W Broward Boulevard, Plantation, Florida 33324
- **Davie/Cooper City Branch Library:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Southwest Regional Library:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Riverland Branch Library:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

The comment period begins December 16, 2018 and ends on January 23, 2019 (5:00 PM Eastern). The Draft NEM Report will be available at the above locations until the close of the comment period. Anyone wishing to submit comments may do so at any time during the comment period. Comments on the Draft NEMs should be mailed to: Broward County Aviation Department, Attn: Noise Office – FLL Part 150 Study, 2200 SW 45th Street, Suite 101, Dania Beach, Florida 33312. Comments may also be submitted online at <http://www.fllpart150.com/comments/>.

Public Information Workshop

BCAD invites you to attend a Public Information Workshop to learn about the NEMs, discuss the NEMs with representatives of BCAD and their consultants, and provide comments. This workshop also gives you the opportunity to share your ideas for addressing aircraft noise around FLL. The workshop will include displays and information related to the Part 150 Study process, the NEMs, project schedule, and the next phase of the Study (which is the Noise Compatibility Program). The Public Information Workshop details are provided below.

DATE: Wednesday, January 16, 2019
TIME: 6:00PM - 8:30PM
LOCATION: Signature Grand, 6900 FL-84 Davie, Florida 33317

The Public Information Workshop will be conducted in an “open house” format. No formal presentation will be given during the workshop. This workshop format provides attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns with BCAD. You may attend at any time during the workshop. Comment forms will be available at the workshop for those that wish to submit comments in writing and a court reporter will be available for those that wish to submit comments verbally.

Please note that comments can only be accepted with the full name and address of the individual commenting. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment, including your personal identifying information, may be made publicly available at any time. While you may ask to have your personal identifying information withheld from public review, it cannot be guaranteed.

BCAD encourages all interested parties to monitor the project website for the latest study information and announcements at www.flpart150.com.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact **1-800-974-2703** as soon as possible, but no later than three days prior to the scheduled meeting.

CONSUMIDOR

Guía de regalos: Este presente es gratis y muy útil

Yvonne H. Valdez EL SENTINEL

Se acerca la Navidad y no sabes qué regalar. ¿Qué tal una idea de regalo navideño que sea gratis, pueda ayudar a ahorrar dinero y demuestre lo mucho que te importan las personas especiales en tu vida?

La Car Care Guide (Guía de Cuidado del Auto) de 80 páginas del Car Care Council es un excelente regalo para rellenar la bolsa navideña de cualquier conductor en tu lista de compras navideñas.

"Nuestra popular Car Care Guide es un regalo muy detallista que demuestra a los conductores en tu lista que te preocupa su seguridad", dijo Rich White, director ejecutivo del Car Care Council. "La guía cabe perfectamente en cualquier guantero, es una referencia valiosa y está disponible gratis en www.car-care.org."

La Car Care Guide ofrece consejos útiles para el mantenimiento del vehículo y el ahorro de combustible, para ayudar a cualquier conductor a 'estar atento al cuidado de su auto' y ahorrar dinero en el nuevo año y el futuro."

Disponible en inglés y español, la Car Care Guide incluye información en un lenguaje sencillo. Copias impresas de la guía están disponibles sin costo alguno en carcare.org/car-care-guide.

El Car Care Council, una organización sin fines de lucro, recomienda además otros regalos económicos relacionados con la seguridad del vehículo, tales como medidores de presión de neumáticos, raspadores de hielo, kits de emergencia y limpiaparabrisas.

"Estos artículos pequeños y relativamente baratos pueden jugar un papel importante en la seguridad y confiabilidad del vehículo, especialmente cuando se trata de conducir en invierno, cuando las condiciones de la carretera pueden ser peligrosas e impredecibles", dijo White.

CONCIERTOS

Yandel (izq.) y Wisin a fines de octubre en el Latin American Music Awards 2018 en el Dolby Theatre en Hollywood, California.

Wisin y Yandel vienen a Miami

Entradas a la venta

Yvonne H. Valdez EL SENTINEL

Los puertorriqueños Wisin y Yandel vienen al American Airlines Arena en Miami y las entradas están a la venta desde esta semana.

El icónico dúo icónico de la música latina, Wisin y Yandel, anunciaron esta semana su primera gira por Estados Unidos desde su separación temporal de cinco años con la gira *Como Antes Tour 2019*.

Co-producida por Live Nation y CMGN, la gira por 15 ciudades comenzará el 23 de mayo en Phoenix, Arizona y tendrá paradas en Miami, Chicago, Houston, Los Angeles y más ciudades, antes de concluir el 23 de junio en Orlando.

Los boletos saldrán a la venta al público en general a partir del viernes 14 de diciembre a las 10 a.m. hora local en Ticketmaster.com.

Wisin y Yandel también anunciaron recientemente el lanzamiento de su primer álbum en cinco años, *Los Campeones del Pueblo/The Big Leagues*. Este es su décimo álbum de estudio y el primero que graban juntos desde el multipremiado álbum *Líderes* (lanzado el 3 de julio de 2012). El nuevo álbum será lanzado el 14 de diciembre y está ya disponible en pre-venta en todas las plataformas digitales.

El dúo recientemente también concluyó 8 presentaciones completamente agotadas en el prestigioso Coliseo de Puerto Rico el 30 de noviembre imponiendo un nuevo record por la mayor cantidad de conciertos consecutivos en el recinto, así como la mayor cantidad de presentaciones de cualquier artista en el lugar, llegando a un gran total de 25, informan sus representantes.

Yandel y Wisin son dos aclamados artistas que han cosechado

innumerables éxitos en sus carreras como solistas, sin embargo, en su faceta como dúo dentro de la música latina ambos han disfrutado de un gran éxito, convirtiéndose en dos de los artistas urbanos latinos con mayores ventas en todo el mundo, gracias a su concepto único dentro de la música urbana latina, una fusión de géneros y particular estilo.

Durante su carrera de más de 14 años como dúo, han recibido numerosas certificaciones Multi-Platino en Estados Unidos y Latinoamérica y docenas de prestigiosos premios incluyendo un Grammy y dos Latin Grammys, así como 10 sencillos #1 en el listado Billboard Latin Airplay.

En sus giras, Wisin y Yandel han demostrado ser una fuerza implacable, convirtiéndose en los únicos artistas en el género de Música Urbana Latina en llenar tanto el Staples Center como el Madison Square Garden.

SUNRISE

Michelle Obama llega al BB&T Center

Ben Crandell EL SENTINEL

La ex primera dama Michelle Obama traerá la gira en la que promociona su nuevo libro "Becoming" al BB&T Center en Sunrise el 10 de mayo.

Los boletos están programados para salir a la venta el sábado 15 de diciembre a las 10 a.m. en Becoming-MichelleObama.com. Los precios van de \$29.50 a \$179.50.

Y el viernes 14, desde las 10 a.m., se realizará una pre-venta para los fans que se registren en la plataforma de fans de Ticketmaster Verified-Fan. Ticketmaster.com/MichelleObama2019. Quienes se registren recibirán un código que les permitirá comprar boletos el viernes entre las 10 a.m. y las 10 p.m.

También estará disponible un número limitado de paquetes VIP para conocerla y saludarla.

La aparición de Obama en el BB&T Center es una de las 21 paradas en la gira por Estados Unidos, Canadá y Europa, que tendrá lugar entre febrero y mayo de 2019. La aparición de Sunrise es la única parada en Florida.

Desde su lanzamiento el 13 de noviembre, la edición de tapa dura de "Becoming" (Crown Publishing) ha vendido más copias que cualquier otro libro publicado en Estados Unidos en 2018. También es el número 1 en ventas en otros 11 países.

Para obtener más información, visita Becoming-MichelleObama.com.

PABLO MARTINEZ MONSIVIS/AP La ex primera dama Michelle Obama.

Aviso de Propuesta de Proyecto y Aviso de Taller de Información Pública

Estudio de Planeación de Compatibilidad de Ruido de Aeropuerto Sección 150, Título 14 del Código de Regulaciones Federales

Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL)

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) está preparando un estudio de compatibilidad del ruido para el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL) de acuerdo con las disposiciones y métodos establecidos en el Título 14, Sección 150 del Código Federal de Regulaciones, *Planeación de la Compatibilidad del Ruido Aeroportuario*. Y de acuerdo a esta misma legislación, BCAD ha elaborado los Mapas de Exposición al Sonido (NEMs por sus siglas en inglés) que muestran el aeropuerto con contornos de ruido y el uso de los terrenos aledaños. BCAD pone a disposición del público en general los mapas propuestos junto con todos los documentos necesarios de soporte, para su revisión y comentarios. Después de revisar y considerar dichos comentarios, BCAD enviará los mapas a la Administración Federal de Aviación (FAA por sus siglas en inglés), para que la FAA concluya si los mapas cumplen con los requerimientos vigentes.

Las copias y los reportes de los mapas estarán disponibles para revisión a partir del 16 de diciembre de 2018, en horarios normales de trabajo y en los lugares que se indican a continuación.

Adicionalmente, tanto los mapas con el reporte pueden descargarse accediendo a la página web del proyecto: <http://www.fllpart150.com/resources/>.

- **Broward County Aviation Department Administration Office:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312.
- **Dania Beach-Paul DeMalo Library:** 1 Park Avenue East, Dania Beach, Florida 33004
- **West Regional Library:** 8601 W Broward Boulevard, Plantation, Florida 33324

- **Davie/Cooper City Branch Library:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Southwest Regional Library:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Riverland Branch Library:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

El periodo para recibir comentarios comenzará el 16 de diciembre de 2018 y terminará el 23 de enero de 2019 a las 5:00 PM (horario del Este de los EE. UU.). El reporte de anteproyecto de NEM estará disponible en los lugares arriba mencionados durante el mismo periodo. Cualquier persona que lo desee podrá enviar sus comentarios en cualquier momento durante ese periodo. Los comentarios deberán enviarse por escrito a: Broward County Aviation Department, Attn: Noise Office – FLL Part 150 Study, 2200 SW 45th Street, Suite 101, Dania Beach, Florida 33312. Los comentarios también se recibirán en línea en la siguiente página web: <http://www.fllpart150.com/comments/>.

Taller de Información al Público

El Departamento de Aviación de Broward County le invita a asistir al Taller de Información al Público para obtener información acerca de los NEMs, hacer comentarios y preguntas a los representantes de BCAD y sus consultores. Este taller también es una oportunidad para compartir sus ideas e inquietudes acerca del ruido aeroportuario en los alrededores de FLL. El taller incluye materiales visuales e información relacionada al proceso de estudio de la Sección 150, los mapas (NEMs) y el cronograma del proyecto, así como la siguiente fase del estudio (Programa de Compatibilidad del Ruido). Más información sobre este taller público se muestra a continuación:

FECHA: Miércoles 16 de enero de 2019

HORA: 6:00PM - 8:30PM

LUGAR: Signature Grand, 6900 FL-84 Davie, Florida 33317

El taller tendrá un formato de "open house" y no se llevará a cabo una presentación formal. El taller brindará a las personas presente la oportunidad de una interacción personal donde se va a poder compartir información e inquietudes sobre el tema con representantes de BCAD. Usted puede asistir en cualquier momento el taller de 6 a 8:30 pm. Usted podrá escribir sus comentarios y también contaremos con la presencia de un reportero judicial para aquellas personas que prefieran aportar sus comentarios en forma verbal.

Por favor, tome en cuenta que los comentarios solo podrán ser aceptados si usted incluye su nombre completo y su dirección actual. Antes de incluir su dirección, número de teléfono, dirección de e-mail, o cualquier otra información personal en sus comentarios, por favor tome en cuenta también que dicha información podría hacerse pública en cualquier momento. Usted puede solicitar que su información personal sea inaccesible a la revisión pública, pero esta inaccesibilidad no se puede garantizar. Para obtener información actualizada sobre los estudios relacionados a este proyecto, BCAD invita a todos los interesados a monitorear la página del proyecto www.fllpart150.com.

Cualquier persona que necesite acomodaciones especiales de acuerdo con la Ley de Americanos Discapacitados de 1990, o cualquier persona que tenga preguntas deberá llamar al **1-800-974-2703** lo antes posible y hasta tres días antes de que comience el taller.

FBI

Continued from Page 1A

concerns, answered questions and laid out steps the FBI has taken to prevent the same mistakes from happening again.

"They were apologetic at times," said Tony Montalto, whose 14-year-old daughter Gina was killed. "But there's an open wound for all of us."

Some of the 10 families that attended the meeting were upset the FBI has been reluctant to share information with Congressional and Florida investigative committees. Some were upset the bureau had ignored their request to meet for so long. One family in attendance filed a negligence lawsuit against the FBI in November.

All were enraged about one of the biggest blunders leading up to the tragedy, a detailed tip to the FBI about shooter Nikolas Cruz on Jan. 5 that was discarded.

Bowdich told the families that he "was appalled" the first time he listened to a tape of the Jan. 5 tip, made to the FBI's national call center in West Virginia. The anonymous, 14-minute call warned that Cruz was "about to explode" and could go into a school and "start shooting it up." That tip was not forwarded to the FBI's South Florida field office for further investigation, not even after Cruz's name was linked to an earlier tip. In Sept. 2017, the FBI was alerted to a comment a YouTube user named "nikolas cruz" posted to a video, saying that he was "going to be a professional school shooter."

"[Bowdich] said, 'No excuses,' and he said he was sorry that it wasn't handled properly," said Gena Hoyer, whose 15-year-old son Luke was killed. "This was a hard meeting, but it was also a different kind of meeting for us. We showed up, and they took responsibility. The FBI admitted wrongdoing, and they did apologize."

And for the first time, the agency divulged the punishment doled out to two employees at the call center who botched the tip 40 days

FBI Deputy Director David Bowdich testifies before the Senate Judiciary Committee on March 14 during a hearing about the massacre at Marjory Stoneman Douglas High School.

before the shooting. The worker who took the call "no longer works for the agency," families were told, and the supervising agent who did not forward the tip to South Florida agents was "severely disciplined."

When relatives pressed Bowdich what that meant, the group was told he could have been demoted or suspended without pay.

"They weren't specific, they just gave a list of things," said Debbi Hixson, wife of slain athletic director Chris Hixson.

Bowdich also detailed changes that have been made. Besides hiring more workers and supervisors for the call center, which averages more than 3,500 tips daily, new protocol mandates supervisors listen to tapes of calls that involve potential loss of life.

"The supervisor never listened to the call," Hoyer said.

Said Fred Guttenberg, whose 14-year-old daughter Jaime was killed: "They failed terribly. They had the most specific, detailed, credible intelligence before that day and they did not act on it. There was a lot of remorse [at the meeting], but the reality is they failed."

The South Florida Sun

Sentinel interviewed relatives from six of 10 families who attended the meeting. A FBI spokesman in Miramar referred questions about the meeting to the bureau's national press office in Washington. In a statement sent Saturday, the FBI said, "The FBI deputy director met with the Parkland victim families on Dec. 8 to advise them of new procedures and improvements [with the Public Access Line] ... Additional mandatory training has been implemented, including specific guidance for handling threats to life and school violence. ... The FBI will continue to review its processes and procedures for receiving and evaluating tip information to ensure the information is effectively and efficiently handled."

"It doesn't bring my son back, or any of the other 16 victims back, but I appreciated [the meeting]," said Linda Beigel Schulman, mother of slain geography teacher Scott Beigel. "You could tell Bowdich has been living and breathing this since the shooting. He was empathetic and human, not like a bureaucrat." She said the families sat in two rows in a semicircle around Bowdich, with FBI agents

and staffers sitting in back. She said when Bowdich didn't know the answer to a question, he'd direct a staffer to find the information.

"They admitted they made mistakes, and they were human mistakes, not malicious," Hixson said. "But they told us a lot of things that were already known. I really don't know what the purpose was, other than for them to clear their conscience."

Hixson said she was upset because her invitation to the meeting was her first contact with the FBI since the night of the shooting. She was not contacted for the Feb. 16 conference call that alerted the families that the FBI had received tips about Cruz and failed to act on them. When that call came, Guttenberg said he was at a funeral home selecting a casket for his daughter, Jaime.

The FBI went public with the information later that day, with a statement from Wray saying, "We have spoken with victims and families, and deeply regret the additional pain this causes."

Hixson said the FBI's slights continued at the meeting when Bowdich

kept referring to "parents and kids." "I had to interrupt and say I'm a wife and my husband was an adult," Hixson said. "People forget that teachers and coaches lost their lives, too."

The FBI went silent with families after the Feb. 16 conference call. FBI officials have given testimony at Congressional hearings looking into the failure throughout the year, and the transcript of the botched Jan. 5 call was obtained by several media outlets including the South Florida Sun Sentinel in late February. Many parents could not bear to read it.

Gena Hoyer did, and she brought a printout of the transcript to the meeting. She said she pressed Bowdich on some of the tipster's more damning details, including the death of Cruz's mother, his proclivity to torture animals, gun ownership and disturbing social media posts.

Montalto, who heads Stand With Parkland, a victims' family group, wrote the FBI requesting a meeting in June. In July, Max Schachter briefly met FBI Director Wray at a security conference in Hollywood. Schachter, whose son Alex was killed in the shooting, sits on the state commission investigating the massacre.

In November, Fred Guttenberg's family filed a federal civil suit against the FBI claiming negligence. Other suits against the FBI are in the works, including from April and Phil Schentrup, parents of murdered 16-year-old honors student Carmen Schentrup.

Relatives say Schachter worked behind the scenes to keep pressing for the meeting. In early December, the email invitations went out. Only immediate relatives were allowed. No friends, no lawyers. The lone exception made was for the parents of Peter Wang, who don't speak English. They were allowed to bring a Mandarin-speaking interpreter.

Why now? Montalto and other relatives say the FBI acts at its own deliberate pace, and that the agency wanted to conclude its internal investigation and make

sure it had all the facts before meeting. Beigel Schulman said Bowdich allowed relatives to interrupt with questions during his presentation, and that he stuck around to speak with families one-on-one afterward.

"I expected more of a whitewashing so I was satisfied," said Beigel Schulman, who flew in from New York with her husband, Michael. "I can't use the word happy, because none of us are happy anymore."

Some families did not attend the meeting. Andrew Pollack, whose 18-year-old daughter Meadow was killed, said, "What's the point? It's just hearing from more people who failed. I want accountability. Unless they brought the woman who took that call and the supervisor to apologize and explain to us what happened, it's meaningless."

Manuel Oliver, whose 17-year-old son Joaquin was killed, said, "The FBI meeting and all these things where everybody gets together, it's bulls—. It's more of the same and another one of those traditions we want to break. I'm not playing that game. Unless we're talking about gun safety and how we're going to change this country's gun culture, I'm not interested."

Lori Alhadeff, elected to the Broward School Board this year after the death of her daughter Alyssa, also skipped the meeting.

"The trauma is very painful to relive, and unfortunately the outcome is still the same," Alhadeff said. She said she prefers to focus on the future and is working on changes that can make schools safer.

And, Alhadeff said, she is still stung by the way an FBI agent notified her of her daughter's death, at 2:30 a.m., 12 hours after the shooting in a hotel conference room. "First they only wanted to talk to my husband and not me," Alhadeff said. "And then they told me that my daughter's face was shot off. That was a lie. It was not true ... I think it's important they learn from their mistakes."

Notice of Draft Noise Exposure Maps and Notice of Public Information Workshop Title 14 Code of Federal Regulation Part 150 Airport Noise Compatibility Planning Study Fort Lauderdale-Hollywood International Airport

The Broward County Aviation Department (BCAD) is preparing a noise compatibility study for Broward County's Fort Lauderdale-Hollywood International Airport (FLL) in accordance with the provisions and methods prescribed in Title 14 Code of Federal Regulations Part 150, *Airport Noise Compatibility Planning*. As required by 14 CFR Part 150, BCAD has prepared Draft Noise Exposure Maps (NEMs) that depict the airport, its noise contours, and surrounding land uses. BCAD is making the Draft NEMs and supporting documentation available for public review and comment. After review and consideration of comments, BCAD will submit the NEMs to the Federal Aviation Administration for the agency's determination that the maps comply with applicable requirements.

Printed copies of the NEMs and NEM Report will be available for review during normal hours at the locations listed below. In addition, the NEMs and NEM Report are available for download from the project website at: <http://www.fllpart150.com/resources/>.

- **Broward County Aviation Department Administration Office:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312.
- **Dania Beach-Paul DeMalto Library:** 1 Park Avenue East, Dania Beach, Florida 33004
- **West Regional Library:** 8601 W Broward Boulevard, Plantation, Florida 33324
- **Davie/Cooper City Branch Library:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Southwest Regional Library:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Riverland Branch Library:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

The comment period begins December 16, 2018 and ends on January 23, 2019 (5:00 PM Eastern). The Draft NEM Report will be available at the above locations until the close of the comment period. Anyone wishing to submit comments may do so at any time during the comment period. Comments on the Draft NEMs should be mailed to: Broward County Aviation Department, Attn: Noise Office – FLL Part 150 Study, 2200 SW 45th Street, Suite 101, Dania Beach, Florida 33312. Comments may be also be submitted online at <http://www.fllpart150.com/comments/>.

Public Information Workshop

BCAD invites you to attend a Public Information Workshop to learn about the NEMs, discuss the NEMs with representatives of BCAD and their consultants, and provide comments. This workshop also gives you the opportunity to share your ideas for addressing aircraft noise around FLL. The workshop will include displays and information related to the Part 150 Study process, the NEMs, project schedule, and the next phase of the Study (which is the Noise Compatibility Program). The Public Information Workshop details are provided below.

DATE: Wednesday, January 16, 2019
TIME: 6:00PM - 8:30PM
LOCATION: Signature Grand, 6900 FL-84 Davie, Florida 33317

The Public Information Workshop will be conducted in an "open house" format. No formal presentation will be given during the workshop. This workshop format provides attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns with BCAD. You may attend at any time during the workshop. Comment forms will be available at the workshop for those that wish to submit comments in writing and a court reporter will be available for those that wish to submit comments verbally.

Please note that comments can only be accepted with the full name and address of the individual commenting. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment, including your personal identifying information, may be made publicly available at any time. While you may ask to have your personal identifying information withheld from public review, it cannot be guaranteed.

BCAD encourages all interested parties to monitor the project website for the latest study information and announcements at www.fllpart150.com.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990, or anyone with questions, should contact 1-800-974-2703 as soon as possible, but no later than three days prior to the scheduled meeting.

TALKS

Continued from Page 1A

Pelosi said.

Mulvaney argued the administration was willing to deal in an interview with NBC's "Meet the Press," set to air Sunday. He said Trump was willing to forgo concrete wall for steel or other materials.

"If he has to give up a concrete wall, replace it with a steel fence in order to do that so that Democrats can say, 'See? He's not building a wall anymore,' that should help us move in the right direction," Mulvaney said.

The president has suggested his definition of the wall is flexible referring to slats and other "border things."

But Democrats have made clear they see a wall as immoral and ineffective and prefer other types of border security funded at already agreed upon levels.

Trump had campaigned on the promise that Mexico would pay for the wall. Mexico has refused. He's now demanding the money from Congress.

Trump, who did not attend the discussions, spent the morning tweeting about border security.

Showing little empathy

for the hundreds of thousands of federal workers furloughed or working without pay, Trump declared, without citing evidence, that most are Democrats. He also asserted: "I want to stop the Shutdown as soon as we are in agreement on Strong Border Security! I am in the White House ready to go, where are the Dems?"

One Democrat, Maryland Sen. Chris Van Hollen, said in his party's weekly radio address that the shutdown "is part of a larger pattern of a president who puts his personal whims and his effort to score political points before the needs of the American people. He is pointing fingers at everyone but himself."

Trump and Democratic leaders met for two hours Friday, but gave differing accounts of the session. Democrats reported little progress; Trump framed the weekend talks as a key step forward.

As the shutdown drags on, some Republicans are growing nervous. Some GOP senators up for re-election in 2020, including Cory Gardner of Colorado and Susan Collins of Maine, have voiced discomfort with the shutdown in recent days. Collins has tried to broker deals to end past

stalemates.

Sen. Thom Tillis of North Carolina penned an op-ed for The Hill, arguing that Congress should end the shutdown and make a deal on border security and immigration reforms.

In calling on Trump to reopen government while negotiations on border security continue, Democrats have emphasized families unable to pay bills due to absent paychecks.

But Trump has repeatedly said he will not budge without money for the wall.

Trump asserted on Friday that he could declare a national emergency to build the wall without congressional approval, but would first try a "negotiated process." Trump previously described the situation at the border as a "national emergency" before he sent active-duty troops.

Critics described that as a pre-election stunt.

Trump said the federal workers who are furloughed or working without pay would want him to "keep going" and fight for border security. Asked how people would manage without a financial safety net, he said: "The safety net is going to be having a strong border because we're going to be safe."

El Sentinel JAN 10

Univision presenta miniserie ‘La Fuerza de Creer’, para ayudar a los padres hispanos

AURELIO MORENO
El Sentinel

Univision inicia el 2019 con un mensaje social y educativo.

El poderoso recado llega en forma de la miniserie, La Fuerza de Creer 2 que se estrenó el lunes 7 y narra la historia de cuatro familias que enfrentan complicados retos como la separación por deportación, adopción, el ser padres solteros, el analfabetismo y el bilingüismo.

De solo cinco episodios esta historia original de Univision en su segunda edición enseña cómo los padres puedan ayudar a sus hijos con la alfabetización temprana, el desarrollo de habilidades matemáticas y el desarrollo social emocional.

La serie concluye el viernes 11 en la televisión, pero seguirá disponible por 90 días más en Univision NOW, el servicio de streaming en vivo de Univision, accesible para las plataformas iOS, Android e internet.

El show apunta a entretener con sus historias dramáticas mientras también brinda mensajes importantes a los padres, abuelos y todos los cuidadores sobre el desarrollo infantil temprano. La serie sigue a cuatro familias que visitan el Centro Comunitario Los Lagos, un centro comunitario al borde de la demolición en un

CORTESIA

La miniserie Fuerza de Creer 2 narra la historia de cuatro familias que enfrentan complicados retos como la separación por deportación, adopción, el ser padres soltero, analfabetismo y el bilingüismo.

barrio de clase trabajadora.

A medida que el personal de Los Lagos lucha por la supervivencia del Centro, los padres continúan trayendo a sus hijos al LUGAR, donde además de cuidado infantil, reciben asesoramiento sobre una variedad de temas de desarrollo

infantil temprano, que incluyen formas de impulsar el desarrollo temprano del cerebro y del lenguaje; los beneficios del bilingüismo; la importancia de los padres, abuelos y otros cuidadores; y sano desarrollo socioemocional, entre otros temas.

Los mensajes incluidos en la serie y los anuncios de servicio público alentarán a los padres y cuidadores hispanos a participar con sus hijos en actividades de desarrollo mental durante los momentos cotidianos, como hablar, cantar y jugar con

sus niños pequeños.

Los protagonistas de la serie son: Gaby Rivero (famosa por interpretar el papel de la maestra Jimena en Carrusel) como Berenice, la supervisora de guardería del centro; Scarlett Ortiz (actriz de cine y novela) como Clara, la incansable directora del centro comunitario; René Lavan (actor de Hollywood, actor de Broadway y actor de novelas) en el papel del Dr. Mark Riley, el pediatra del centro y el interés amoroso de Clara; Daniel Lugo (actor y productor de Hollywood) interpretando el papel de El Abuelo Rafael; Sandra Destenave (actriz de cine y novela) como Susana, la recién nombrada terapeuta familiar y psicóloga; y Ana González y Ana Terrero como Ana y Camila, una pareja de lesbianas que adoptan a una pequeña.

Se alienta a los espectadores a que envíen un mensaje de texto con el texto "CONSEJOS" al 26262 o visiten Vroom.org/Univision para formar parte del grupo de padres y familias del canal y recibir consejos en español de expertos en educación temprana.

Aviso de Propuesta de Proyecto y Aviso de Taller de Información Pública

Estudio de Planeación de Compatibilidad de Ruido de Aeropuerto
Sección 150, Título 14 del Código de Regulaciones Federales

Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL)

El Departamento de Aviación de Broward County (BCAD por sus siglas en inglés) está preparando un estudio de compatibilidad del ruido para el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL) de acuerdo con las disposiciones y métodos establecidos en el Título 14, Sección 150 del Código Federal de Regulaciones, *Planeación de la Compatibilidad del Ruido Aeroportuario*. Y de acuerdo a esta misma legislación, BCAD ha elaborado los Mapas de Exposición al Sonido (NEMs por sus siglas en inglés) que muestran el aeropuerto con contornos de ruido y el uso de los terrenos aledaños. BCAD pone a disposición del público en general los mapas propuestos junto con todos los documentos necesarios de soporte, para su revisión y comentarios. Después de revisar y considerar dichos comentarios, BCAD enviará los mapas a la Administración Federal de Aviación (FAA por sus siglas en inglés), para que la FAA concluya si los mapas cumplen con los requerimientos vigentes.

Las copias y los reportes de los mapas estarán disponibles para revisión a partir del 16 de diciembre de 2018, en horarios normales de trabajo y en los lugares que se indican a continuación.

Adicionalmente, tanto los mapas con el reporte pueden descargarse accediendo a la página web del proyecto:
<http://www.fllpart150.com/resources/>.

- **Broward County Aviation Department Administration Office:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312.
- **Dania Beach-Paul DeMaio Library:** 1 Park Avenue East, Dania Beach, Florida 33004
- **West Regional Library:** 8601 W Broward Boulevard, Plantation, Florida 33324

- **Davie/Cooper City Branch Library:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Southwest Regional Library:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Riverland Branch Library:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

El periodo para recibir comentarios comenzará el 16 de diciembre de 2018 y terminará el 23 de enero de 2019 a las 5:00 PM (horario del Este de los EE. UU.). El reporte de anteproyecto de NEM estará disponible en los lugares arriba mencionados durante el mismo periodo. Cualquier persona que lo desee podrá enviar sus comentarios en cualquier momento durante ese periodo. Los comentarios deberán enviarse por escrito a: Broward County Aviation Department, Attn: Noise Office – FLL Part 150 Study, 2200 SW 45th Street, Suite 101, Dania Beach, Florida 33312. Los comentarios también se recibirán en línea en la siguiente página web:
<http://www.fllpart150.com/comments/>.

Taller de Información al Público

El Departamento de Aviación de Broward County le invita a asistir al Taller de Información al Público para obtener información acerca de los NEMs, hacer comentarios y preguntas a los representantes de BCAD y sus consultores. Este taller también es una oportunidad para compartir sus ideas e inquietudes acerca del ruido aeroportuario en los alrededores de FLL. El taller incluye materiales visuales e información relacionada al proceso de estudio de la Sección 150, los mapas (NEMs) y el cronograma del proyecto, así como la siguiente fase del estudio (Programa de Compatibilidad del Ruido). Más información sobre este taller público se muestra a continuación:

FECHA: Miércoles 16 de enero de 2019

HORA: 6:00PM - 8:30PM

LUGAR: Signature Grand, 6900 FL-84 Davie, Florida 33317

El taller tendrá un formato de “open house” y no se llevará a cabo una presentación formal. El taller brindará a las personas presente la oportunidad de una interacción personal donde se va a poder compartir información e inquietudes sobre el tema con representantes de BCAD. Usted puede asistir en cualquier momento el taller de 6 a 8:30 pm. Usted podrá escribir sus comentarios y también contaremos con la presencia de un reportero judicial para aquellas personas que prefieran aportar sus comentarios en forma verbal.

Por favor, tome en cuenta que los comentarios solo podrán ser aceptados si usted incluye su nombre completo y su dirección actual. Antes de incluir su dirección, número de teléfono, dirección de e-mail, o cualquier otra información personal en sus comentarios, por favor tome en cuenta también que dicha información podría hacerse pública en cualquier momento. Usted puede solicitar que su información personal sea inaccesible a la revisión pública, pero esta inaccesibilidad no se puede garantizar. Para obtener información actualizada sobre los estudios relacionados a este proyecto, BCAD invita a todos los interesados a monitorear la página del proyecto www.fllpart150.com.

Cualquier persona que necesite acomodaciones especiales de acuerdo con la Ley de Americanos Discapacitados de 1990, o cualquier persona que tenga preguntas deberá llamar al **1-800-974-2703** lo antes posible y hasta tres días antes de que comience el taller.

Noise Exposure Map Public Information Workshop

Handouts

(January 16, 2019)

AVIATION DEPARTMENT - Fort Lauderdale-Hollywood International Airport
2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Welcome to the Fort Lauderdale-Hollywood International Airport Public Information Workshop for the Part 150 Airport Noise Compatibility Planning Study

The Broward County Aviation Department (BCAD) welcomes and thanks you for attending this public workshop for the Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL).

BCAD is preparing a noise compatibility study for FLL in accordance with the provisions and methods prescribed in Title 14 Code of Federal Regulations Part 150, *Airport Noise Compatibility Planning*. As required by Part 150, BCAD has prepared Draft Noise Exposure Maps (NEMs) that depict the airport, its noise contours, and surrounding land uses. BCAD has made the Draft NEMs and supporting documentation available for public review and comment. After review and consideration of comments, BCAD will submit the NEMs to the Federal Aviation Administration for the agency's determination that the maps comply with applicable requirements.

Printed copies of the NEMs and NEM Report are available for review during normal business hours at the locations listed below. In addition, the NEMs and NEM Report are available for download from the project website at: <http://www.fllpart150.com/resources/>.

- **BCAD Administration Office:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312
- **Dania Beach-Paul DeMaio Library:** 1 Park Avenue East, Dania Beach, Florida 33004
- **West Regional Library:** 8601 W Broward Boulevard, Plantation, Florida 33324
- **Davie/Cooper City Branch Library:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Southwest Regional Library:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Riverland Branch Library:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

The workshop is an "open house" format and there will be no formal presentation. This will provide attendees with the maximum opportunity for one-on-one interaction and sharing of information and concerns. Topics include the Part 150 Study process, project schedule, and the next phase of the Study (the Noise Compatibility Program).

The following pages of this handout will guide you through each of the five stations available at tonight's workshop. We encourage you to visit each station and review the materials provided. Members of the study team are available to answer any questions you have.

Comment forms are available at the workshop for those that wish to submit comments in writing and a court reporter is available for those that wish to submit comments verbally.

STATION 1: THE PART 150 STUDY PROCESS

This station will guide you through the study process prescribed by 14 CFR Part 150, the federal regulation that establishes the methodology to be followed when determining aircraft noise exposure and developing a program to ensure the compatibility of surrounding land uses with the anticipated noise exposure.

Summary of Presentation Boards at Station 1:

1. 14 CFR Part 150 Overview
2. Why Conduct a 14 CFR Part 150 Study
3. Key Issues for this Part 150 Study
4. Additional Part 150 Study Information
5. Regulatory Framework
6. Phases of a Part 150 Study
7. General Study Process
8. 14 CFR Part 150 Terminology

STATION 2: UNDERSTANDING NOISE AND SOUND LEVEL METRICS

Station 2 contains boards that explain the science behind acoustics and the various sound level metric used in a Part 150 Study (day-night average sound level (DNL)). It also provides information regarding various land uses and noise sensitive sites.

Summary of Presentation Boards at Station 2:

1. Aircraft Noise Compatibility Guidelines – Compatible land use
2. Day-Night Average Sound Level (DNL)
3. Understanding Aircraft Sound Levels

STATION 3: NOISE MODELING

This Station provides an introduction to the noise modeling process used in Part 150 studies including the data requirements and collection process. This study details modeling inputs such as annual aircraft operations and runway utilization for 2018 and 2023.

Summary of Presentation Boards at Station 3:

1. Noise Modeling
2. Model Inputs
3. Estimated Annual Aircraft Operations for 2018 and 2023
4. Aircraft Departure Stage Length
5. Runway Use Arrivals and Departures
6. Flight Tracks

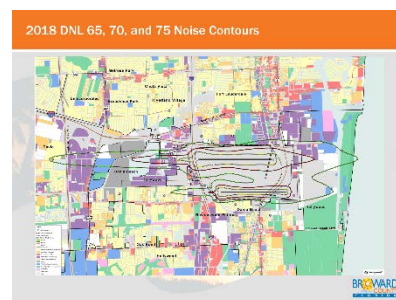

STATION 4: NOISE MODELING RESULTS

Station 4 provides the estimated noise exposure that would take place in the Part 150 Study Years, 2018 and 2023. The results provide DNL 65, 70, and 75 noise contour lines and estimated noise exposure.

Summary of Presentation Boards at Station 4:

1. 2018 DNL 65, 70, and 75 Noise Contours
2. Noise Exposure within the 2018 DNL 65, 70, and 75 Contours
3. 2023 DNL 65, 70, and 75 Noise Contours
4. Noise Exposure within the 2023 DNL 65, 70, and 75 Contours
5. 2018 and 2023 Noise Contours with Sound Insulation Program
6. Comparison of 2018 and 2023 Noise Exposure

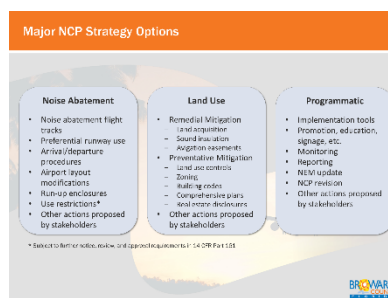

STATION 5: Noise Compatibility Program and Schedule

This Station provides the next steps to take place for the Noise Compatibility Program. The FAA is incorporated in many areas during these stages. Taking everything into consideration there is a project schedule in place to finish around Spring 2020

Summary of Presentation Boards at Station 5:

1. Required Elements of a Noise Compatibility Program (NCP)
2. Distinction Between Noise Abatement and Noise Mitigation
3. Major NCP Strategy Options
4. Review of NCP Measures
5. Project Schedule

Thank you for attending this workshop.

You may provide written comments during this public workshop via the available comment forms, or you can submit comments by mail to the following address:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Please provide comments by January 23, 2019.

Part 150 Study updates are provided on the Project Website at www.fllpart150study.com

Thank You for Your Participation!

Frequently Asked Questions

What is a 14 CFR Part 150 Study?

The Federal Aviation Administration (FAA) issued Title 14 Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*, in January 1985. 14 CFR Part 150 provides airport operators with a formal process for addressing airport noise and noncompatible land uses. A “noncompatible land use” is a land use exposed to aircraft noise in excess of the thresholds established in 14 CFR Part 150. Part 150 studies are voluntary; typically prepared by airports interested in improving compatibility with local communities.

Why is Broward County preparing a Part 150 Study for Fort Lauderdale-Hollywood International Airport (FLL)?

Airport operations have changed since the last Part 150 Study Update; in particular, Runway 10R/28L has been expanded to serve larger aircraft. These changes warrant updates to the airport noise maps and noise compatibility program

What does the FLL Part 150 Study provide?

The FLL Part 150 Study Noise Exposure Map (NEM) Report shows existing (year 2018) and future (2023) aircraft sound exposure levels. The Report also explains how these levels were determined. A Final NEM Report will be submitted to the FAA, and the FAA will review and accept NEMs, in accordance with the regulations. After the FLL NEMs are completed, the Noise Compatibility Program (NCP) process is initiated. An NCP includes measures for addressing noncompatible land uses. Measures may involve sound insulation, zoning, changes in aircraft operations, and other topics. The FAA must review each measure in the NCP. Measures approved by the FAA may be eligible for federal funding.

What is DNL?

“DNL” stands for Day-Night Average Sound Level. DNL is an average of sound levels that occur in a 24-hour period, expressed in decibels (dB). Sound events that happen between 10 P.M. and 7 A.M. receive an additional weight of 10 dB. The additional 10 db weight means that every nighttime sound event is counted the same as 10 daytime events. This extra weight represents the greater annoyance that nighttime sounds typically cause for most people.

How are sound levels and exposure determined?

The FAA’s Aviation Environmental Design Tool (AEDT) is a computer model that calculates aircraft sound levels. AEDT uses data on flight paths, aircraft types, numbers of operations, and other factors. To determine sound exposure for this Part 150 Study, AEDT calculated DNL values for the years 2018 and 2023.

What is a noncompatible land use?

A noncompatible land use means that the sound exposure is normally not compatible because the DNL is above the levels identified in Part 150, Appendix A, Table 1. The thresholds for land use compatibility vary depending on the use of the land. For example, the threshold for residential land use is DNL 65; but the threshold is DNL 70 for commercial land use (offices, business and professional buildings).

Why is my property considered compatible when I am bothered by the noise?

While a single overflight may be annoying, DNL reflects the cumulative noise exposure resulting from a series of events for the purposes of determining what land uses are compatible with a given level of noise exposure. The DNL 65 contour is the federally-accepted level at which residential and other noise sensitive land uses are considered non-compatible with aircraft noise. The compatibility of various land uses with noise above DNL 65 dB has been based on scientific research concerning public reaction to noise exposure.

Annoyance is difficult to describe because it can vary widely between individuals. What one person considers tolerable may be unbearable to someone else. How much someone is annoyed also depends on numerous characteristics such as how often the sound is heard, and how long the sound lasts, the time of day, and what the person was doing when the sound was heard (e.g., sleep interruption causes greater annoyance). As a cumulative measure that factors in time of day, DNL represents a combination these considerations for the purposes of determining compatibility. Improving compatibility, thereby reducing annoyance, is the primary focus of a Part 150 Study.

DEPARTAMENTO DE AVIACIÓN - Aeropuerto de Fort Lauderdale-Hollywood
2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

Bienvenidos al Taller de Información al Público del Aeropuerto Internacional de Fort Lauderdale-Hollywood sobre el Estudio Parte 150 de Planificación de Compatibilidad de Ruidos en Aeropuertos

El Departamento de Aviación del Condado de Broward (BCAD, por sus siglas en inglés) le da la bienvenida y le agradece por asistir a este taller público acerca del Estudio Parte 150 para el Aeropuerto Internacional de Fort Lauderdale-Hollywood (FLL).

El BCAD está preparando un estudio de compatibilidad del ruido para FLL de acuerdo con las provisiones y los métodos establecidos en el Título 14 del Código de Regulaciones Federales Parte 150, *Planificación de Compatibilidad de Ruidos de Aeropuertos*. Tal como lo requiere Parte 150, el BCAD ha preparado borradores de los Mapas de Exposición al Ruido (NEMs, Noise Exposure Maps,) que muestran el aeropuerto, los contornos sonoros, y los usos de los terrenos a su alrededor. El BCAD ha puesto el borrador de los NEMs y el informe a disposición del público para que lo revisen y hagan comentarios. Luego de considerar los comentarios, el BCAD presentará los NEMs a la Administración Federal de Aviación para que determinen si los mapas cumplen con los requisitos necesarios.

Hay copias impresas de los NEMs y del Informe de NEM en las direcciones que figuran a continuación. Están disponibles para recoger durante horas hábiles. Además, los NEMs y los informes de los NEMs se pueden descargar en la Página Web del proyecto en: <http://www.flpart150.com/resources/>

- **Oficina administrativa del BCAD:** 2200 SW 45th Street, Suite 101; Dania Beach, Florida 33312
- **Biblioteca Dania Beach-Paul DeMaio:** 1 Park Avenue East, Dania Beach, Florida 33004
- **Biblioteca West Regional:** 8601 W Broward Boulevard, Plantation, Florida 33324
- **Biblioteca Davie/Cooper City Branch:** 4600 SW 82nd Avenue, Davie, Florida 33328
- **Biblioteca Southwest Regional:** 16835 Sheridan Street, Fort Lauderdale, Florida, 33331
- **Biblioteca Riverland Branch:** 2710 W Davie Boulevard, Fort Lauderdale, Florida 33312

El formato del taller es de "puertas abiertas" y no habrá una presentación formal. Así los asistentes tendrán más oportunidad de interactuar de forma personalizada y de compartir información y dudas. Los temas incluyen el proceso del Estudio Parte 150, el cronograma del proyecto, y la próxima fase del estudio (el Programa de Compatibilidad del Ruido).

Las siguientes páginas de este folleto sirven como guía para cada una de las cinco estaciones disponibles en el taller de esta noche. Le sugerimos que visite cada estación y revise la información disponible. Los miembros del equipo que lleva a cabo el Estudio están disponibles para contestar cualquier pregunta que tenga.

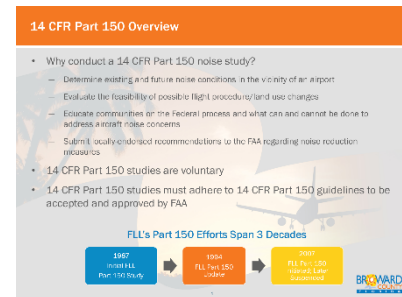

Hay formularios en el taller para los que deseen dejar comentarios escritos y un taquígrafo de actas está disponible para los que deseen brindar comentarios verbalmente.

ESTACIÓN 1: EL PROCESO DEL ESTUDIO PARTE 150

Esta estación le guiará acerca del proceso del estudio prescrito por 14 CFR Parte 150, la regulación federal que establece la metodología que se debe seguir al determinar la exposición a ruidos aeronáuticos y desarrollar un programa para asegurar la compatibilidad de la utilización del terreno adyacente con la exposición de ruido estimada.

Resumen de la presentación en la Estación 1:

1. Información general acerca del 14 CFR Parte 150
2. Por qué se lleva a cabo el Estudio 14 CFR Parte 150
3. Cuestiones claves para este Estudio Parte 150
4. Información adicional sobre el Estudio Parte 150
5. Marco Regulatorio
6. Fases de un Estudio Parte 150
7. Proceso general del estudio
8. Terminología sobre el 14 CFR Parte 150

ESTACIÓN 2: COMO COMPRENDER LOS PARÁMETROS DE MEDICIÓN DE LOS NIVELES DE RUIDO Y DE SONIDO

La Estación 2 tiene cuadros que explican la ciencia detrás de la acústica y los varios parámetros para medir los niveles de sonido del Estudio Parte 150 (Nivel Sonoro Promedio día-noche (DNL)). También brinda información con respecto a las varias utilizaciones del suelo y a los sitios sensibles al ruido.

Resumen de la presentación en la Estación 2:

1. Pautas de Compatibilidad de ruidos aeronáuticos – Compatibilidad del uso del terreno
2. Nivel Sonoro Promedio Día-Noche (DNL)
3. Como entender los Niveles Sonoros Aeronáuticos

ESTACIÓN 3: MODELACION DEL RUIDO

Esta estación brinda una introducción al proceso de modelación del ruido que se usa en los estudios de la Parte 150 incluyendo los requisitos de los datos y el proceso de recolección. Este estudio detalla los datos usados para la modelación, como la actividad aérea y utilización de las pistas para el 2018 y 2023.

Resumen de la presentación en la Estación 3:

1. Modelación del ruido
2. Datos de modelación
3. Operaciones aéreas anuales estimadas para 2018 y 2023
4. Duración de la etapa de salida de aviones
5. Uso de la pista para llegadas y salidas
6. Seguimiento de vuelos

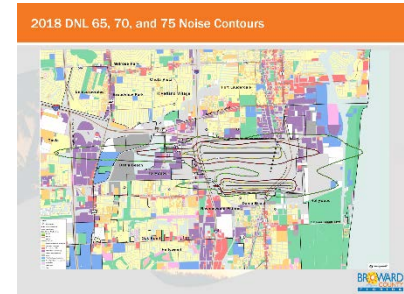

ESTACIÓN 4: RESULTADOS DE LA MODELACION DE RUIDOS

La estación 4 informa sobre la exposición sonora estimada que ocurriría en el Estudio Parte 150 en los años 2018 y 2023. Los resultados muestran las líneas de contorno del ruido de DNL 65, 70, y 75 y la exposición sonora estimada.

Resumen de la presentación en la Estación 4:

1. Contornos del ruido del 2018 DNL 65, 70, y 75
2. Exposición al ruido dentro de los contornos 2018 DNL 65, 70, y 75
3. Contornos del ruido del 2023 DNL 65, 70, y 75
4. Exposición al ruido dentro de los contornos 2023 DNL 65, 70, y 75
5. Contornos del ruido en 2018 y 2023 con el Programa de Aislamiento Acústico
6. Comparación de la exposición al ruido en 2018 y 2023

ESTACIÓN 5: Programa de compatibilidad del ruido y cronograma

Esta estación muestra las etapas siguientes del Programa de Compatibilidad del Ruido. La FAA está incluida en muchas áreas durante estas etapas. Tomando todo en cuenta, el cronograma del proyecto estima culminar cerca de la primavera del 2020.

Resumen de la presentación en la Estación 5:

1. Elementos requeridos en un Programa de Compatibilidad del Ruido (NCP)
2. Diferencia entre Disminuir el Ruido y Atenuar el Ruido
3. Opciones importantes en la estrategia del NCP
4. Revisión de las medidas del NCP
5. Cronograma del proyecto

Gracias por asistir a este taller.

Puede hacer comentarios escritos durante este taller público en los formularios para comentarios disponibles, o puede enviar los comentarios por correo a la siguiente dirección:

**Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312**

Enviar los comentarios antes del 23 de enero de 2019.

Todas las novedades acerca del Estudio Parte 150 están en la Página Web del proyecto:

¡Gracias por su participación!

Preguntas Frecuentes

¿Qué es el Estudio 14 CFR Parte 150?

La Administración Federal de Aviación (FAA) publicó el Título 14 Código de Regulaciones Federales (CFR) Parte 150, *Programa de Compatibilidad del Ruido en Aeropuertos*, en enero de 1985. El 14 CFR Parte 150 provee un proceso formal a los operadores aeroportuarios para tratar el ruido del aeropuerto y la utilización de terrenos incompatibles. Una “utilización de terreno incompatible” es la utilización de un terreno expuesto al ruido aeroportuario que supera los umbrales establecidos en 14 CFR Parte 150. Los estudios de la parte 150 son voluntarios y generalmente son llevados a cabo por aeropuertos interesados en mejorar la compatibilidad con las comunidades locales.

¿Por qué el condado de Broward está preparando un Estudio Parte 150 para el aeropuerto Internacional Fort Lauderdale-Hollywood (FLL)?

Las operaciones del aeropuerto han cambiado desde la última actualización del Estudio Parte 150; particularmente, la pista 10R/28L se ha ampliado para alojar aviones más grandes. Estos cambios obligan a actualizar los mapas de ruido del aeropuerto y el programa de compatibilidad del ruido.

¿Qué información brinda el estudio Parte 150 del FLL?

El Estudio Parte 150 del FLL muestra un Mapa de Exposición al Ruido (NEM, Noise Exposure Map) con los niveles de exposición sonora aérea actual (año 2018) y futura (2023). El informe también explica cómo fueron determinados estos niveles. Se presentará un Informe Final del Mapa NEM ante la FAA, y la FAA revisará y aceptará los Mapas NEMs, de acuerdo con las regulaciones. Después de que se terminen los Mapas NEMs de FLL, se inicia el proceso del Programa de Compatibilidad del Ruido (NCP, Noise Compatibility Program). El NCP incluye medidas para tratar la utilización incompatible de terrenos. Las medidas pueden incluir aislamiento sonoro, división de zonas, cambios en operaciones aeronáuticas, y otros asuntos. La FAA debe revisar cada medida en el NCP. Las medidas aprobadas por la FAA pueden calificar para recibir fondos federales.

¿Qué es el DNL?

DNL significa Nivel Sonoro Promedio Día-Noche (Day-Night Average Sound Level). DNL es un promedio de niveles sonoros que ocurren en un periodo de 24 horas, expresado en decibeles (dB). Los acontecimientos sonoros que suceden entre las 10 P.M. y 7 A.M. reciben un peso adicional de 10dB. Los 10 dB adicionales en peso significan que cada acontecimiento sonoro nocturno se cuenta como 10 acontecimientos diurnos. Este peso adicional representa la mayor molestia que causan los sonidos de la noche en la mayoría de la gente.

¿Cómo se determinan los niveles de sonido y exposición?

La Herramienta de Diseño Ambiental de la Aviación Del FAA (AEDT, por sus siglas en inglés) es un modelo de computadora que calcula los niveles del sonido de un avión. El AEDT utiliza datos sobre las trayectorias de vuelo, los tipos de aviones, los números de operaciones, y otros factores. Para poder determinar la exposición sonora para este Estudio Parte 150, el AEDT calculó los DNL para los años 2018 y 2023.

¿Qué es una utilización incompatible del terreno?

Una utilización del suelo incompatible significa que la exposición sonora no es normalmente compatible porque el DNL está por encima de los niveles identificados en la parte 150, Anexo A, Tabla 1. Los umbrales para la compatibilidad de la utilización del terreno varían dependiendo del uso del terreno. Por ejemplo, el umbral para la utilización de terreno residencial es DNL 65; pero el umbral es DNL 70 para la utilización de terrenos comerciales (oficinas, negocios y edificios profesionales).

¿Por qué mi propiedad está considerada compatible cuando el ruido me está incomodando?

Aunque un solo avión puede ser molesto, el DNL refleja la exposición sonora acumulada como resultado de una serie de acontecimientos con el objetivo de determinar qué utilizaciones de terreno son compatibles con un nivel determinado de exposición sonora. El contorno DNL 65 es el nivel aceptado federalmente en el cual el uso residencial y otro tipo de usos de terreno sensibles a los ruidos se consideran incompatibles con los ruidos de aviones. La compatibilidad de las varias utilizaciones de terrenos con ruidos por encima de DNL 65 dB se ha basado en investigaciones científicas referentes a la reacción del público a la exposición al ruido.

Es difícil describir la molestia porque puede variar mucho entre las personas. Lo que una persona considera tolerable puede ser insoportable para otra. Cuánto se puede llegar a molestar una persona también depende de varias características tales como cuantas veces se oye el sonido, y cuanto tiempo dura el sonido, la hora, y qué hacía la persona cuando escuchó el sonido (por ej. la interrupción del sueño causa mayor molestia). Como medida acumulativa que tiene en cuenta el horario del día, el DNL representa una combinación de estas consideraciones con el fin de determinar compatibilidad. Mejorar la compatibilidad, para reducir la molestia, es el eje central del Estudio Parte 150.

Comment Form

Please use the space below to provide your comments regarding the Noise Exposure Maps and the measures you would like considered for the Noise Compatibility Program, which is the next phase of the 14 CFR Part 150 Study at Fort Lauderdale-Hollywood International Airport. Your comments will be reviewed and considered during the Study. Your participation in the process is appreciated. If you wish to receive future project updates, please provide your contact information on the other side of this form.

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Please drop this form in the Comment Box at the Public Workshop, or mail by January 23, 2019 to:
Fort Lauderdale-Hollywood International Airport, Aviation Department - Part 150 Study
2200 SW 45th Street, Suite 101 Dania Beach, Florida 33312

Please note: All comments may be made publicly available.

The Broward County Aviation Department (BCAD) began a study to improve the compatibility of Fort Lauderdale Hollywood International Airport (FLL) with the surrounding communities. This study, a "Part 150 Study," will follow the process outlined in Title 14 of the Code of Federal Regulations (CFR) Part 150, *Airport Noise Compatibility Planning*. At key points during the project, newsletters will provide updates on study progress. BCAD encourages all interested parties to monitor the project website for the latest study information and announcements at www.fllpart150.com. Thank you for your interest and participation.

Dirección de E-mail _____

Lugar de la reunion _____

El Departamento de Aviación del Condado de Broward (BCAD) comenzó un estudio para mejorar la compatibilidad del aeropuerto internacional Fort Lauderdale Hollywood con las comunidades que lo rodean. Este estudio, un “Estudio Parte 150,” seguirá el proceso detallado en el Título 14 del Código de las Regulaciones Federales (CFR) Parte 150, *Planificación de Compatibilidad de Ruidos en Aeropuertos*. Durante los momentos importantes del proyecto, habrá boletines informativos con novedades sobre el progreso del estudio. El BCAD invita a todos los interesados a que visiten la página web del proyecto para ver la información mas reciente del estudio y anuncios en www.fllpart150.com . Gracias por su interés y participación.

Noise Exposure Map Public Information Workshop

Presentation Boards

(January 16, 2019)

WELCOME!

**FORT LAUDERDALE-HOLLYWOOD
INTERNATIONAL AIRPORT**

**14 CFR PART 150 NOISE AND
LAND USE COMPATIBILITY STUDY**

Public Information Workshop #2
January 2019

Station 1: Part 150 Overview

(Do not Print)

14 CFR Part 150 Overview

- Establishes the methodology to be followed when preparing aircraft noise exposure maps and developing airport/airport environs land use compatibility programs.
- Interim Rule on Federal Aviation Regulations (FAR) Part 150, *Airport Noise Compatibility Planning* issued in 1981 and finalized in 1985, later recodified as Title 14 Code of Federal Regulations (CFR) Part 150.
- Issued in response to provisions contained in the *Aviation Safety and Noise Abatement Act of 1979*.
- Part 150 studies must adhere to 14 CFR Part 150 guidelines to be considered, accepted, and approved by FAA.

14 CFR Part 150 Overview

- Why conduct a 14 CFR Part 150 noise study?
 - Determine existing and future noise conditions in the vicinity of an airport
 - Evaluate the feasibility of possible flight procedure/land use changes
 - Educate communities on the Federal process and what can and cannot be done to address aircraft noise concerns
 - Submit locally-endorsed recommendations to the FAA regarding noise reduction measures
- 14 CFR Part 150 studies are voluntary
- 14 CFR Part 150 studies must adhere to 14 CFR Part 150 guidelines to be accepted and approved by FAA

FLL's Part 150 Efforts Span 3 Decades

14 CFR Part 150 Overview

Key Issues for this Part 150 Study

- Operational Changes
 - Opening of New Runway
 - Change in Operation of North Runway
 - Potential Changes Related to NextGen/Metroplex
- Ongoing Residential Sound Insulation Program
- Community Education
- Expectation Management

Overview of 14 CFR Part 150

Regulatory Framework

- **Federal law** sets aircraft noise standards, prescribes operating rules, establishes the compatibility planning process, and limits airport proprietor's ability to restrict aircraft operations.
- **State law** sets forth compatibility planning guidelines and noise standards but aircraft are exempt.
- **Local noise ordinances** set noise standards and provide for compatible land use planning but aircraft are exempt.

Who Can Regulate Airport Noise?

- **Federal Aviation Administration:** (1) Controls aircraft while in flight; (2) Responsible for controlling noise at its source (i.e., aircraft engines); (3) Certifies aircraft and pilots.
- **Airport Proprietors/BCAD:** (1) Very limited authority to adopt local restrictions; (2) Responsible for capital improvement projects and infrastructure.
- **Local Governments and States:** (1) Promote compatible land use through zoning; (2) Require real estate disclosure; (3) Mandate sound-insulating building materials.

FEDERAL LAW PREEMPTS STATE AND LOCAL REGULATIONS

Overview of 14 CFR Part 150

Noise Exposure Map Report (NEM)

- Develop a comprehensive database of current conditions
- Noise contour development and impact analysis
- Prepare and submit Noise Exposure Map (NEM) Report

Noise Compatibility Program (NCP)

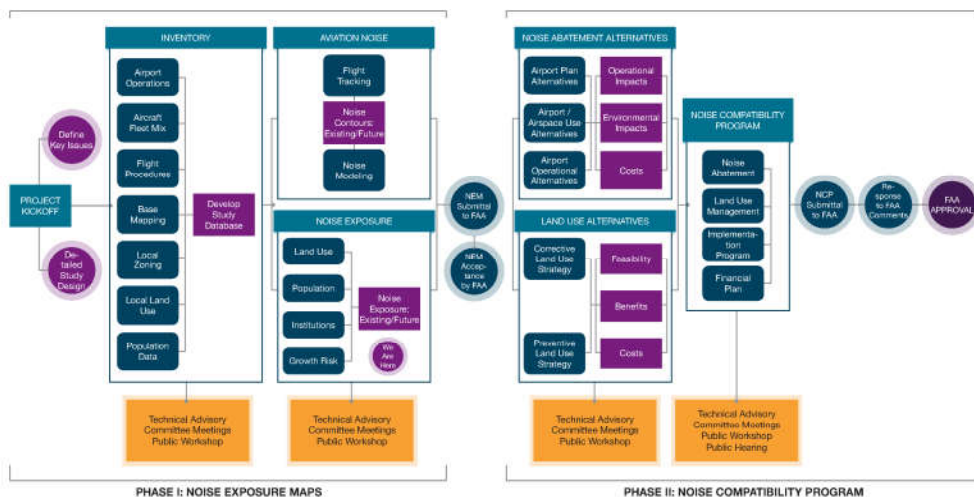

- Identify and evaluate noise abatement alternatives
- Identify and evaluate compatible land use alternatives
- Identify and evaluate administrative measures
- Prepare and submit Noise Compatibility Program (NCP) Report

Stakeholder Outreach Program

- Local Jurisdictions/Agencies
- FAA
- Public

Overview of 14 CFR Part 150 – General Study Process

Overview of 14 CFR Part 150

14 CFR Part 150 Terminology

- **Noise Exposure Contours** - A noise exposure contour identifies areas of equal noise exposure around an airport. Noise exposure contours are similar to contours on topographic maps which show areas of equal elevation.
- **Noise Exposure Maps** - A noise exposure map is a map showing noise exposure contour lines (or footprints) which identify areas of specific noise levels around an airport. NEMs also include a graphic depiction of geographical features and land uses that surround an airport.
- **Noise Compatibility Program** - A noise compatibility program report includes descriptions and a detailed evaluation of noise abatement and noise mitigation options applicable to an airport.
- **Noise Abatement Measures** - These measures are intended to reduce actual aircraft noise levels in noise-sensitive areas by either reducing aircraft noise at the source by using quieter aircraft, shielding noise sensitive areas, or by instituting operational measures, such as changes in aircraft flight tracks or in approach or departure flight profiles.
- **Noise Mitigation Measures** - These measures are intended to reduce the effects of aircraft noise on the receiver. Noise mitigation strategies may include outright property acquisition, acoustical treatment/ soundproofing programs, purchase of aviation easements, and land use control measures.

Station 2: Understanding Noise and Sound Level Metrics

(Do not Print)

Compatible Land Use

Aircraft Noise Compatibility Guidelines

- Table 1 in Appendix A of 14 CFR Part 150 provides noise and land use compatibility guidelines
- Deems levels below 65 dB DNL to be compatible with all land uses
- Allows for the adoption of appropriate local land use standards for land use compatibility planning purposes

The 14 CFR Part 150 process is the Airport Sponsor's mechanism to improve the compatibility between the Airport and surrounding communities

Land Use	Yearly Day-Night Noise Level (DNL) in Decibels					
	Below 65	65-70	70-75	75-80	80-85	Over 85
Residential

Day-Night Average Sound Level

- 24-hour time-weighted energy average noise level based on A-weighted decibels (dBA)
- Noise occurring between 10 p.m. and 7 a.m. is weighted by an additional 10 dB to account for the higher sensitivity to noise during nighttime hours and for the expected further decrease in background levels that typically occur in the nighttime
- FAA requires the use of DNL for airport noise assessments
- Average Annual Day aircraft noise exposure is calculated over a broad area and then depicted using contour lines of equal noise levels
- Reflects cumulative average day noise exposure for the purposes of determining overall compatibility – not noise generated by a single event

Understanding Aircraft Sound Levels

Station 3: Noise Modeling Inputs

(Do not Print)

About Noise Modeling

Noise Modeling

- Aircraft noise modeling allows:
 - Calculation of noise exposure at any point
 - Depicting annual average aircraft noise exposure
 - Predicting future aircraft noise exposure
 - Assessing changes in noise impacts resulting from runway configuration changes or new runways
 - Assessing changes in fleet mix and/or number of operations
 - Evaluating operational procedures
- Aviation Environmental Design Tool (AEDT) replaced the Integrated Noise Model (INM) when it was released in 2015. The current version, AEDT 2C, will be used for the FLL Part 150 Study.

Noise Modeling Methodology

Model Inputs

- The Amount of Noise Exposure is determined by:
 - Aircraft types
 - Stage length
 - Number of average annual day operations
 - Nighttime weighting (1 nighttime operation = 10 daytime operations)
- The Noise Exposure Distribution is determined by:
 - Runway configuration and use
 - Flight track locations
 - Flight track use
- Other Factors
 - Meteorological Conditions
 - Terrain

Station 4: Noise Modeling Results

(Do not Print)

2018 DNL 65, 70, and 75 Noise Contours

Noise Exposure Within the 2018 DNL 65, 70, and 75 Contours

Land Uses Exposed to DNL 65 and Higher - 2018

Land Use Category ¹	Land Uses Exposed to DNL 65 and Higher (Acres) ²				Housing Units ³	Population ³
	DNL 65-70	DNL 70-75	DNL 75+	Total		
Single and Two Family Residential	30.8	0.0	0.0	30.8	226	475
Multi-Family Residential	0.3	0.0	0.0	0.3	12	22
Utilities	143.2	7.2	0.0	150.4	-	-
Commercial and Office	11.9	2.7	0.0	14.6	-	-
Industrial and Manufacturing	240.8	41.2	0.0	282.0	-	-
Transportation and Parking	1,282.3	598.8	459.6	2,340.6	-	-
Public Facilities and Institutions	121.3	1.2	0.0	122.6	-	-
Parks, Open Space, and Agriculture	76.7	12.7	0.0	89.4	-	-
Vacant	214.1	3.2	0.0	217.3	-	-
Water (Off Airport Property)	154.4	43.0	0.0	197.5	-	-
Total	2,276.0	710.0	459.6	3,445.7	238	497

NOTE: Land uses acreage present within the DNL 70-75 contours may be shown as 0.0 due to rounding. Totals may not add up, due to rounding.

Station 5: NCP, Schedule, Comments

(Do not Print)

Required Elements of a Noise Compatibility Program (NCP)

- The NCP explores operational, land use, and administrative measures to minimize aircraft noise exposure
- The FAA reviews entire NCP for completeness
 - Technical, policy, effectiveness review
- The NCP Report must include a provision for revising the NCP if made necessary by a revision of the Noise Exposure Map
- FAA has 180 days to review the NCP
- During its review, the FAA will respond as follows for each measure:
 - Approved
 - Disapproved
 - Approved or disapproved in part
 - No action (only relevant for NCP measures involving flight procedures)

Distinction Between Noise Abatement and Noise Mitigation

Noise Mitigation

Addresses non-compatible land uses

- Preventative: addresses future uses
- Remedial: addresses existing uses

Noise Abatement

Reduces noise exposure by moving the source

Major NCP Strategy Options

Noise Abatement

- Noise abatement flight tracks
- Preferential runway use
- Arrival/departure procedures
- Airport layout modifications
- Run-up enclosures
- Use restrictions*
- Other actions proposed by stakeholders

Land Use

- Remedial Mitigation
 - Land acquisition
 - Sound insulation
 - Avigation easements
- Preventative Mitigation
 - Land use controls
 - Zoning
 - Building codes
 - Comprehensive plans
 - Real estate disclosures
- Other actions proposed by stakeholders

Programmatic

- Implementation tools
- Promotion, education, signage, etc.
- Monitoring
- Reporting
- NEM update
- NCP revision
- Other actions proposed by stakeholders

* Subject to further notice, review, and approval requirements in 14 CFR Part 161

Review of NCP Measures

All NCP Measures Must Consider:

- Reduction of existing incompatible land use and prevention / reduction of future incompatible land use
 - The FAA will not approve NCP measures that do not reduce exposure to noise of DNL 65 and higher
- Safety and efficiency
- Consistency with the powers and duties of the FAA
- Avoidance of unjust discrimination against certain aircraft types
- Interstate commerce
 - Measures cannot impose an undue burden on interstate commerce (requires balancing of interests)
- The ability to meet both local needs and national air transportation system needs

Project Schedule

Noise Exposure Maps

- Data Collection Summer 2016-Winter 2017
- Public Outreach Fall-Winter 2017
- Noise Modeling Winter 2017-Summer 2018
- NEM Report/FAA Acceptance Winter 2018-Spring 2019

Noise Compatibility Program

- Alternatives Analysis Spring 2019
- NCP Report Summer-Fall 2019
- Public Hearing Fall 2019
- FAA 180 Day Review/ROA Winter 2019-Spring 2020

Comments

You may provide written comments during this public workshop.
Comment forms are available at this meeting to submit here or by mail

Thank You for Your Participation!

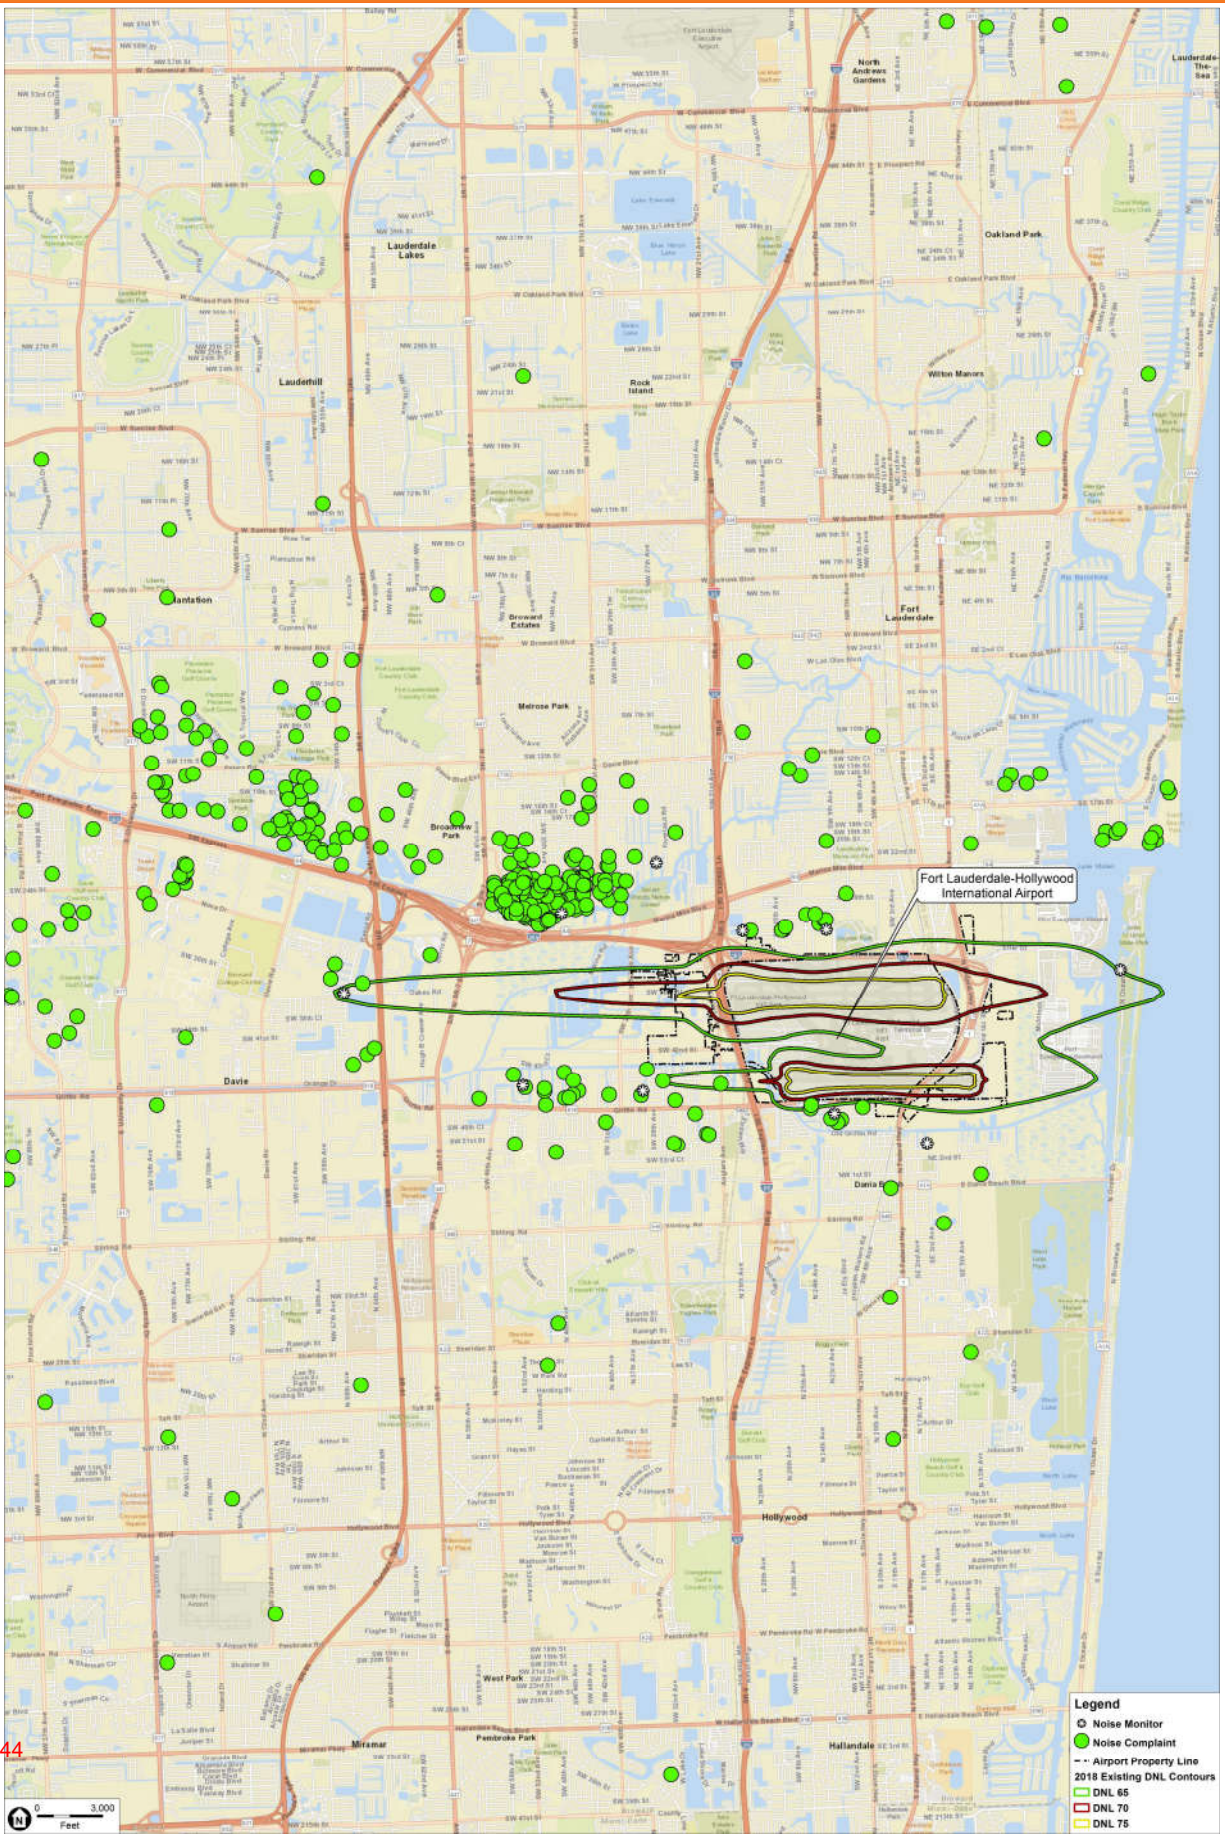

2016 East Flow Arrivals & Departures

2016 West Flow Arrivals & Departures

FLL 2018 Part 150 Noise Contours with FLL Noise Complaints

Appendix I-3

Newsletters

This appendix includes documentation of the Fort Lauderdale-Hollywood International Airport Part 150 Study newsletters, which are distributed to the public electronically.

INTRODUCTION

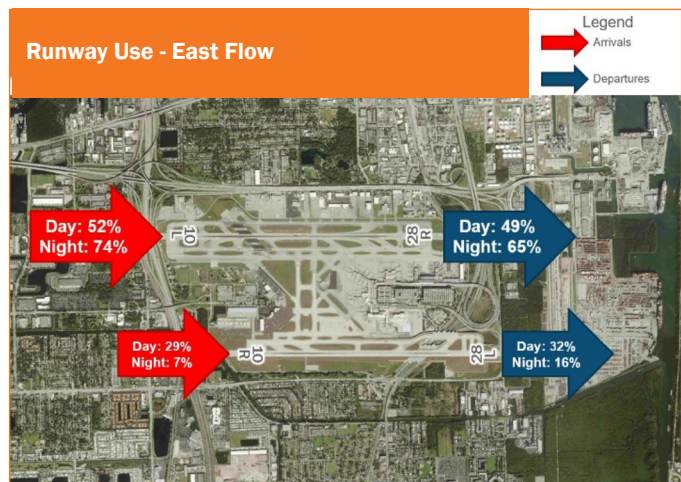

In 2017, the Broward County Aviation Department (BCAD) began a noise and land use compatibility study for Broward County's Fort Lauderdale-Hollywood International Airport (FLL). This study is called a "Part 150 Study" because it follows the process outlined in Title 14 of the Code of Federal Regulations Part 150 (14 CFR Part 150), Airport Noise Compatibility Planning. This Study includes creating Noise Exposure Maps (NEMs) and a Noise Compatibility Program (NCP). The NEMs show community exposure to existing and future airport noise and identify uses that are considered "non-compatible". The NCP recommends ways to reduce those non-compatible uses while preserving aviation safety and airport operational abilities.

TECHNICAL COMMITTEE

The BCAD has formed a Technical Committee (TC) for the Part 150 Study at FLL. The TC is composed of stakeholder representatives who review study assumptions and provide feedback on the technical aspects of the study. These representatives include airlines, air cargo carriers, and local jurisdictions. TC meetings were held in May and August of 2017, as well as March 2018. Additional TC meeting dates for 2018 are pending, but will be listed on the Meetings section of the Study website at <http://www.flpart150.com/meetings/>.

PUBLIC WORKSHOPS

A series of five public workshops regarding the Part 150 Study were held in November 2017. Workshops were held in Southwest Ranches, Hollywood, Plantation, Davie, and Fort Lauderdale. Approximately 140 community members attended the workshops and provided 82 written and 17 verbal comments. More than 25 additional comments were received via the project website and mail. Common concerns noted among the comments received include: flights occurring during early morning and late night hours, flight path changes following the south runway opening, use of the south runway during nighttime hours, and the frequency in which flights are passing over certain areas.

Runway Use graphic prepared for the Technical Committee and Public Workshops.

Mark Gale, FLL CEO/Director of Aviation, welcoming TC Members to the first Technical Committee Meeting in May 2017.

Members of the community completing comment forms at the fourth in a series of public workshops held in November 2017.

PROJECT WEBSITE

The FLL Part 150 Study Team routinely updates the project website with the latest meetings and information available. The following information is available on the project website:

- General Airport Information
- Project Schedule
- Upcoming and Past Meetings
- Resources (Meeting Materials)
- Relevant Links
- Frequently Asked Questions
- Part 150 Study Online Comment Form

The FLL Part 150 Study project website is available at: www.fllpart150.com.

CURRENT PROJECT STATUS

The Part 150 Study team is meeting with local jurisdictions surrounding FLL as part of the land use data collection process. Concurrently, the study team is preparing inputs to the Aviation Environmental Design Tool (AEDT) – the Federal Aviation Administration's (FAA's) approved model for the evaluation of aircraft noise.

Current input items being evaluated by the study team include aircraft types, runway use, time of day for operations (daytime versus nighttime), flight tracks and runway utilization. It is anticipated that preliminary draft noise exposure contours will be presented in late Summer/Fall 2018. After the Noise Exposure Map (NEM) Report has been prepared, a public workshop will be held to present the findings to members of the community, currently anticipated to be held in late 2018.

Once the NEM phase is complete, the second phase of the study, the Noise Compatibility Program (NCP), will begin. The NCP will explore options to minimize aircraft noise exposure on non-compatible land uses surrounding FLL. Operational, land use, and administrative measures will be considered during this phase of the project. All recommended measures must be approved by the FAA prior to implementation at FLL.

GET INVOLVED

BCAD and 14 CFR Part 150 encourage public and agency participation. Please submit comments specific to the FLL Part 150 Study through the website at <http://www.fllpart150.com/comments/>, in person at the public workshops, or by mail to:

Broward County Aviation Department
C/O FLL Part 150 Study
2200 SW 45th Street, Suite 101
Dania Beach, FL 33312

Please focus your comments on the FLL Part 150 Study content or process. Aircraft event complaints should be sent to the Noise Complaint Hotline (1-866-822-7910).
